ARRIVAL OF THE GEORGE LAW.

Highly Important Intelligence.

WAR DECLARED IN MEXICO. Blockade of the Port of Acapulco-Terrible Steamboat Explosion in the Bay of San Francis:o-Ten Days Later from Australia.

The mail steamship George Law, Captain Fox, arrived at New York yesterday morning. She left Aspinwaflat II o'clock on the 30th ult. She brings the California mails of April 15, \$347,573 in treasure on freight, and 584 passengers. She connected with the Pacific Mail Steamship Company's steamship John L. Stephens, and the passage has been made through in twenty-three days and three hours.

The intelligence by this arrival was brought down by the John L. Stephens, which left San Francisco some hours after the Sierra Nevada, with 500 passengers. The news from Mexico is of a highly interesting nature. Santa Anna had blockaded the port of Acapulco, and the govern-

party are busily engaged in fighting. Rufael Duarte, the murderer of Mrs. Wills, was shot a few days ago by a ranchero of Santa Clara county. The coroner's jury justified the act, and said that the world was "rid of a monster."

On the 15th instant Mr. Henre C. Day was stabbed and killed in this city by Win. Shepheard, because he (Day) would not give his daughter in marriage to Shepheard.

Laura Keene made her first appearance on the 4th, and the Batemans on the 10th, at the Metropolitan; the Denins appeared for the first time on the 10th.

Mies Hays has not appeared in public since her return. Among the deaths in California we note

the following:-Wm. B. Dell, formerly of Bedford county, Va.; S. D. Scales, of Tenn., and Wm. Freeman, colored Baltimore.

The following report is furnished to the New York Herald by the purser of the John L. Stephens:

BLOCKADE OF THE PORT OF ACAPULCO. On the 22d, at 5 P. M., arrived off the harbor of Acapulco, saw two vessels, showing what appeared to be French colors, laying off the main entrance, each of which fired a gun as the Stephens approached through the north channel, and soon afterwards fired a shot which fell short of us -The engine was immediately stopped, and the helm put to starboard. The ship forereaching came in full view of the fort. which appeared to be crowded with men The steamer then losing her steerage way, and drifting towards the rocks on the north shore of the bay, the engine was started ahead to bring her head round to wind and tide, when the ship and schooner coming up under our lee in point blank range, fired two shots close over us. The engine was again stopped, a boat lowered, and the first officer sent to inquire the cause of their firing into us. He was not allowed to board the ship, but was met by an officer in the ship's boat, who informed him that the port was blockaded, and that we must immediately leave the harbor, or he would

sink us if he could. Capt. Pearson himself then boarded the ship, and was immediately informed by the commander that his orders were imperative from Santa Anna, to allow no vessels to pass, and that if we attempted it he would fire into us. Having sufficient coal to reach San Juan the ship was put on her course at 9 P. M, and orders given to the chief engineer to use all possible economy.

26th.-The engineer reported sufficient coal to reach Panama, and the ship was accordingly put on her course for that

During the detention of the Stephens at Acapulco, shots were frequently exchanged between the two vessels and the fort, and, without effect on either side. Santa Anna with an army variously estimated at from 3,000 to 5,000 men, was encamped in the neighborhood, and it was expected that he would make an attack on the town Liberal Cash Alvan-es made on all Consignments. during the night.

28th, at 9 P. M., arrived at Panama with barely sufficient fuel to reach the anchorage.

TERRIBLE STEAMBOAT EXPLOSION. From an extra issued at the office of the San Francisco Commercial Advertiser, just previous to the sailing of the John L. Stephens, dated April 15, 4 P. M., we have intelligence of a terrible steamboat explosion in the bay of San Francisco. The particulars are as follows:

This morning, about 10 o'clock, the steamers Secretary and Nevada left from Pacific wharf, bound for Petaluma. At 12 o'clock precisely, while crossing San Pablo bay, the Secretary burst her boiler, carrying death and destruction in every part of the boat to the passengers, of whom a large number were on board. So great was the force of the explosion, that the boat was literally blown to pieces. The Nevada happened to be near, and immediately rendered every possible assistance.-She immediately put about, after caring for the survivors and attending to the dead .- Next door to A. A. Wannet's, on North Waterst. Many persons were blown overboard, and their bodies not recovered. The Nevada arrived at San Francisco at 3 o'clock, with the survivors and the bodies of those recovered. We learn from Capt. Travers, of the Secretary, that the scene on board af. E.P. Hall, Wilmington, Wiley A. Walker. ter the explosion was awful-the groans of the dying and wounded, and the lamentations of those whose friends were lost, being heart-rending.

The following is a correct list of the killed and missing, as far as ascertained: D. Johnson, D. H. Van Burin, Lewis Johnson, James McGuire, Edward Bruce Brocket, Mrs. Hardin, Richard A. Lewis; L. Lamberton, clerk ; George Clark, Jesse Potter, Mrs. Hilmans and child, James Wright; Mr. Bessin, engineer; Mr. Miller. Jr.; Savannah, W. B. Giles & Co.; New Orleans, Wright; Mr. Bessin, engineer; Mr. Miller, deck hand; John Ebbetts, W. H. Tripp. Thomas Cameron, J. A. Shorley, Judge Ferrill; Wm. Lunky, wife and child; Geo.

The Secretary was owned by Gordon & Steen, of San Francisco, and valued at \$25,000. We have no estimate of the value of the freight and baggage. None of it was saved. The Secretary was sink-ing when the Nevada left. We have only given the names ascertained to be missing There are others whose names we could

LIEUT. STRAIN'S PARTY. From the Panama Herald of April 25, we learn the following :-- On Sunday Lt. Stran and his companions returned from San Miguel in H. B. M.'s ship Virago, and on the same evening the whole of the party, except Lieut. Stran and Mr. Maury, started across the isthmus, under the command of Lieut. Truxon, to join the Cyane at Aspinwall. We regret to be obliged to add that Mr. A. F. Boggs, of Ohio, an engineer attached to the expedition, died on Sunday evening of debility. Lieut. Strain and Mr. Maury left for Aspinwall yesterday morning. The Cyane will sail immediately for New York, touching at ment troops and those of thy revolutionary Havana for provisions.

LATER FROM AUSTRALIA. Advices from Australia are to February 4th. The news not important. The steamers New Orleans and City of Norfolk were lying at Sydney unsold. Emigration was still active between Australia and Peru -A fire at Hobartown, Jan. 21st, destroyed

property valued at \$500,000. Mining affairs were prosperous. A monster nugget of gold had been found near Melbourne, weighing over 52 pounds .-

The metal was nearly pure. The total amount of gold brought into Sydney during the week previous to the 3d of February, was seven thousand ounces. The yield of the various gold fields was as great as formerly.

The establishment of railways throughout the colony was being discussed with a commendable spirit. FROM SOUTH AMERICA

Dates from Callao have been received up to April 11. Affairs in Bolivia and Peru were as complicated as ever. Castilla still holds South Peru, where he had been proclaimed liberator of his country. He was in correspondence with President Belzus, D. C. FREEMAN. of Bolivia, who had promised him assistance. There were 42 American and 65 English vessels at Chincha Islands. Seamen were still scarce, and the crews of several ships had deserted. Exchange on he United States 5 per cent

SANDWICH ISLANDS. We have dates from Honolulu to the 23d March. The King has called the Legislature to meet on the 8th of April. The census returns of the islands have been published. The total population is 71,019, of whom 27.079 are males and 2,118 are foreigners. Attention has again been directed to the

anomalous privilege, granted in former years to the missionary body, of importing val Stores or other produce. goods free of duty. The King's birth-nay was celebrated with much pomp and hilarity, on the 17th

of March. S. M. WEST, Anctioneer and Commission Merchant. WILMINGTON, N. C.

DR. JOHNSTON. Member of the Royal College of Surgeons, London; graduate from one of the most eminent Colleges, of the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, and bashfuness, with frequent blushing, attended sometimes with derangement of TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit which rules both body and mind, unfitting them for either business or society. These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dinness of Sight, Loss of Muscular Power, Pulpitation of the Heart, Dyspepsia, Nervous Irritability, Derange ment of the Digestive Functions, General Debility Symptoms of Consumption, &c.

Mentally,—The fearful effects on the mind are much to be dreaded; Loss of Memory, of Causing of Ideas, Depression of Spirits, Evil-Forebodinon Aversion to Society, Self-Distrust. Love of Soli tude, Timidity, &c , are some of the evils produced Thousands of persons, of all nges, can now judge what is the cause of their declining health. Losing their vigor, becoming weak, pale and emaciated have a singular appearance about the eyes, cough and symptoms of Consumption.

DR. JOHNSTON'S INVIGORATING REM-EDY FOR GENITAL DEBILITY. This grand and important Remedy has restored strength and vigor to thousands of the most ner-vous and debilitated, many of whom had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole facu ties become restored to their proper power and functions, and the fallen fabric of life raised up to beauty, onsistency, and duration, upon the ruins of an emaciated and promature decline to sound and pristine health. Oh, how happy have hundreds of misguided youths been made who have been sud-denly restored to health, from the devastations of those terrific maladies which result from indiscre-tion. Such persons, before contemplating

MARRIAGE. Should reflect that a sound mind and body are th most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pligrimage, the prospect hourly darkens to the view—the mind becomes shadowed with despair, and filled with the melancholly reflection, that the happiness of another be-comes blighted vith our own. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful consequences of this ter-

TO STRANGERS. DR. JOHNSTON, of the Baltimore Lock Hespital, whose long residence in this city, standing as a gentleman of character and responsibility, extensive practice in the various Hospitals of Europe and this country, and skill and experience to which thousands can testify, as well as his ability in the Surgical department of his profession, as evider ced by reports of life operations on the Eyes and Deormed Limbs, published in the Baltimore Sun and other papers, in the years 1841 2, by which the blind were made to see and the lame to walk straight, renders him worthy of all confidence upon the part of those who need his prefessional services, and who would shun the many triffing and ignorant pretenders advertising themselves as Physicians.

To those unacquainted with his reputation, Dr. Johnston decins it necessary to say that his credentials or diptomas always hang in his office.

TOFFICE, No. 7 SOUTH FREDERICK St., East side, up the stens. SALAMANDER SAFES.

THE name of Salamander was first applied to Wilder's Patent, and introduced by the subscriber in 1840, who in 1844 purchased the right to manufacture. The superiority of Herring's (Wilder's) Salamander Safes over all others induced many to infringe upon the patent right by using the composition; others more cautious, and to evade a lawsuit, made an inferior article, imitating the exterior in form, 'style, color of painting, and attaching the name "Salamander," Improved Salaman-der," "Fire Proof Salamander," "The Genuine Salamander," &c., d-c., and have succeeded in palming off some of the spurious Salamanders as genuine. Those wanting the original Salamander man-ufactured by the subscriber, should take the precaution to see that they have upon them a metal plate—"Silas C. Herring, Maker,"-all such being the genuine (Wilder's Pateot) Salamander, or Herring's Improved Patent Champion Safe, which received the medal at the Great World's Fair, and which have never failed to preserve the contents in case of fire. MEDICAL HOUSE,

SOUTH FREDERICK STREET, BALTIMORE, MARYLAND. Established in order to afford the Afflicted sound and scientific .nedical Aid, and for the suppression of

Quackery.

DR. I. B. SMITH has for many years devoted his whole attention to the treatment of Private complaints, in all their varied and complicated forms. His great success in those long standing and diffiult cases, such as were formerly considered incurable, is sufficient to commend film to the public as worthy of the extensive patronage he has received. Within the last eight years, Dr. S. has treated more than 29,500 cases of Private Complaints, in their lifferent forms and stages; a practice which no loubt exceeds that of all other physicians now ad ertising in Baltimore, and not a single case is known where his directions were strictly followed. and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore, persons afflicted with diseases of the above nature, 'no matter how difficult or long standing the case may be," would do well to call on Dr. Smith at his office. No. 16, South Frederick St., and if not effec ually reneved no remuneration will be required for als services. His medicines are free from Mercury and all mineral poisons; put up in a neat and com pact form, and may be taken in a public or private house, or while travelling, without exposure or hin-drance from business, and except in cases of vioent inflammation, no change of diet is necessary, STRICTURES. - Dr. Smith has discovered stricture and that without pain or inconvenience to the patient. Irritation of the uretha, or prostrate glands or neck of the bladder, is sometimes mis: aken for strictures by general practitioners or charlatans

FINDING A WAY OUT Few of our cavalry officers would be stopped by fence; but for this they are not indebted to what they learn in the ridingschool, but to their being accustomed to ride across country. All foreign cavalry practise at the leaping bar, yet their offi-cers, when they meet with a wall or a gate, are pounded. I remember a very amusing instance of this. During some manœuvres in Italy, an Austrian General with his staff got amongst some inclosures, and, not wishing to ride back, sent some of his aides-de-camp to look for an outlet. They peered over the stone wall, rode about, but could find no opening. An' Englishman in the Imperial service, mounted on a good English horse, formed part of the staff, and the General turning to him, said, "Mr. W ---- k, kindly see if you can find the way out of this place." Mr. W-k, a Yorkshireman, and a good rider, went straight at the wall, cleared it, and whilst doing so, turned in his saddle, new method by which he can cure the worst form of and touching his c p, said, " This way, sir." I need not add that his way did not quite suit the remainder of the party.

REMARKABLE ENGLISH WILL FORGERY CASE. At Gloucester, England, during the first week of April, the trial of Sir Richard Hugh Smyth, alias Thomas Provis, came on. The Court was crowded to suffocation. The charges against the accused were, that he had feloniously forged a codicil te the will of Sir Hugh Smyth, Bart, with the intent to defraud the rightful heir of his property. Last year the case which this forged will was intended to sustain. was tried, ane resulted against the present defendant, the whole machinery of the fraud, such as a bought Bible, produced sidered strictly confidential. Office arranged with as a family heir-loom, the forged seal, &c., were then expessed. The trial resulted in the conviction of the prisones, who said in his defence that he could not be charged with the uttering of the documents, because they were not produced in Court by himself but by his solicitors. The accused has a wife, said to be a very beautiful young woman, and he asked for mercy on her account. The Court sentenced him to twenty years' transportation.
