DR. 1. B. SMITH has for many years devoted his whole attention to the treatment of Private complaints, in all their varied and complicated forms. His great success in those long standing and difficult cases, such as were formerly considered incur-able, is sufficient to commend him to the public as worthy of the extensive patronage he has received Within the last eight years, Dr. S. has treated more than 29,500 cases of Private Complaints, in their differentforms and stages; a practice which no doubt exceeds that of all other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore, persons afflicted with diseases of the above nature, 'no matter how difficult or long standing the case may be," would do well to call on Dr. Smith, at his office. No. 16, South Frederick St., and if not effectually relieved no remaneration will be required for his services. His medicines are free from Mercury and all mineral poisons; put up in a neat and com-pact form, and may be taken in a public or private house, or while travelling, without exposure or hin-drance from business, and except in cases of vioentinflammation, no change of diet is necessary.

N this preparation all the restorative properties Lof the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegeta-ble remedies of great power, and it is in the peculiar combination and scien life manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of n edicine, are carried on at bowels all that is irritating, and at the same time estores vigor and tone. Many other preparations imitate in nearing the name of Sarsaparilla, and in that their resemblance ends, being often prepared from worthless and inert roots, and of course possess no healing or curative properties, and patients in making choice of which they will use, chant. should take no other, but that one entitled to their confidence, from the long list of cures it has effectd on living witnesses, whose testimonials and residence have been published, and who are still

ASTONISHING CURE. PATTERSON, N. Y , 20th, 1851. Messrs A. B. & D. Sanns: Gentlemen.—Hav-ing witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disense settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at on- time. We had five diff-rent Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his ed, suffering the most excrucia-ting pain. During this time the bone had become so much affected that piece after piece came out, of which he has now more than twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to tr your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rap was the change that less than a dozen bottles ef-

Point of Rocks, Frederick Co., Md., ?

June 9th, 1851. DR. SWAYNE: Dear Sir-Believing it a duty have thought proper to make known one of the most extraordinary cures, in my own case, that has ever been truly recorded. In the month of method of treatment, Dr. S. can safely guarantee a October last, I was afflicted with a severe guther- next day he was to dine with a party of ing in my breast, which formed a large abscess, breath could also pass through my lungs and out through the cavity of my breast with apparent ease, attended with a violent cough day and night, loss of appetite, and extreme debility, so that my physicians thought my case extremely hopeless and beyond the power of medicine. I remained to be no hope for me, but, having read in the pub-lic papers of the many wonderful cures performed by your COMPOUND SYRUP OF WILD CHERRY, I immediately sent to Baltimore for five bottles and commenced its use, and, to my great satisfaction and that of my anxious family, the abscess or opening in my lungs began to heal, and the cough subsided, and on using ten bottles I was restored to perfect health. I feel very grateful, and firmly believe that in your medicine, un-der the blessings of Divine Providence, I am indebted for this great change, and am happy to say that I am now enjoying as good health as I ever

MISCELLANY.

A PHILADELPHIA SCENE.

The Philadelphia American states that a degraded female named Juliana Pennigton, who had respectable relatives in that city, fell dead, in a drunken fit, on Wednesday morning, in an alley running from Baker street, and that her body was permitted to lie on the pavement throughout the entire day, exposed to the hot sun. A gentleman belonging in this wretched condition for a long time, until 1 to the house happened to come in at this was wasted to a mere skeleton, and there seemed | time, and Davis was arrested and held for
