CELEBRATED GERMAN BITTERS. PREPARED BY DR. C. M. JACKSON. No. 120 Arch street. Philadelphia.
Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after

skilful physicians had failed. These Bitters are worthy the attention of invalids Possessing great virtues in the rectification of disases of the Liver and losser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are, withal, safe, cer-

tain and pleasant.
READ AND BE CONVINCED. The "Philadelphia Saturday Gazette," says of Dr. Hoortand's German Bitters.
"It is seldom that we recommend what are termed Patent Medicines, to the confidence and patron-

age of our readers; and therefore when we recom-mend Dr. Hoofland's German Bitters, we wish it to se distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universal y prized, and which has met the heart y approval of the faculty itself. "Scott's Weekly," said, Aug. 25: "Dr. Hoofland's Serman Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent men." s of the faculty as an article of much efficacy in case of female weakness. Persons of debili-

tated con- 'utions will find these Bitters advantage-ous to heir ealth as we know from experience the salutary effect they have upon weak systems."

MOSE EVIDENCE. J. G. Moore, Esq , of the Dally News, said. Oct 31. "Dr. Hoofland's German Bitters. - We are try-ng this renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we

many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising calms and strengthens the nerves, bringing them in o a state of repose, making sleep refreshing. If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary deseases commute. them in a healthy condition and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all

indisposed, to give a trial-it will recommend it-self. It should, 'n fact, be in every family. No other nedicine can produce such evidences of merit." "No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."-PECPLE'S ADVO-A Presbyterian clergyman in Ohio, in writing of Hunter's Medical Manuel, says: "Thousands of our youth, by evil example and the influence of the passions, have been led into the habit of self-pollution without realizing the sin and fearful consequenors upon themselves and tacir posterity. The constitutions of thousands who are mising families have been enseebled, if not broken down, and they do not know the cause or the cure. Any thing that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations— Intemperance, (the use of intoxicating drinks,) though it has slain thousands upon thousands, is not

greater scourge to the human race. Accept my hanks in behalf of the afflicted, and believe me, our co-worker in the good work you are so activey engaged in."

PROF. ALEX. C. BARRY'S Tricopherous, or Medicated Compound, OR Beautifying, Curling, Preserving, Restoring, and Strengthening the Hair, Religion Diseases of the Skin, Caring Rheumatic Pains, and Healing External Wounds. Bounded by no geographical lines, the reputation of PARRY'S TRICOPHEROUS pervades the Union The sales of this article of late years have increased in a ratio that almost exceeds belief. Professor BARRY, after a careful examination of his saks' book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1:52, was with

in a triffe of 950,000. It is unnecessary to present at length the evidence es of the wonderful properties of the Pricopherous when the public have furnished review indorse-ment as this. The cheapness of the article and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficiol leritacxpranations given of its chemical action area the hair, the scalp, and in all casts of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired.—
Every bottle advertised itself. The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind. The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.
