FOR GOVERNOR:

THE FIRE IN CHARLESTON. The loss by the lafe fire in Charleston is estimated from \$400,000 to \$500,000.

GRAND LODGE NORTH CAROLINA, I. O. O. F. The Annual Meeting of the Grand Lodge of North Caroliua, Independent Order of Old Fellows, will take place, in this town, on Munday, 8th May next.

DENTISTRY. We invite attention to the advertisement of Dr. CARR. It is a good plan to make known the prices of work. We have reason to know that the Doctor can do a first rate job in his line.

SUPERIOR COURT. The Superior Court meets in this town on Monday next, His Honor Judge SANDERS, presiding. The Docket is very large, but we may expect a great deal will be done if it is not entirely cleared, from the antecedents in the Circuit, in which more business has been done under the administration of Judge S. than for a long time past.

#### TREATY WITH MEXICO.

It is said the Mexican Treaty was rejected in the secret session of the Senate on Tuesday. Various changes in the Treaty are reported to have been made before the final vote was taken. It did we not believe Mr. Docksay sound on these. was subsequently re-considered, and may yet be we would not vote for him. As it is, we can vote approved.

THE HOMESTEAD BILL. In anticipation of the passage of the Homestead Bill, giving land to actual settlets, petitions are sent to Congress from those who have recently purchased land of the Government, to have their money returned. This is a very fair proposition.

# MEETING IN PORTSMOUTH.

A meeting was held in Portsmouth, Virg., or the 17th inst. to devise some ways and means, by which the frequent escape of slaves from that port to northern States, might be prevented ; also to protect the property of the citizens of Portsmouth from the torch of the incendiary. A Committee of 21 citizens was appointed to draw up Resolutions on the subject, which will be published at a future day.

OUR BAR.

MAIL ARRANGEMENTS.

We omitted to notice on Thursday a matter that should not be neglected. A meeting was held in Charleston on the 14th inst., by the Presi lents of the Montgomery and West Point, Musengee, Southwestern, Central, Waynesburgh, South Carolina and Wilmington, and the Manchester ratiroads, to arrange the running of a double mail service between Washington and New Orleans, by which the mail will be expedited 12 hours ; the arrangements will take effect as soon as practica ble, probably the 1st of June.

# ADULTERATED LIQUORS.

It seems that the public are not aware of the poisonous mixtures they drink, under forged brands, purporting to be the first class of Liquois of various denominations.

If other proof of this were needed, besides the results of chemical analysis, it night be found in the facts that more Port is drank in the United States in one year than passes through the custom house in ten; that more Champagne is consumed in America alone than the whole Champagne district produces; that Cognac Brandy costs four times as much in France, where it is made, as it is sold for in our corner groggeries; and that the failure of the whole grape crop in Madeira produced no apparent diminution in the quantity nor at all corresponding increase in the price of the Wine.

CONSTITUTIONAL REFORM.

We are glad to see the Salem Press, a neutral paper, take the only sensible and republican ground in regard to alterations in the State Constitution. That paper says: "We are in favor of a Convention of delegates elected by the people for the express purpose of amending the Constitution, as the most Republican, speedy and economical mode. And it seems to us that the sovereign People, after having given the Legislature two fair but ineffectual trials at Constitution making, might consistently take this matter out of their hands, and appoint faithful agents, dele gated expressly for the purpose, to meet in Convention and make such amendments or alterations in regard to our State Constitution as they may desire, thereby settling this vexed question at oncr.

# COUNTERFEITED NATIONALITY.

It appears by a communication in the New York Courier that ships are leaving that port with American registers and under the American flag, but really owned and commanded by Englishmen, all the steps taken towards citizenship being the declaration of intention of becoming a citizen made by the captain. This grows out of Mr. Mancr's doctrine about the 'Domicil" on which we commented at the time, and is by no means the first evidence of the folly of his as sumptions.

## THE BAPPERS.

The Rappers have got their new theory before Congress. Amongst the memorials on Tuesday manifestations, in relation to which Mr. Shields much troubled by it. entered into a learned and somewhat playful disquisition. We do not see how the National Legislature can manage the thing, unless they pass a common sense.

# & LAWYER IN THE TOMBS.

A lawyer of Boston, was arrested at a public house in Broadway, New York, on Monday night, for being drunk and very disorderly. He was taken to the Tombs and locked for the night. On his person he had a draft on Duncan, Sherman

I shall feel I have done my best to apport the honor of the flig, and not allowed a citizen to be oppressed who claimed at my hands the protection of the flag."

Mr. Dobbin, the Secretary of the Navy, in his reply to Capt. Ingraham dated August 19 1853

This Department does not feel called on to enlarge on the various questions of international law involved in the proceedings adopted by the officers of the different Governments concerned These questions may hereafter become a subject of discussion between the respective Governments

interested. I deem it proper at present to content myself by assuring you that the prudence promptness, and spirit which marked the par ou hore in the transaction is approved by this Department. It is a matter of gratulation that he affair terminated without a resort to collision

and bloodshed. "The President desires that upon all occasions and in all parts of the globe visited by the American navy the rights and the property of American citizens shall be watched over with vigilance and protected with energy; but he with no less earnestness enjoins it upon the officers of the navy to exercise due cantion to avoid the slightfraction of the laws of nations and scruphously regard the rights of others. Respect the flags of other nations, and with the more pride you can demand respect for your own."

We adopt the patriotic language of the National Intelligence on this occasion. The Editors say: "We know not which most to admire-the high principles and honorable feelings evinced by the naval commander under most trying circumstances; the propriety, judgment, and kindness with which the act of the officer was treated by the Scoretary of the Navy Department; or the humane and just sentiments which Mr. Dobbin so to his horse. Witness asked Thomasson if he was finely expressed on behalf of himself and the hurt. Chief Magistrate in his reply to Capt. Ingraham. The rules of conduct for our naval commanders abroad laid down by the President in the last paragraph of the Secretary's letter are not surpassed, in our judgment, in clearness justice, discrimination, or beauty by any State paper of similar import. We confess that we are proud to see maxims so just and so honorable to the country sent abroad by our Government."

PROVISION FOR THE INSAME. It gives us sincere pleasure to state that the bill to distribute among the several States grants of public land for the support of indigent insene persons passed the House of Representatives on Wednesday, after a strenuous but unavailing opposition, by a triumphant majority; and it now only requires the approval of the President to become a law.
