PROGRESS OF THE WAR. It is now confirmed that the Russians have received counter orders, and will not muit Wallachia.

The Austrians have, for the present, enfirely relinquished the intention peaceably to occupy the principalities.

No new facts have been made public as to the progress of the Prussian Austrian negotiations. It is believed that all the smaller German States will adhere to the Austro-Prussian cenvention. The feeling in England with respect to these new complications is decidedly uneasy.

There has been considerable fighting on the Danube. The Turks, under Omer Pacha personally, after severe fighting, have captured the Danube islands and the city of Giurgevo, which they occupy. It is clear that the Turks have now assumed the offensive, and, with the reserve of Anglo-French, the first division of which is now at Rutschuck, will probably risk a pitched battle.

Grotschakoff, with 30,000 troops, is advancing by forced marches to dispossess them of Giurgevo.

The Black Sea fleet, when last seen, was proceeding from Odessa in the direction of Sebastopol. Napier's fleet, with the cholera on board, had gone to anchor in Boinarsund Bay.

MISCELLANY.

NOBLE CONDUCT AT SEA The new screw steamer Clyde arrived at Chasgow on Saturday night, on her first voyage from New York, which she left on the 23rd ult, having made the passage in 14 1-2 days. When she had been about two days out from New York, the crew and passengers were alarmed by the cry of "a man overboard," while the vessel was under full headway, both from her steampower and sails. It was found that Mr. David Walker, the second steward, who had for some days previously exhibited extraordinary dulness of spirits, had thrown himself into the broad and turbulent Atlanuc. Thomas Latimore, one of the employees on board the ship, promptly leaped overboard, and succeeded in laying hold of the drowning man, whom he kept from sinking for a space of twenty minutes or half an hour, at the end of which time both were taken into one of the vessel's life-boats. Mr. Walker exhibited some faint signs of life, but by the time he was taken on board the ship he was past recovery. The passengers subsequently hel! a meeting, and testified their sense of the noble conduct of Latimore by presenting him with a purse of eight sovereigns and and a silver medal.

A correspondence was immediately opened ing several letters the young lady was mortified to find that her letters were unanswered, and consequently she ceased ing no letters was the fact that another young lady of the same name, supposing they were intended for her, took them from passed away, when the young man wound time that he thought the tone of her letters first left Cincinnati, and upbraided his fair love with inconstancy. This last epistle was too much for our romantic incognito, and being conscience smitten for the part she had been acting, and fully persuaded hat some other lady had been pining for the young man she was wooing, sought her out, and delivered it elemes up to their rightful owner. The matter was speeditly arranged, and the real lovers have since become united in the bands of wedlock.

A YOUNG MAN These three words are suggestive of thought-a young man. How much of strength, what bearing eyes, what high resolves, and proud startings for fame!-What yearnings to be rich! What hopes of happiness! What unnes of gold! What height of greatness! What excess of jov, these three little words conjure before the mind!-A young man! Does he mean to be drunken? To be poor? To be dishonored? To have the children laugh and point the finger at him? To strike down the defenceless woman? To deform innocent children? To turn home into worse than a howling desert? Oh! assuredly not. Nor does he think so, while he leans back in the gorgeous saloon, and amid flashing lights and the bewilderment of beauty, aided by every artifice, takes to his heart, to his soul hugging it as the miser hugs his treasure-the fiend that desoates. . . . DR. I. B. SMITH has for many years devoted his whole attention to the treatment of Private complaints, in all their varied and complicated forms. disgreat success in those long standing and difficult cases, such as were formerly considered incur-ible, is sufficient to commend him to the public as worthy of the extensive patronage he has received. Within the last eight years, Dr. S. has trefted more than 29,500 cases of Private Complaints, in their. lithment forms and stages; a practice which no doubt exceeds that of all other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and medicines taken at feasonable time, without effecting a radical and permanent cure; therefore, persons afflicted with diseases of the above nature, no matter how difficult or long standing the case may be," would do well to call on Dr. Smith at his office. No. 16, South Frederick St., and if not effect ually redeved no remuneration will be required for his services." His medicines are free from Mercury and all mineral pofsons; put up in a neat and compact form, and may be taken in a public or private house, or while travelling, without exposure or hindrance from business and except in cases of vio entinflummation, no change of diet is necessary. STRICTURES .- Dr. Smith has discovered new method by which he can cure the worst form o stricture and that without pain or inconvenience to the nations. Irritation of the uretha, or prostrate glands, or neck of the bladder, is sometimes mistaken for strictures by general practitioners or charlatans.

N this preparation all the restorative properties and Provisions at wholesale- and to carry on a I of the root are concentrated in their atmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegeta-ble remedies of great power, and it is in the pecuiar combination and scientific manner of its pretration, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of r edicine, are carried on at he stone time, through the instrumentality of this one remedial agent which gently sumulates while it disinfects and expels from the stomach and howels all that is trritating, and at the same time estores vigor and tone. Many other preparations initate in nearing the name of Sarsavarilla, and in that their cosemblance ends, being often prepared from worthless and inert roots, and of course possess no healing or curative properties, and nashould take no other, but that one entitled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence have been published, and who are still

bearing daily testimony to its worth ASTONISHING CURE. PATTERSON, N. Y. 20th, 1951. Mesers A. B. & D. Sanns: Gentlemen.—Hav use of your Sursaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the discase settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven uleers formed on the leg and foot at on-time. We had five different Physicians, but none relieved him much; and the last winter found him so conneciated and low that he was unable to leave his . e.t, suffering the most exeruciating pain. During this time the bone had become so much affected that piece after piece came out, o which he has now more than twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapd was the change that less than a dozen bottles ef-

fected a perfect cure With gratitude, I remain truly your DARIUS BALLARD. We the undersigned neighbors of Mr. Ballard, cheerfully subscribe to the facts of the above state H. & R. S. Hayr, A. M. POINT OF ROCKS, FREDERICK Co., MD., ?

June 9th, 1851. er originating from a Certain Destructive Habit, or from any other cause, with train of bodity and mental evis which follow, when neglected, should make an early application, there is a weighting proper to make known one of the most extraordinary cures in my own case, that has ever been truly recorded. In the month of October last, I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my lungs and very much afflicted them, and discharged large quanities of corruption, external and internal. My breath could also pass through my lungs and out through the cavity of my breast with apparent ally remove 1. The efficacy of his remedies, for the through the cavity of my breast with apparent cure of the above affections, have been well tested ease, attended with a violent cough day and night, loss of appetite, and extreme debility, so that in physicians thought my case extremely hopeless and beyond the power of medicine. I remained in this wretched condition for a long time, until l was wasted to a mere skeleton, and there seemed to be no hope for me, but, having read in the pubpapers of the many wonderful cures performed your COMPOUND SYRUP OF WILD CHERRY, Limmediately sent to Baltimore for five bottles and commenced its use, and, to my great satisfaction and that of my anxious family he abscess or opening in my lungs began to heal, and the cough subsided, and on using ten bottles. I was restored to perfect health. I feel very grateii, and firmly believe that in your medicine, under the blessings of Divine Providence, I am indebted for this great change, and am happy to say

that I am now enjoying as good health as I ever Yours, very respectfully, THOS, DIXON. The subscriber is well acquainted with Thomas Dixon, and can testify that he has been afflicted as above represented I regard his recovery as almost a miracle. He is a worthy member of society. CHOLERA.

The Providence (R. I) Journal of Monday says three cases of cholera have been reported in that city. Two proved fatal.

The Lowell (Mass.) Courier says there have been several fatal cases in the

alms-house at Tewksbury. The West Chester (Pa.) Record mentions four fatal cases of cholera in Chester, and says several other cases of the disease in Chester and Delaware counties have been reported. The same paper contains a notice of great mortality at the Chester county alms house. On Tuesday two or three died, and up to Sunday night some fifteen or sixteen deaths had taken place—all paupers,

and most of them at advanced ages ... The number of interments at the Shockoe Hill burying ground, in Richmond, (Va.) from the 19th to the 23d instant, inclusive, was forty-six, of which twenty-three were of persons who diedof cholera.

The Newark (N. J.) Advertiser of Tuesday is informed that the number of fatal cases since its report on the preceding day is eight.

The Board of Health of Wheeling (Va.) report five deaths of cholera in four days, ending on Monday. Two cases of cholera, the Tazewell

Advocate says, have occurred in Wytheville, (Va.) one proving fatal in a few In attempting to chronicle the progress of the cholera during this season the Mobile Register aptly remarks that it "has so completely overspread the en-

tire country that we find it wholly impossible to attempt to keep the track of it. The disease seems to range with most virulence among the people inhabiting the borders of the Western rivers and lakes, where it has assumed the form of an epidemic, which cannot be correctly said to be the case in the larger Northern cities bordering the Atlan

Thus far the city of Mobile has been free from the cholera and all other malignant diseases. New Orleans also, it will be remembered, as we had the pleasure to record the other day, is o

atively free from sickness.

GETTING ON TOO FAST. A pious old slave had a wicked master. This master had much confidence, however, in his slave's piety. He believed he was a Christian. Sometimes the master would be serious and thoughtful about religion. One day he came to the old slave with the New Testa-Formerly conducted by Gny C. willing to try, asked what it was. "It is in Romans," said the master. "Have you done all it tells you to do in Mathew, Mark, Luke and John ?"inquired the slave scriously, fixing his

eyes upon his master. No, I haven't," said he. "Then you are getting on too fast too fast master. Go back to the beginning of the book. Do all it tells you, till you get to Romans, and you will understand it easy enough then, for the good book says, "If any man work do my will be will know my doctrine."

INSOLENCE PUNISHED.

A lady attending one of the churches n Quincy, Mass., on Sunday week, unintentionally entered a rented pew. The sexton invited her to " get out of there and hunt a seat in some other part of the room." The lady got up to "get out," but the sexton not being pleased with the speed she was making, caught her by the arm and hurried her out of the pew. On Wednesday following he was arrested, taken before Squire Davis and fined \$10 and costs. The account ORDERS fortowingby STEAMER does not say to what denomination this sexton belonged.
