Neuralgle Diseases, 1) HEUNATISM, painful and swelled joints, neu-L rates, of the face, deafness, blindness. St. Viustdance, pripitations of the heart, periodical head acte, pains in the stomach, indigestion, dy-pepsia,

These chains were first introduced in the city of New York less than one year since, and after being subsected to the most thorough trial in every to spiral in the city by Drs. Valentine Mott, Post, Carnochan, and Van Buren, it was discovered that they possess strange and wonderful power in the relief and cure of the above class of diseases, and they 41 once recommended, through the papers of the city, their general use, and their sale and the success that has attended their use, is unparalleled Previous to their introduction into this country. they were used in every lospital in Europe, and are secured by patents in France, Germany, Austria Prussia, and England; and also in the United

"Thi k close and ponder well." The principles upon which it is claimed that the Chains produce their marvelous cures are, first-that all seavous diseases are attended and produced by a deficient supply of nervous fluid and an agent that res miles closely electricity or electramagnetism; and second-that the electro magnetic chains, by being worn over and upon the par and organ diseased, turnesh to the exhausted nervous system, by its powerful stimulating effects, the nervous fluid which is required to produce a healthy action through the entire system. No disgusting nostrum is allowed to be taken while using e chains, but a rigid observance of the general laws of health are required. Brisk friction upon the part diseased adds much to the effect of the chains, by increasing their magnetic power. 1000 DOLLARS

will be given to any person who will produce so many well authentleated certificates of cures, both train intelligent patients and scientific physicians, as have been affected by Pulvermache's Electro Chains. They never fail to perform what they are advertised to do, and no person has ever been dis-suissied who has given them a trial. In Female Diseases, more than one hundred permanent cures of pro-

larses ateri have been effected within the last year by the use of these chains. By applying one end of the chain over the region of the abdomen and t e-collect upon the spine, just above the hips, the usual severe symptoms incident to that disease are

Mode of Use.

The chain should be moistened before use with common vinegar, and then one end of the chain should be applied directly to the seat of the pain or disease, and the other end opposite to it. Brach & Brownson -Sirs: I send for another bottle of your "Marchisi's Utarine Ca-tholicon" My wife has been afflicted for eleven years, and a variety of means has been resorted to for relief, but none was obtained until I received this medicine from you. Its influence seems almost magical; there was a manifest improvement from the day it was taken. Their power over the above diseases is not excell ed, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids eases of the Liver and lesser glands, exercising the most searching powers in weakness and affections

READ AND BE CONVINCED. The "Pullidelphia Saturday Gazette," says of Dr. Hoopland's German Bitters.
"It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recomend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long

established, universally prized, and which has met the hearty approval of the faculty itself. "Scott's Weekly," said, Aug. 25 : "Dr. Hoofland's erman Bitters, manufactured by Dr. Jackson, are men. s of the faculty as an article of much effica-ey in c. s of female weakness. Persons of debilitated con 'utions will find these Bitters advantage-ous to heir calth as we know from experience the salutary effect they have up in weak systems."

MOXE EVIDENCE.

J. G. Moore, Esq , of the Daily News, said, Oct 31. "Da. HOOFLAND'S GERMAN BITTEES. - We are try this renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have derived more benefit from the experiment than ve derived previously from years of allophatic treatnent at the hands of our first physicians." Hon. C. D. Hineline, Mayor of the City of Cam-

len, N. J , 8138: "HO FLAND'S GERMANS BITTERS .- We have seen many flattering notices of this medicine, and the ource from which they came indue d us to make inquiry respecting its metits. From inquiry we were persuaded to use it, and mest say we found it specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts ipon nervous prostration, is really surprising 1: ealms and strengthens the nerves, bringing them in o a state of repose, making sleep refreshing. If this medicine was more generally used, we are satisfied there would be less sickness, as from the

stomach, liver and nervous system, the great majority of real and imaginary deseases emanate. Have and will keep constantly on hand a full supply of them in a healthy condition and you can bid defiance to epidemies generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial-it will recommend itself. It should, 'n fact, be in every family. No other medicine can produce such evidences of merit." For sale wholesale and retail at the
