AYER'S PILLS.

NEW and singularly successful remedy for the A cure of all Bilious diseases — Costiveness, Indi-gestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflamma-tions, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that dem extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cure have been effected beyond belief, were they not sub stantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention : DR. A. A. HAYES, Analytical Chemist, of Boston and State Assayer of Massachusetts, whose high professional character is endorsed by the HON. EDWARD EVERETT, Senator of the U. S. ROBERT C. WINTHROP, Ex-Speaker of the House

of Representatives. ABBOTT LAWRENCE, Minister Plen. to England. JOHN B. FITZPATRICK, Cath. Bishop of Boston. Also, DR. J. R. CHILTON, Practical Chemist, of

New York City, endorsed by Hon. W. L. Marcy, Secretary of State. Wm. B. Astor, the richest man in America. LELAND & Co., Propr's of the Metropolitan Hotel, and others. Did space permit, we could give many hundred certificates, from all parts where the Pills have een used, but evidence even more convincing than the experience of eminent public men is found n their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical

science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be Of all the Patent Medicines that are offered, how few would be taken if their composition was known

Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em inent Physicians have declared the same thing o

ing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the rnal viscera to purify the blood and stimulate it into healthy action - remove the obstructions the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box. PREPARED BY JAMES C. AYER.

CELEBRATED GERMAN BITTERS. PREPARED BY DR C. M. JACKSON. No. 120 Arch street. Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cuses after skilful physicians had failed. These Bitters are worthy the attention of invalids Possessing great virtues in the rectlification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are, withal, safe, certain and pleasant. PROPESSOR BENJAMIN SILLIMAN: - Dear Sir -I take the liberty of asking you if any circum stance has occurred, tending any degree to diprotection afforded by Newell's Patent Safety With high respect, truly yours.

To DR. A. A. HAYES :- Dear Sir .- In reply to

the inquiry contained in your note of this date, I can now state that "Newell's Patent Safety Lamp," after a considerably extended experience in ny family, has fully justified the favorable opinion which I expressed of it about a year ago.
Until this protection was presented, I never permitted the so-called burning fluid to be used in my house. Now it is constantly employed by the domestics, and it has been occasionally burned in the par or and study The house being lighted by gas, there is little occasion for its general use in the family; but with the protection named above, I should have no hesitation to use it whe ever there s occasion for artificial light, and I do, with en tire confidence, recommend it to my friends and others who consult me on the subject-always protesting, however, against the unquarded use which has produced so many distressing and fatal results. I remain, dear sir, very respectfully and truly routs, B Silleman, Senior.
