EASTERN AFFAIRS. Public affairs in Europe were unchanged The fear of war produces duliness in all the markets. The exports of gold from England were not quite so heavy, and the rate of interest was unchanged.

The London Globe states that Russia has consented to recognize the neutrality The Prussian people were earnestly peritioning their Government to join the Wes.

An English and French frigate have gone to destroy the Russian stockade at the mouth of the Danube.

The Czar's written proposal to the demands of the Western Powers had not come to hand. it was supposed that he would not send a categorical answer, but will accept war if it is offered. The French vessels of war, Hercules,

Austerlitz, Trident and Zecobia had started to join the English fleet in the Baltic. A despatch to the London Times, dated Berlin, March 24th, states that the Czar would take no notice of the French and English summons for the evacuation of the Principalities. The French regard this as

the signal of war. The French expeditionary force for Turkey will stop for rest at Gallipolli, a town near the mouth of the Dardanelles. The English force will establish itself on the Bay of Enos, at the mouth of the river Maritza. The French army will afterwards proceed either to Adrianople or the Crima.

through the Russians Minister at Paris, made the same proposals to Napoleon, in had previously been rejected by the English Government.

The Russians had been defeated in small affair in the lower Danube, with the loss of 100. The Greek revolution was gradually

dying out. The exports of grain was prohibited from the Ionian Islands. ENGLAND.

In England the preparations for war and the shipment of troops continued with un-

abated activity.
The steamer Cambria sailed from Liverpool for Kingston on the 25th, to ship

more troops. The steamer Teneriffe will sail soon with part of a regiment for Malta. A collision had occurred in the English Channel, between the American ship Ann Kemble and the Bonetta of Liverpool .-The latter sunk immediately, and 11 lives were lost. The Ann Kemble was badly damaged.

Monteaux & Co., brokers and bankers in London, failed for a half million of dollars. FRANCE. Prince Josephin Murat was married to

Md'lle Berthier on Thursday. Arrangements were making for the transit of English troops through France to embark for Turkey.

Heavy failures were expected in Paris. A leading house failed for 40,000,000 francs -88,000,000.

AUSTRIA. It is stated that on the 15th of March couriers were sent from London and Paris, calling on Austria to join France and England in carrying into execution against Russia, the protocol signed by the Four Powers. Austria in reply declines to bind herself to act, and reserves to herself full liberty to do whatever the interests of Ger-

many may require.
PRUSSIA. The Prussian Government was greatly alarmed at popular demonstrations which were being organized in the north of Prussia to welcome the English and French fleets on their arrival in the Baltic.

England has asked that Gallipoli be fortified for embarkation of the troops. The Turks had burnt ten of the Greek,

The weather on the Black Sea was terible, helling almost constantly, and very cold. Intelligence from this quarter of the highest importance is looked for daily. A rumor prevailed that Russia had blockaded the mouth of the Danube at five different points. Hostilities have doubtless before now commenced in the Black Sea

The Russians had ordered all the grain ships not actually cleared to be stopped and forced to unload. A ministerial crisis still exists in Den-

mark threatening trouble. The Emperor of France, it is rumored, says he now regards Austria as his ally against Russia That otherwise Hungary and Poland will be aided against her:

It was rumored that France would shorty expose all the secret correspondence of the Czar, which is similar to that made public in England. The Russian government is greatly alar-

med at the monstrations in the North of Prussia, for welcoming the English and French fleets, forcing the Prussian government to take part in the war. The barque Boneta was run down on

the 24th, and eleven lives lost. American stocks were very dull. Germany was much excited Spain was also in a state of excitement. enring insurrection.

The superiority of Herring's (Wilder's) Salamander Sales over all others induced many to infringe upon the patent right by using the composition; others more cautious, and to evade a hawait, made an inferior article, imitating the exterior in form, 'style, color of painting, and attaching the name 'balamander,' 'The Genuine Salamander,' 'Fire Proof Salamander,' 'The Genuine Salamander,' 'Acc, 4c., and have succeeded in palming off some of the spurious Salamanders as genuine. Their suffering was intense. All the men left behind were disabled.
