### THE HARPERS.

We very much regret to learn that Harper and Brothers were among the losers by the fire in Spruce street, New York on Sunday morning .-Since the destruction of their establishment theyhave had considerable of their work done by Mr. 8. W. Benedict, the publisher, and about \$15,000 worth of their materials being on Mr. B's premises at the time, of the fire, was consumed.

MEETING IN BRUNSWICK. A meeting of the Whigs took place in Bruns wick on Monday evening, March 6, and responded to the nomination of Gen. DOCKERY.

Mr. Davis took occasion to return his thanks for the honor done him by his brother Whige of Brunswick, and other Counties, in their warm support of himself for the Gubernatorial nomination. \* \* \* \* \* He read and commented in terms of approval upon the resolutions of the Whig Convention, prenounced a warm and earnest eulogium upon the Whig candidate, urging the tried and true Whigs of Brunswick, to prove themselves in the approaching contest worthy of themselves and their ancient renown.

We see a resolution was passed requesting the insertion of the proceedings of this meeting in The Commercial-but as they were not handed in to this office, it was not, of course, deemed of importance, and we consequently omit them, excepting the notice above.

### OUR MINISTERS ABROAD.

The following remarks relative to the American Representatives at Paris, are very severe, but we cannot say they are undeserved. The fact is, such is the despotism of party, that we may never expect that the public honor and interest will be paramount considerations in the appointment to office, either at home or abroad .-The question is not "Is he honest, is he capable?" But "How does he wear the collar ?"

# THE GARDINER FRAUD.

We are indebted to the Administration of Mr. Fillmore for the exposition of the monstrous the following remarks:

guilty parties. Shall the others escape? A comthe claim.

From the proceedings in the House on Tuesday, we find the matter is by no means considered settled. Mr. Perkins, of Louisiana, offered the following Resolution:

Resolved, That the Judiciary Committee be instructed to inquire into the propriety of directing legal proceedings to recover any sum of money which may have been paid to any person out of the treasury on the claim of Gardiner and Mears, under the Commission, which adjudicated claims on Mexico, under the provisions of the treaty of Guadaloupe Hidalgo.

Mr. Cutting suggested an amendment to add with power to send for persons and papers," in order that the committee might determine against his box, and he asked them if they intended to whom to commence suit.

The amendment was agreed to, and the resolu-

This affords no excuse for him, but may give a clue to further developments, by which the gang of robbers in high life may be after he thought they were gone, opened the winbrought to justice.

We have no sympathy whatever with the guilty parties. There was no temptation of poverty and want to lead them to the commission of crime, but only the incitement for wealth and aristocratic distinction. These scoundrels were emulous to live in style; they had no notion of being ranked among the "vulgar," who labor for a livingnot they—they must be "gentlemen," of course. restigated by the directors.

FUSS AND FLUMMERY. In a second letter to the Editors of the Nation al Intelligencer, Mr. John M. Borrs, of Virginia.

perpetrates the following stuff: "No man can look abroad upon the political horizon but must see the gathering of a dark and portentous cloud in the North. A storm is ap-proaching the violence and fury of which threatens to sweep over the face of the country, de-tructive in its course, annihilating in its const mences. All confidence, all fraternity, all harquences. All considence, all traternity, all har-mony is to be obliterated; party lines will be ex-tinguished; there will no longer be men of the North and the South, the East and the West, meeting in National Councils, under the style of a National Democracy or a National Whiggery; but it will be a meeting of the free States against the slave, and the slave States against the free; &c. There are now, apparently, no hopes of peace the North against the South, and the South sgainst the North. It needs no ghost from the grave, nor the North. It needs no ghost from the grave, nor does it need much of a philosopher or statesman, to calculate the duration of the Union, when that happens, as happen it will, or happen it may, as there is too much reason to fear.'

We have heard political alarm bells before, and heed them as much as we would the ding dong of New England cow bell. Suppose the parties are broken up? It will be one of the greatest blessings to the country. As to the obliteration of "all confidence, all fraternity," the sooner it is done the better-that fraternity, me mean, which we have enjoyed of late, and of which the New York Tribune is the principal exponent.

This threat about the danger of the 'North against the South" is all Flummery. The North has been continually so, under the covert of party. Mark the lines, if you choose gentlemen; and tinguish her friends from her enemies. Give what name you please to the order of arrangement, "it is a consummation devoutly to be wished."

The Tribune says that "this is a warning which those immediately interested should pender well." We will do that thing.

THE FILLIBUSTERS.

We learn that late advices have been received at the Navy Department from the squadron in the Pacific Ocean, somewhat affecting the Fillibuster prospects in that quarter. Among the Dispatches is one from Commander Dornin, commanding the United States ship Portsmouth, now at San Francisco, in reference to unlawful expeditions. The presence of a man-of-war has been attended with this good result-that it prevented the sailing of two vessels with men and military supplies. The decided language of President Pierce, and the rumored interference of our Government with the further proceedings of these adventures, have very seriously reduced the value of their scrip.

CONGRESS. Two important bills were passed by the Senate flagrant neglect of its duty than any one of those on Wednesday; the first the bill to promote the corrupt institutions—the monarchies of the old efficiency of the army, by providing for a retired list of disabled officers; the other to promote the interests of humanity, by granting to the several States portions of the public lands for the support of indigent insane persons.

A VANDAL ACT IN WASHINGTON .- The stone presented by the Pope of Rome, intended as a tribute of respect to the memory of Washington to be placed in the National Monument, was stolen and destroyed on Sunday night. The Washington Star says:

Mr. Peterson arrived at Monrovia the last of November, and spent upwards of we months in the country. The Legislature of the Republic was in session at the time, and Mr. Peterson was consequently enabled to gather from intercourse with the representatives of the more remote districts, ample information pertaining tothe condition of their constituents. Mr. Peterson went from Monrovia in the English mail steamer Hope to Gambia, touching at Sierra Leone. Among his fellow-passengers was Mr. Abram Cauldwell, of this city, who visited Liberia as agent of an Agricultural Association from here, part of whom have already emigrated to the Republic. Mr. Cauldwell was unwell at leaving Monrovia, and in the progress of the voyage, his illness increased so as to endanger his life. An attempt on the part of one of the stewards of the ship to induce the dying man to bequeath to him his effects was foiled by the interference of Mr. Peterson, who rebuked the mercenary spirit of the interloper, and succeeded in preserving for the wife and children of the emigrant his watch and clothing. Mr. Cauldwell survived till the steamer reached Sierre Leone, where he was landed about 3 P. M. and died at 8 the same evening, while under the care of a competent physician and ourse. # THE FRESHET.

MILTON CASWELL COUNTY, March 2. 1854 .- No iving man ever witnessed in this country such a destructive freshet as that of Sunday and Monday last. The-high-water marks of former periodsexcept in the case of Dan River-were submerged for several feet. Bridges which had been placed upon sites which all former experience had proved to be secure-founderies, blacksmith shops, cooper shops, which had hardly ever been touched by former swells, were swept away by the floods along the whole length of the County Line. We do not believe that a single bridge is left upon any of the streams, north of Hyco-over which only a skirt of the cloud seemed to restwith one exception. Independent of the damage thus done, that sustained by the lands must have violence of the currents.

As was to be expected, such a breaking up of all means of intercourse, as wasoccasioned by the loss on our bridges arrested general attention .-We commend the spirit with which the authorities of the town acted in this emergency. Scarcely had the waters subsided, before a free ferry was established at the foot of main street, which bridges forthwith .- Chronicle,

The Martha Washington Conspirators. The St. Louis Intelligencer states that a row occurred on board the steamer Belle Sheridan, on the Ohio, a few days since, in consequence of the appearance of some suspicious looking characters who came on board at New Albany and at points below, for the purpose, as was supposed, of rescuing the Marth Washington conspirators, who were on board in charge of Marshal Bruin. A demonstration was made at a rescue, but it re sulted in a complete failure of the plans of the niously set on shore. The Martha Washington conspirators, as they are termed, were on their way to Arkansas, to take their trial for murder on a requisition from the Governor of that State.

THE MORMONS AND MATRIMONY. The following extracts, taken from an address to the "Congregation of Saints," delivered by one Adams, Bro. & Co. of the Mormon elders, and published in the Deseret News, will show what sort of nonsense, blasphemy and immorality is being disseminated in Utah Territory, in the name of religion:

"Celsus was a heathen philosopher; and what does he say upon the subject of Christ and his apostles, and their belief? He says "the grand reason why the Gentiles and philosophers of his school persecuted Jesus Christ was because he had so many wives; there was Elizabeth and Mary and a host of others that followed him." After Jesus went from the stage of action, the apostles followed the example of their master. For instance, John, the beloved disciple, writes in his second Epistle. "To the elect lady and her children whom Hove in the Lord." Again he says, "having many things to write unto you or communicate. I would not write with paper and ink, but I trust to come unto you, and speak face to face, that our joy may be full." Again, " The children of thy elect sister greet thec. This ancient philosopher says they were both John's wives. Paul says, mine answer to them that do not examine me is this: Have we not power to lead about a sister, a wife, as well as other apostles, and as the brethren of the Lord and Cephas?" He, according to Cephas, had a numerous train of wives.

"The grand reason of the burst of public sentiment in anathemas upon Christ and his disciples, causing his crucifixion, was evidently based upon polygamy, according to the testimony of the philosophers who rose in that age. A belief in the doctrine of a plurality of wives caused the persecutions of Jesus and his followers. We might almost think they were Mormons.

"You need not wonder that we raise stout boys in the mountains, for we want children of the right build; we do not want a scrubby breed here. Men of Mormon blood are not afraid to die. The men that trouble, and whose hearts go pitty-patty because they have got to die, are not worth a been very great, by reason of the extraordinary picayune. A man that refuses to walk up in the track, no matter what comes, and steadily press forward, though there should be a lion in the way he is not of Mormon grit. That was the grit Joseph Smith bad; and when he spoke by the power of an endless priesthood, which was upon him; and that is the power by which Brigham speaks. When he stood up in the majesty of his priesthood, and regbuked the judges here, I know some of our will be continued until another bridge is built .- | milk and water folks thought all the fat was in To-day, we understand, a general meeting of the the fire. "Brother Brigham has gone rather too Magistrates of the county will be held in Yancey- far; he might have spoken a little milder than he ville, who will authorize the erection of new did; I think it would have been much better," ect. This was the language of some hearts; and I feel to say, damn all such poor pussyism. When a man of God speaks, let him speak what he

pleases, and let all Israel say amen." SUSPICIONS OF PRIVATEERING. The N. York Times mentions a report that an unusual number of vessels, chiefly clipper schooners, are now being fitted out at that port and Baltimore, destined, according to the explanation of some of the parties concerned, for the Danish West Indies. The entire fleet is reckoned at twelve or thirteen sails, manned chiefly, if not altogether, by Danish and Swedish crews.

SPIRITUAL The pimples on a toper's face are an old fashioned sort of 'spiritual manifestation.' They cannot be said to come exactly from beyond the grave, but they show clearly that the 'medium' is burrying himself toward the grave.

The Court of Rome is divided on the great question of the day.
