Hon. C. D. Hineline, Mayor of the City of Cam-

Bounded by no geographi-fines, the reputation of Excuy's Talcornesous pervades the Union. The sales of this article of iate years have increased in a ratio that almost exceeds belief. Professor BARRY, after a careful ex-amination of his sales' book, finds that the number of bottles delivered to order, in quantities of from

half a gross upward, during the year 1652, was with-in a trifle of 950.000. It is unnecessary to present at length the evidence

The cheapness of the article and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. The valuable Medicines above named have recently been introduced, with the approval of a num-ber of the Medical Profession in the City of Baltimore and elsewhere, and in practice have succeeded most admirably in curing the diseases for which they are prescribed. They are offered to the Coun-try Practitioner, as Medicines which he can in all respects depend upon, as prepared in agreement with the experience of some of the most learned

W. S. Love writes to us that he has administered the Expectorant to his wife, who has had the Bronchitis for fourteen years, and that she is fast recovering from her long standing malady. It has in a few weeks done her more good than all the remedies she has heretofore used under able medical counsel.

Sixteen of the best Apothecaries and Pharmacentists in the City of Baltimore, write, "We are satisfied the preparation known as Stabler's Anodyne Expectorant and Stabler's Diarrhaa Cordia are medicines of great value, and very efficient for the relief and cure of the diseases for which they are recommended; they bear the evidence of skill and care in their preparation and style of putting up, and we take pleasure in recommending them." Twenty-seven of the most respectable Merchfuture, the business will be transacted under the name of MacMILLAN, DAVIS & CO. Carolina, who have sold and also used these medicines themselves, say, "From our own experience and that of our customers, we do confidently re-commend them Pro Bono Publico. We have never known any remedies used for the disease for which they are prescribed, to be so efficient, and to give such entire satisfaction to all."

The above notices of recommendation from mem-bers of the Medical Faculty, Pharmaceutists of high standing, and Merchants of the first respec-tability, should be sufficient to satisfy all, that these medicines are worthy of trialby the afflicted, and that they are of a different stamp and class from the "Quackery" and "Cure Alls" so much imposed upon the public.
