The Commercial. WILMINGTON, N. C. TUESDAY, MARCH 14 1854. FOR GOVERNOR: GEN. ALFRED DOCKERY.

COUNTY COURT. The Court of Pleas and Quarter Sessions New Hanover County is now in session in this town, Col. J. T. MILLER, Chairman.

THE ROBBERS. Henry Howard and Asa H. Parks, were examined on Friday, and committed to jail in default of bail of \$2.000 each, on a charge of grand larceny.

CONGRESSIONAL DOCUMENT.

Among other matter, we have received from Mr. Ashs, our Representative, the Seventcenth Census of the United States, to 1850. It is a bound volume of 1,022 quarto pages, and is a very useful and interesting Document.

THE COMMERCIAL CONVENTION.

We invite the attention of our citizens to the subject of sending Delegates to the Commercial Convention to be held in Charleston on the secand Monday is April next. It is expected that our neighbors of Virginia will send Delegates from the cities of Richmond, Baltimore, Petersburg. Norfolk, Lynchburg, Alexandria and Fredericksburg. Whether any other town in this State will attend to this matter we know not- but hope Wilmington will be represented.

We do not think it necessary to say anything in regard to the object of this Convention, as the matter has been already laid before the public, We may mention one fact on this occasion, which is decisive of its merits-GREELY of the N.Y. Tribure abuses it-and every Southern man knows he is right when opposed commercially, politically, morally and religiously to that newspaper and its party.

PROPOSED PLANK BOAD.

It is proposed to build a Plank Road from Hills borough to Milton, with a Branch to Yancyville, and several meetings have been held to consider the subject. We are pleased to learn, from the Milton Chronicle, that the citizens all along the route are becoming alive to the subject, and there is a good prospect that the work will be accomplished. The distance from Hillsboro' to Milton is 32 miles, which the Editor thinks can be constructed at \$17.50 per mile, with few bridges to construct, and the Yancyville Branch will be twelve or thirteen miles-so the whole will cost seventy-five to eighty thousand dollars. A very small sum compared to the great advantages that will accrue to the sections immediately, interested & Co., 79 Fulton Street, New York, at \$3 a year as well as the State at large. The benefit of such enterprises are general, and not limited to the Blackwood and the four Reviews \$10. space they occupy. The State will, of course, take a fair proportion of the Stock.

NEBRASKA EXPEDITION. A Nebraska expedition has been organized in Chicago. Over one hundred have signed the roll. and others are expected to go. The expedition starts April 1st, under the leadership of Captain Gibbs.

HARMONY OF THE COMPROMISES. great deal is said in reference to the opera

And now, that a proposition is before Congress, to restore the Constitutional rights of the South and take this question so basely handled in social circles at the north, out of the hands of politicians, we are told about pledges and harmony, and the Tribune comes out for" Persevering, all-pervading agstation." Let it come as it may, it cannot be worse than it has been, so far as the feelings and honor of southern people are concerned .-Aye, agitate ! agitate ! "Trouble, trouble, boil and bubble," as Shakespeare says : We will be very glad to see what sort of a stew the Abolitionists and their friends will make of it. Be sure and nut "Uncle Tom's Cabin" in the chauldronit may help wonderfully in mixing up a dose that may stupefy the South, so as to put her into an-

other compromise slumber. But there is another peril with which we are threatened, and that is that there will be sectional parties-the North against the South and vice versa. We have long wished to see a consumma tion so auspicious to Constitutional equality and the breaking up of a horde of party politicians, more corrupt than could have been expected possible in a land where the people are the ostensible governors. For our part, we care not how soon or how rigidly the North draws this line of demarcation. The danger to be apprehended is a mere bugbear. Nothing else will bring the people of the different sections to their senses. There

will be no flummery, then, about "glorious union," to cloak political iniquities; but both parties will be placed in a position in which their true interest will be made manifest. It will be found that the interest and prosperity of the Republic and the happiness of the people are based upon the Union and all parties will be compelled to admit the equity and the policy of sustaining the Constitu-

tion as it is. No one section will depend upon compromises made with the other, in regard to its

be Pardoned. HALIFAX, March 7 .- The Royal Mail steamer Asia has just arrived here from Liverpool, with dates to the 25th ult., three days later than the advices per Atlantic.

The Asia sailed from Liverpool early on Saturday morning. EASTERN AFFAIRS.

No naval or military battles had been reported ince the sailing of the Atlantic.

France and England continued to make formi able preparations for the conflict. Austria's movements were becoming much more favorable to the allies of Turkey. Political events of the highest importance were

becoming developed in regard to the position of the parties in present difficulties. England has formally notified Russia of her inteution to send a fleet to the Baltic, and that Sir Charles Napier would be placed in command. The Russian fleet on the Baltic is under orders

o fit out for service. The English ships are surveying off the en-

rance to the Baltic. France demands that the Republic of Lubec shall permit the establishment of a depot of coal and provisions there, free of duty.

The allied flects remain in the Bosphorus.-Five additional French ships of the line are to join the Baltic fleet. Great secreey is observed with regard to the

movements of the French expedition, but it is known that two divisions will leave Toulton on the 6th of March.

GREECE.

The Greek insurrection in Turkey was formidable. In Epirus the insurgents have taken the town of Asia, and besieged the Turks in the cita-

del. Three thousand insurgents were within 10 Magazine of Art, by Alex. Montgomery, 17 Spruce miles of Yannia, a town of Southern Albania .-An Albanian detachment of Greek regulars have gone over to the insurgents. Armed bands of Albanians were going from village to village distributing arms among the people and arousing them to action. The Greek government was apathetic and powerless. An insurrection broke out at Solenica on the 9th inst, but the Turks

attacked and defeated the insurgents. Disturbances had also taken place at Kutaiah Angori and other places in Asia Minor.

Greece itself was also greatly excited and dis turbances had taken place in the Ionian Islands. ENGLAND. It was generally reported that a manifesto had been agreed to by France and England, having

all the force of a formal declaration of war, and that it will appear in a few days. It was also further rumored that England has made a final announcement to the Czar, naming the definite time within which to evacuate the Principalities.

England had formally notified Russia of her intention to send a fleet to the Baltic. Prince George, of Cambridge, will command

POLITICAL APPAIRS. The political agains throughout San Francisc are in a very exciting condition. The Citizens of San Diego were to hold a mee-

ing to denounce the proceedings of the fillibusters of Lower California, and to make preparations to attack them The frigates Portsmouth and Columbus had left

San Francisco, for the purpose of attempting to capture the fillibusters.

Ozegon, Feb. 3-The latest advices from Walkker's expedition announce that a proclamation had been issued, exhorting the men to assist him [Walker] in rescuing the people from the tyranny of the Mexican Government.

A portion of his men had refused to act, and the two sections had come near having an open bat-

Forty-five men had left the camp, and it is reported that only a hundred and fifty were left, who intended to start in the steamer, about the 5th of February, to take Tiburn island.

CHINA. The Friend of China says that at Amoy all was quiet on the 22d instant. There is no present

hope, however, of an early resumption of business. The rebels have given out their intention of atempting to retake Amov.

The Bishop of Victoria, who has heretofore expressed unfavorable opinions of the religious professions of the insurgent leader, has changed his views on further information. The Friend of China publishes the following extract from a scrmon lately preached by him at St. Luke's Cathedral in Victoria :

"Passing events even in China indicate the aproach of a wonderful epoch in the history of the world and of the church. A movement in the inlerior of the Chinese Empire, which, whether considered as to the smallness of its commencement, the original weakness of its more prominent

agents, the suddenness of its development, or the rastness of its present results, may be pronunced ruly wonderful, now excites the hopes of chrisendom, and attracts the attention of Western nations. It is in no way the course of true wisdom or policy to excite unduly sanguine hopes, or to encourage exaggerated ideas as to the religious features of this movement. The course of events will soon scatter every theory to the winds, except that based on truth and reality. The friends and promoters of christian missions are in no way interested in propagating views or exciting er-

pectations which the world will ere long have an opportunity of testing and correcting for themselyes by a closer view and a mere intimate observaion of the chief actors in this moral revolution in the interior of China. With these deductions, and with a full consciousness of our liability to error and misconception in judging respecting these occurrences, I may state individually for myself that, after residing for six months near the

scene of these important occurrences, among our Worth. missions in the northern ports, and after having I. VanBokkelen obtained the best information on all hands available for arriving at a just conclusion, my own mind is deeply impressed with the belief that these faint and feeble beginnings of an imperfect and immature christianity are but the first phase of a course of providential developments which will issue in a wide diffusion hereafter of the pure

But what have you done for us, dear brethren of the North, under this brotherly system ? Your Press has poured upon us one continuous stream of obloquy and reproach; you have talked not only of keeping Slavery within its present limits. but have boldly avowed a determination to abolish it altogether. You have not only belied us on every and on all occasions; but you have stolen our property and deprived us of our constitution al rights, whenever you had the physical power or the corrupt Agencies of the Law to enable you to do so. You have prevented, by violence, the execution of a Constitutional Law, and murdered our citizens who attempted to claim their property under its sanction. And this harmonious arrange ment, with its harmonious consequences, you are very conscientious about disturbing-you pretend to venerate unconstitutional Compromises: for yielding to which the South ought to blush with shame, while you have descerated and disannulled the Constitution itself-and now you wish to impose upon us the continuation of the rank hypocrisy that has marked your conduct for years, by a vile pretence of regard for pledges and obligations-false and fleeting as you have proved yourselves to be, in relation to all of them.

You patronized and encouraged a brazen, un principled woman, to publish a scandalous libel on the South, and sent her abroad to incite the indignation and invoke the contempt and scorn of the civilized world, through distorted facts and atrocious falschoods, upon us, your beloved brethren of the South. You have this Book in your houses and even some of the conservative and most considerate of our northern friends, look upon it "as next to the Bible." Thus do you teach your children that the sons of the South are to be scorned and abused, and her daughters insulted. You are bringing up the rising generation to believe that the character of Southern people is all horrible, as you have heretofore made them believe that we were cruel and unprincipled. In your common schools and Academics, the first recitations taught to the pupils have been those, that engender a hostile feeling against us. We give an extract :

"See how the black ship cleaves the main ! "High bounding o'er the violet wave ! "Resounding with the groans of pain, "Deep freighted with the princely slave! * * * * * * * * Did all the gods of Afric sleep; "Forgetful of their guardian love; "When the white traitors of the deep, "Betrayed him in his palmy grove !"

But your pious and conscientious teachers, about Boston and all along shore there, forget to tell the pupil, as he concludes his episode : "We yankees did this thing my boy-we vankees first set this ball in motion." Oh, no, "they never mention it" -so the boy is wont to be horrified at contemplating southern society, and to look upon southern people as the authors of wrong.

In the pieces which have been chosen, from time immemorial, for the scholars to speak in from Norfolk for Barbadoes in distress,-was northern schools, there is now and then a specimen of the Srows taste-as follows :

"For when he sees the loved-one of his heart. "And his loved daughters torn by lust away ! "His sons, the poor inheritors of smart-

"Had he religion, think you he could pray ?" And sentiments like these you have always promulgated as applicable to Southern Society-but no teachings ever come up to the vulgar licentiousness and vile profanity which has been reach-

LEGISLATIVE VISIT.

The Legislature of Illinois paid a visit to the city of St. Louis, Missouri, on the first of the present month. There was a salute of artillery, a military parade, a formal welcome by the civil authorities in presence of a large concourse of people, a grand dinner, ball, &c.

CONGRESS.

On Friday, the Senate adhered to its late resolution allotting Friday for the consideration of the private calender, and devoted its public sitting to the discussion of private bills, a few of which were passed. About three o'clock an Executive acssion was held, and the body in a short time adjourned.

Business progressed but little in the House of Representatives. A resolution was passed calling upon the President for information in regard to the alleged outrage upon an American steamer at Havana; and an extended inquiry was ordered in regard to claims allowed by the late Board of Commissioners under the Mexican treaty. The House confirmed the amendment of Mr.

Kerr to the Minnesota Railroad bill, viz : to distribute the proceeds of the reserved sections of land among such States as have received no grants of land for internal improvement. The bill was then laid upon the table by a decisive test vote; and this may probably be considered the fate of all bills of a similar character.

STABLE RACING.

A colemporary, in noticing a Race about to take place, says that several Stables are in training for the occason. In old time folks used to train Horses for this purpose, but such is the progress of "Young America" that they are going to set the Stables a running. Gracious ! How we would like to be there; provided there was a very wide track and much space between the spectators and the combatants. Well, well, what will these fellows do next.

GEN. LAFAYETTE. During the Revolutionary war, Gen. Lafayette being in Bultimore, was invited to a ball. He went as requested, but instead of joining in the amusement, as might be expected of a young Frenchman, of twenty-two, he addressed the ladies thus-"Ladies, you are very handsome ; you dance very prettily; your ball is very fine-but my soldiers have no shirts." The appeal was irresistible; the ball ceased, the ladies went home and went to work, and next day a large number of shirts were prepared by the fairest hands of Baltimore, for the gallant defenders of their country.

HORRIBLE SUFFERING AT SEA. BOSTON, March 8 .- The bark Saxonville from Calcutta, fell in with on 1st of March the bark Orline St. John, Capt, Sobbird, of Gardiner, Me.,

hove down on 21st of February in a Southeast gale. The Captain's wife and a seaman named Martin died on the 22d, and a colored scamen named Douglas on the following day. Since that time until fallen in with, the survivors, the Captain two sailors and the cook, had no provisions or water, and had to live on the body of Douglas. They arrived here in the most distressing state.

An alliance, offensive and defensive, had been formed between France and Switzerland.

A very significant announcement in the Paris Moniteur says: " If the flags of France and Austria are united in the East, France will not permit any attempt at a separation beyond the Alps

This is regarded as a threat to raise Hungary and Italy if Austria sides with Russia. The same article also says : 'France cannot suffer the integrity of the Ottoman empire to be broken by aggressive acts from Greece.' And further, "that France discountenances any attempts at revolu-

tion anywhere." This last announcement is viewed as official. AUSTRIA. Austria continues to send troops to the southeastern frontier, but says that she does so mercly

THE EASTERN WAR. Accounts ftom Asia being nothing new except that the Shah of Persia had officially declared

his neutrality. On the Danube, the Turks and Russians were preparing for a great and decisive battle, which would take place as soon as the roads permitted.

LIBERIA. Commodore Isaze Mayo, of Maryland, at present in command of the United States naval force es on the coast of Africa, has written an interest ing letter to the Rev. Mr. Pease, of the Pennsyl.

vania Colonization Society, in which he gives a very flattering picture of the present condition o Liberia. He says :

"No one who sees the American emigrant in the Liberia Legislature and Courts of Justice performing the highest duties of a citizen with grave and decorous intelligence; no one who sees the ample provision for education indicated by the numerous schools, and the signs of religious culture attested by the many church edifices, no one who sees the proofs of prosperity exhibited by the erection of substantial and spacious brick houses, which are fast supplanting the cheaper structures of the early colonists, will fail to find

abundent evidence of the improved condition of the black man, when transplanted to the land of his forefathers; while in the United States he must retain an inferior station, in spite of the fanatical efforts of his false friends the abolitionists. "I have the strongest faith in the bright future

that awaits Liberia, and the strongest confidence that she is to wield the most powerful influence in regenerating Africa. Enterprise, industry, and integrity will command success in this new home of the colored emigrant, and, when the acclimating fever is over, (which is very little dangerous to those of African descent,) the climate is one of fnusnal salubrity."

Commodore M. also states that the slave-trade has been in a great measure suppressed, but thinks that the withdrawal of the American squadron

gospel and the conversion of vast multitudes to the faith of Christ."

IMPORTANT DECREE OF MEXICO. Santa Ama has decreed a navigation act, which embodies some of the principles of free trade and reciprocity. Mexican ressels may import goods from any country at the established rate of duties Vessels of foreign countries, reciprocating with 11. Mexico, may import their products on the same terms, otherwise they are to pay an additional 150 per cent both on imports and exports. Ves sels of reciprocating foreign countries, importing the products of other foreign countries will be subject to the same tonnage and port duties as Mexican vessels. Those of other countries will

pay double those dues. Vessels of nations not having commercial treaties with Mexico will pay all these additional duties. THE SEIZURE OF THE BLACK WARRIOR.

The agents of the steamship Black Warrior have published an account giving the particulars of her scizure at llavana, which confirms the statements heretofore published. The affairs it will be seen has attracted the attention of Con gress, and the House has called upon the President for all the facts of the case in his posses-

sion. POSTAGE TO HAVANA. A house at Havana recently paid on eleven newspapers from the United States, four dollars and twelve cents, or 121 cents per ounce. This is the regular rate at present. Of course it is designed to be prohibitory, and such is its effect in most cases.

BANKS KILLED. All the bills introduced into the Kentucky Legislature, at the present session, for the charter of new banks, were rejected in the House of Representatives on the 6th inst.
