THE NEBRASKA QUESTION. There is no little stir in the North and West relative to the Nebraska Question, but the most important action to note, at present, is that of Congress. Mr. Douglas gave notice on Friday last that he desired to bring the debate to a close

on vesterday. He said : The friends of this bill, under the impression that it seems to be the understanding of its opponents that the debate may be concluded at an early day, have consulted together as to how long a time its friends would be responsible for perfeeting it, and have come to the conclusion that to-day, to-morrow, Monday, and Tuesday would puable us to bring the debate to the conclusion; so that on Wednesday, at one o'clock, I may sum up the debate, and afterwards take the vote on that day. I make this announcement with the view that those who are anxious to go away may rely upon how we shall proceed to act.

be the general understanding. The Schator from be able to go on to-day, after the Senator from irginia.

But Mr. CHASE said he wished to propose a number of amendments to the Bill, and a k the vote of the Senate upon them, but that he would not interpose any objection to the question being taken at the earliest possible moment, consistently with doing his whole duty in regard to it. To what length the gentleman's sense of duty may carry him, is quite uncertain-it may be his intention to postpone final action as long as possible, by moving these amendments.

against the Bill. The N. Y. Herald says: 'Among setts. These people, who are perfectly willing thus that Congress should legislate slavery out of all Territories, deny that the same body has the right to permit the inhabitants of said Territories to devise and execute such laws as they may deem beneficial to their interests. One thing is particularly worthy of notice: while the generality of the people, through their silence, give acquiescence to the measure before Congress, the freesoilers are vainly endeavoring to create an excitement, and otherwise doing their utmost to defeat it. The sober-minded reader cannot have failed to observe that nearly all the opposition comes from quarters that have long been noted for the rank abolitionism of thefr inhabitants-vide the meeting in Anburn, Mr. Seward's home, in Boston, in Hartford last evening, &c."

The Legislature of Wisconsin have passed Resolutions condemning the Nebraska Bill, in the House, by a vote of 47 to 26. The Democratic State Convention, which as-

FURTHER FROM EUROPE.

The intelligence received by the Europa will give quite an opposite turn to opinion in regard to the question of war in Europe. The news is decidedly of a pacific character. The Turkish Cabinet has made way for one less bent on war .-There are rumors again of a reference of the Turco-Russian question to arbitration. On the 5th a smart affair took place near Giur-

gevo between the Turks and Russians. The loss on both sides was considerable. It appears that 3,000 Turks crossed the Danube, routed the Russian outposts, and attacked the town, after which they retired. A dispatch from Vienna, Feb. 8, says that nego-

tiations for peace are certainly going on, and that the Emperor Napoleon has, in an autograph letter, made a last appeal to the good sense of the Emperor Nicholas.

> DREADFUL MARINE DISASTER. The coast of the Island of Barra, off the Western part of Scotland, has been the scene of the total loss of the Liverpool ship W. H. Davis, Captein Carling master, while on her voyage to New Orleans, with every soul on board (excepting one man) in all 30 persons. The ship had become unmanageable in the course of the recent fearful westerly gales, and in attempting. on the night of the 26th of January, to weather Barra head, she went ashore on the rocks of Vatersay, within a short distance of the spot where the Anne Jane an emigrant ship, was lost a few months since. The moment the ill-fated ship touched the rocks, the master and crew took to the rigging, as their only chance of escape, expecting, no doubt, as the wreck heeled over, they would be able to gain the rocks. In a few minutes the ship was dashed to pieces, and the whole of the poor fellows fell amid the wreck and perished. Only one escaped -the steward, a young man, named Robert William Rushmore, of Liverpool. He took refuge on the bowsprit, and as the vessel went to pieces he sprang forward and succeeded in reaching the rocks in safety, although very much bruised. He was almost insensible when assistance arrived the next morning. Several bodies of the crew were discovered among the rocks by the fishermen, who

conveyed them to Vatersay for interment. CONGRESSIONAL.

I would state, therefore, to the friends of the bills reported and an interesting one; for what was said, howcontrary to its wont-held a session on Saturday, practical application of them to the bills reported may be taken, in pursuance of what I believe to ever, rather than what was done. The Constitution of the portions pressed against the heated furnace, he United States has settled that matter. But is it a treaty, or only a programme that may become a treaty? The Republican's hatred of Nebraska must be intense to de scend to such imbecile hostility.

The facts, we learn from Major Gatewood, are as follows: He was directed to prevail on the form. O r consuls are excluded our ministers Indians mentioned to consent to a treaty with the cut, and our secretaries insulted -all done " be United States for a sale of their land; and he was furnished with written powers of attorney States as a final settlement of the agitation of the which he was to get those Indians to sign, dele- will not work both ways. These matters being thus understood, we hope the Republican's nerves will not be too much shocked to bear another repetition of the particulars of Major Gatewood's treaties, by which one half of Nebraska, including the great valley of the Platte, is to be cleared of Indian title and opened to white settlement. So here goes from the Savannah Sentinel :-

DEPARTMENT OF STATE, February 25, 1854. by the Superintendent General of the Royal Exchequer of Cuba has been received from N. H. ROBERTSON, Esq., acting United States Consul at

1st. Vessels entering the ports of this island with mineral coal, having on board an equal or greater quantity than the number of tons stated in their registers, shall continue enjoying the benefits and exemptions that were hitherto granted to them, even when they bring other merchandis besides

2d. Vessels importing coal solely, but in lesser quantity than their measure, shall have the relief only upon the portion occupied by the coal; and the difference between this portion and that which may result from the admeasurement to be effected will be subjected to the payment of the full tonnage duty; but the vessels are allowed the other

3d. Vessels having on board, besides coal in qual quantity to their measure, other cargo in any quantity, are in the same case tonnage dues; but will be subjected to the payment of ponton and health dues, visits, registering and other usual charges. 4th, and last. Such vessels as after being dis-

charged shall give a result of 20 per cent. less than the quantity manifested and certified by the respective consul, lose the right to any exemp tion, and will be subjected to the charges estab lished for other trading vessels. It is also her Majesty's will that the exemptions specified are to be understood for the term of one year, to be reckoned from the date of the publication of this order, within which time its effects are to be marked, so that, with a full understanding of the subject, the measure may be definitely confirmed at the proper day, or revoked, as may be convenient. HAVANA, February 9, 1854.

TO CONTRACTORS!

LUMBER WANTED PROPOSALS will be received till the 17th day of April, 1854, for furnishing to the United States, delivered at Fort Jefferson, Portugas Island, Florida, the following bill of Lumber, viz:—
310,000 feet b m. 6 X 8, yellow pine, in any lengths, from 9 to 27, or 30 to 38. The lumber must be sound, free from large or rotten nots, cross shakes, and generally of any im-perfections which will materially affect its strength and be sawed straight and true to dimensions. A

moderate amount of sap on any piece will not be objected to, but all sticks which are not sawed clear of ha k will be rejected. The lumber must be subject to inspection and measurement after delivery at Fort Jefferson, by an Agent of the United States appointed for the pur-pose, and will not be considered as received, till such inspection and measurement shall have been

At least 100,600 feet must be shipped within one month after the signing of the contract, and an equal or greater quantity must be delivered in each subsequent month, till the whole is turnished. Payments will be made on the delivery of each cargo if desired, twenty per cent being however de-ducted from each payment, and retained till the

Proposals should state the price per M., at which the lumber will be delivered at Fort Jefferson, free of all costs to the United States, and be directed to the undereigned at Key West, Fla., and endorses
