The Palldelphia Saturday Gazette, says of Dr Hourland's German Bitters. It is seldom that we recommend what are termd Patent dedicines, to the confidence and patronage of our readers; and therefore when we recom-mend Dr. Hoofland's German Bisters, we wish It to be distinctly understood that we are not speaking of the nostroms of the day, that are noised about for a bilef period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met

the heart y approval of the faculty itseif. "Scott's Weekly," said, Aug 25: 'Dr. Hoofland's -man Bitters, manufactured by Dr. Jackson, are now "commissioned by some of the most prominent nen. "s of the faculty as an article of much efficacy in case of female weakness. Persons of debili-tated consultions will find these Bitters advantageous to their realth as we know from experience the salutary effect they have upon weak systems. MOSE EVIDENCE.

J. G. Moore, E-q., of the Daity News, said, Oct 31, "Da Hoofland's German Bitters. - We are tryng this renowned medicine for a stubborn disease of he howels, and can with truth testify to its efficacy. We have taken the contents of two buttles, and we have derive tomore benefit from the experiment than we derived previously from years of allopharic treatment at the hands of our first physicians. Hon. C. D. Hineline, Mayor of the City of Camden N. J. savs:

"HOFLAND'S GERMANS DITTERS - We have seen many flavoring notices of this medicine, and the southe from which they came induced us to make aquiry respecting its merits. From inquiry we were persuaded to use it, and in steay we found it specific in its action upon diseases of the liver and ligestive organ, and the powerful influence it exerts apon nervous prostration, is really surprising. It calms and strengtlens the nerves, bringing them in to a state of repose, making sleep refreshing.

If this medicine was more generally used, we are ity of real and imaginary deseases cmanate. Have them in a healthy condition and you can bid defi-ance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, 'n fact, be in every family. No other redicine can produce such evidences of merit."
