LUCKY YIELD FROM PLOUGHING. A colored man, while ploughing on the farm of Mr. S. Hulster, about a mile from Richmond, Va, struck an old iron pot containing a number of Mexican dollars, amounting, it is said, to 150 or \$200. The deposit of this treasure was said to have been made by an old man named James Housen, a creole, who was possessed of this farm for several years previous to 1816.

AN EXCITING CHASE.

A race, causing considerable excitement, occurred in the southwestern part of the city of Philadelphia on Saturday. A carter, named Neil Brown, shot a load of dirt into one of the streets of Moyamensing, contrary to law. He was immediately arrested, and taken in the direction of ted Chinese evidence. From these accounts it the officer of Alderman Enne. The policeman would appear that the Chinese, or at least the walked on the sidewalk, and the offender kept alongside, but still in his cart. In the vicinity of sirable addition to the motley population of our Eighth and Christian streets Mr. Brown, having Pacific shore.

become highly conscious of the advantageous position he occupied, determined to make an attempt to escape. Accordingly, he gave the whip to his horse, and set off at full speed for his home, at Thirteenth and Catharine streets. The officer pursued, and the race became very exciting. A crowd tollowed, stimulated by the report started by an inventive brain, that the cart run over two children and killed them both. The horse proved more than a match for the officer, and, reaching his house, Mr. Brown jumped out of the cart, ran icto the house and attempted to conceal himself under the bed. But Lutz was indefatigable He soon came up, entered the house and discovered the carter. That individual was hauled from his hiding-place, considerably abashed by the failure of his attempt to evade the arm of the law.

THE EMPRESS OF THE FRENCH.

As the Empress was, on the 17th ult., passing n her carriage near the Arc de Triomphe, on her return from St. Cloud, a young woman who seemed in great agitation, rushed forward to present a petition. In her precipitation she went too near one of the wheels, and her right foot was crushed; one of her arms also caught in the wheel, and was a good deal bruised. She fell on the pavement, but, though her sufferings were very great. she appeared to feel great anxiety as to whether or not her petition had reached the Empress .- | war. HIGH TREASON CASE. Mr. Barker has recently been on trial before the

United States Circuit Court at St. Louis for treason in resisting the United States Marshal while enforcing a process. Barker belonged to an association called "Stickers," formed to prevent the purchase of lands by others than settlers and vas also, we believe, concerned in lifting timber from the United States lands. After a few days examination of witnesses the District Attorney received a telegraphic despatch from Washington authorizing him to enter a nolle prosequi in the case, which he did, "as a course calculated to restore quiet and harmony in McDonald county, where the trouble existed. The St. Louis Democrat states that Barker has already suffered imprisonment, and has been at \$2,000 expense for attorney's fees, &c.

What the Spaniards think of Cuban Anexation.

A letter from Madrid says :

'The more sensible men in this country admit that Cuba must, sooner or later, pass into the possession of the United States, but they admit it with a feeling of infinite bitterness, and with a stubborn resolution that the change of owners shall occur as late as possible, and the prize be dearly bought by the conquerors.' In case of war between Spain and this country,

the Madrid correspondent of the London Times camp, where his gallantry was rewarded by his says :- 'America would not escape undamaged in a contact with this comparatively feeble country.
