# The Commercial. WILMINGTON, N. C .:

THURSDAY NOVEMBER 17, 1853.

OUR OUTSIDE FORM.

On our last page will be found some editorial remarks and an extract from the Tribune, showing the shocking state of society in the city of New York.

On our first page is a charming story of brotherly affection and filial love, in a Journeyman Printer.

## THE PRESENTATION.

The Herald of yesterday has a very interesting account of the presentation of the flags to the Volunteer Companies, noticed in our last-also, of pocket, might, and doubtless are envied by mathe proceedings at the sumptuous dinner prepared by Messrs. Wood & VINCENT, of the Carolina Hotel, on Saturday last. Our columns were pret- resigned to our life of labor and toil. And the' ty well filled when the record came to hand, so we they crowd the sidewalks and obstruct our pasare obliged to "o nit."

## THE FOREIGN NEWS.

From the news we publish to-day, the prospect of a general war in Europe grows dim. We have all along thought there would be no war on account of the Eastern Question, for reasons already stated. We hold to the opinion still-but news may come by the next steamer that the Cannibals the important consequences attending it. The of Europe are eating one another in earnest, for following are the remarks : all that. We are liable to be mistaken, as all men are.

WILMINGTON & MANCHESTER R. ROAD. The Cars on this road are now running up to Marion Court House, and freight is received at that Depot.

## SYNOD OF NORTH CAROLINA.

The Synod of North Carolina met in the Presbyterian Church, in this place, on the evening of the 9th of November. In the absence of the Moderator, Mr. MEBANE, the Rev. Mr. MCPHERSON opened the Synod with a sermon. The Rev. II. McLEAN was elected Moderator, and the Rev. Messrs MCNEILL and CALDWELL, were appointed Clerks. Between fifty and sixty members were in attendance upon the session of the Synod. The dispatch, and the Synod adjourned at a late hour on Saturday night, to meet next year in the village of Concord, Cabarras County.

The most interesting item of business which came before the Synod, was the proposal made by the Synod of Virginia to endow a Fourth Professorship in Union Theological Seminary. This Seminary is under the joint control of the Synods of North Carolina and Virginia, and is located in Prince Edward county, Va., in the neighborhood of Hampden Sydney College. A delegation of Virginians, consisting of Rev. PETTON HARRISON and Rev. Drs. SAMPSON and DABNEY, Professors in the Seminary, appeared in Synod, and gave information concerning the views and feelings of the article on the subject which appears in their paper Virginia Presbyterians, touching this matter .-Earnest speeches were made by Rev. Mr. PENICE and Hon. A. W. VENABLE, and after considerable discussion it was agreed to proceed to the work of endowing said Professorship, and the whole matter referred to the Board of Directors of the Seminary.

The remaining part of the sessions of Synod

" A HAPPY CROWD." There is a great deal of philosophy as well a kindheartedness in the following remarks by our friend CRUTCHFIELD, of the Petersburg Daily Express. We are sure that the "life of labor and toil" to which he is now resigned, will become more and more agreeable as time strengthens his industrious habits, and as he advances in age, the want of an opportunity to labor will become a subject of dread. A man who pursues an industrious course at 25, will find before he is 60, that

it would be almost as agreeable to him to live without food as to do without labor. A HAPPY CROWD .- If any of our friends are ever troubled with the hypo, or as some express on Saturday Evening. it, the "blue d-s," we would advise them to Neither France nor l pass by the tobacco factories on what is denominated pay day. The jovial and buoyant flow of spirits that pervades the heart of cuffee, after his week's work is over, and the "dimes" are in his of Vienna and Berlin are equally eager in their Romish ritual, on Thursday, at St. Patrick's Catheny who, "clothe themselves in purple and fine linen, and fare sumptuously every day." For our own part, we never see them without feeling more sage, we invariably walk around. They look too happy to be interrupted for any trivial offence .-

There is a genuineness too about their happiness, that renders it pleasant to contemplate. THE LEMMON SLAVE CASE.

We had almost lost sight of this case, but are reminded of it by some remarks of a Washington Correspondent of the Baltimore Sun, as well as

view of the Southern States the importance of the tinople, and that the supposed armistice was to Lemmon slave case, and the decision of Judge allow time for its acceptance. He also suggests that every Southern State should be heard before that business was transacted with great unanimity and tribunal. The State of Virginia has already provided for this trial, and New York will follow her example at the next meeting of her Legislature. Thus we shall have, after a while, a cause and an tive of peace.

We cannot say we see things in relation to the ate New York election, in the same light that the Editors of the National Intelligencer do, though we "will hope for the best," as respects the rights and interests of the South. We desire that our readers should know something of the views of these veteran politicians, and give a part of an of Monday last :--

The Whigs have now the uncontrolled command of the State, with the exception of the Governor, (who holds over from the election,) but the Whig majority in both Houses of the Legislature will be amply sufficient to overcome his vetoes, should he think proper to resort to that extreme measure in order to annoy or embarrass his political oppo-

#### NEW ORLEANS.

The New Orleans Commercial Bulletin of the wth inst. expresses some sentiments and facts relative to that city, which will be cheering to its friends throughout the Union. We are rejoiced that the late severe affliction has not cast down or dismayed the people there. May we not hope that there will be some amendment in regard to religious observances, and that while New York is proximating a general desecration of the Sabbath, the great and prosperous city of New Orleans may pass rapidly forward in reform, till the reproach that has, we fear, justly been cast upon her, may be wiped away ?

The following are the remarks of the Bulle'in EXTRAORDINARY RECUPERATIVE POWERS .- We have always believed New Orleans to be a great city, and destined to be much greater. Even when the saffron cloud of the epidemic hung so forebodingly over us, we knew that there was a prosperous, a glorious future, ahead. It is true we felt apprehensions that the epidemic would exercise deprecative influences for a year or two; but for the Sou-h, when we are opposed to the Sewthen, having great confidence in a good system of and and Greeley party-and are much more anxsanitary regulations, we had no doubt would be ious that Southern principles should remain unadopted, we felt sure that all would wear off in a bries period, and that our course would be again who is to be our next President, or which party onward and upward, unimpeded by any obstacles shall prevail in the next contest for that office. difficult to surmount

"We considered the loss of twelve or fifteen thousand citizens infinitely more damaging to the out the former-we hope to see in power. It may be called whig or deepidemics, the sickness of last season would cause to prevail throughout the country.

"But judge of our agreeable surprise, when a friend informed us that New Orleans had fully recuperated within the last thirty days-had considerably more than made up within that time for the losses of ninety days of epidemic, founding the calculation upon the probable vote cast !

" His estimate is that the number of votes cast on Monday, will exceed that polled at the Presidential election fifteen per cent !

" There are at least one thousand voters absent, and at least one thousand were swept off by the yellow fever. Considering all these things New Orleans has exhibited recuperative powers as astounding as gratifying ! In ten years, at this rate, the population of the Crescent City, will exceed half a million! Who now can say that the yellow fever, or any thing else, can arrest our wonderful city in its onward march to greatness, renown, and population ?

#### FIRE AT RICHMOND.

About half past 12 o'clock on Saturday morning last, the Tobacco Factory of Messrs. Goode & Allen, near 21st street, and north of Main, was destroyed by fire. The loss was about \$7,000, upon which there was an insurance in the Richmand Fire Association, of \$3,500. From Messrs. Goode & Allen's factory the flames spread rapidly to the North and set on fire the adjoining factory of Mr. E. A. Smith, situated on the east side of

#### WISCONSIN ELECTION.

Telegraphic reports from Wisconsin represent that the Democrats have elected their State ticket by a large majority. Such an event was to have been expected in that decidedly Democratic State. The Milwaukie Sentinel states that so far as hat city was concerned there was " but one issue thought of or talked of," and that was the "Liquor Law." The vote in Milwaukie on that question was, in favor of a prohibitory law 897, against it 3,002. It fared better in the counties.

THE LIVERPOOL AND PHILADELPHIA STEAMSHIP COM-PANY, have completed a contract with Messrs. Tod & M'Gregor, of Glasgow, (the builders of their vessels the City of Glasgow and City of Manchester, as also the City of Philadelphia, now rapidly approaching completion,) for a fourth iron screw steamship for their line, to be called the City of Baltimore. She will be about 2 500 tons mea-

surement, with a length overall of 350 feet; and when this vessel is completed and on the station there will be a departure once every fortnight, in stead of once every four weeks, as at present.

THE ELECTION IN MISSISSIPPI.
