OUTSIDE FORM. Among the interesting matter on our outside form will be found on first page the Foreign News and on the fourth page a Report of the Agent of the American Tract Society, to the Seamen's Friend Society of this town.

#### THE ELECTION.

A telegraphic dispatch was received in town last evening, stating that Bases is elected by nearly 2,000 majority.

The returns for the Legislature are unsatisfactory. We defer further reports till we can give something like official returns.

#### A DUEL PREVENTED.

The Petersburg (Va.) Democrat states that Mr. F: S. Moore, of Wilmington, N. C., was arrested in Petersburg on Tuesday evening, information having been lodged with the proper authorities that Wisener is an old offender, and that his last of his intention to fight a duel with a gentleman operation in this line was in connection with a named Jones, of the same State. Mr. Moore was gang of four or five in New York, all of whom recognised in the sum of \$2,000 to keep the peace but this defendant were arrested and convicted on for twelve months.

#### FOREIGN CURIOSITY.

The curiosity of Foreigners in regard to Dispatches to our Ministers abroad, is said to be so great, that they are opened at the Post Offices in Europe. The U.S. seal is not respected, and it is said the American Eagle, which, from being so often opened and closed in transitu, is completely changed into a turkey buzzard by the time it reaches its destination.

In view of these matters, Col. Mann, the As sistant Secretary of State, has gone to Europe to see, with his own eyes, and to give instructions to our Ministers.

#### SAN JUAN.

affair at San Juan or Greytown, in which that place upon him. was destroyed by the American ship of war the

It is a very complicated business. The trouble first grew out of wrongs perpetrated by the authorities of San Juan, on an American company called the Nicaragua Transit Company, an account of which, with the maltreatment of Mr. BORLAND,

has already been published. Our attention is called to the subject by the confusion into which letter writers and newsmongers have thrown the whole matter. One party says that this is a challenge to the British Government, who claim the Protectorate of the place. and "let us see," say they, "if she will accept it." This is the cut throat class who want war with England, Spain, or any other nation, so that

may be gratified. In regard to the British claim: Mr. Samuel

"The British Government having, both for itself and the King of the Mosquito territory, of which it had maintained the protectorate, abandoned all authority over Greytown, the inhabitants, in 1852, organized a Government, and in conformity with the excellent and liberal constitution they had unanimously adopted, elected the municipal officers. At the very first election the agent workmen in his employ, attended the polls, coming over in boats from their station across the river at Punta Arenas for the purpose, and by their efforts, a city council was chosen, consisting of that they would be favorable to the objects and rights of the company. Three of these members elect were from New York, one from New Orleans and one from the State of Arkansas.

Now it slips from under the British authority, and also of the Mosquito King, whom we are acweak and comes directly under the jurisdiction of the United States; and the American commancent Americans and other citizens of San Juan.

and outrageous assault upon, and destruction of, tive liberty the town of San Juan de Nicaragua-a town claiming to be within the territory and jurisdiction of the Nicaraguan Republic. Mr. Borland himself. in his letter to Mr. Marcy, states that the United States Government had acknowledged the sovereignty of Nicaragua over the Musquito Territory. Of course, the United States Government should right to presection in his diplomatic character in that town.'

the steamer had proceeded a considerable distance | make up his bed on South Boston flats. from said boat when Borland demanded of Capt. Smith " why he did not shoot that black --that thereupon the former turned his steamer, went below and loaded his rifle, and deliberately shot the Captain of the native boat. For this crime a warrant was issued to apprehend Captain Smith; but Borland prevented the arrest, threatening to shoot the Marshal if he came on board-that subsequently Borland went to the house of the American Commercial Agent to spend the night-that a report having been circulated that Captain Smith was also there, a number of the natives collected with the view of arresting him-that Borland thereupon came out and abused the people in the most opprobious language—that during his speech some one threw a bottle at his head, which did him no injury-upon which the Mayor an apology was sent in form to Borland by the City Attorney.

From what we can gather we believe the Administration has acted not only inconsiderately but very foolishly, and that the minister, BORLAND, acted very much like a ruffian and blackguardwhich is not so much to be wondered at, seeing Nichols, was brought before Commissioner Ingra he had been taking lessons in Congress, for some ham yesterday and fully identified as having been time before his departure.

We have almost daily occurrences of accidents by camphene or fluid. We have another. Mrs. Everly, who keeps a dry goods store on Second street, Philadelphia, was dreadfully burned on Sunday evening, by the contents of a camphene or fluid lamp igniting while she was very imprudently ulling it when lighted. Her clothing took fire, and the unfortunate woman was so shockingly burned that her life is despaired of.

THE LATE EVENTS AT SAN JUAN OR GREYTOWN The news from Kingston, the British naval station in the West Indies, shows that the bombardment of Greytown has greatly exasperated the Alexander, people there, who seem to think that the place was still under British protection. Some small vessels of war had been sent with relief for the citizens of the ruined town, and it is said that the following proclamations had been issued by Lient. Jolly, the British officer who protested against the bombardment :

PROCLAMATION. In consequence of the non-existence of all civil authority in this city of Greytown, (caused by the

late outrage,) I, being charged, as far as my power extends, with the protection of lives and property, do hereby proclaim the city and territory of Greytown, as described by its constitution, under 'martial law."

WONDERFUL PRESERVATION OF LIFE. The recent collision between the ships Trade Whel and Olympus at sea, resulting in the loss of both vessels, will long hold a prominent place in the annals of shipwrecks and disasters. A Liverpool date of the 17th says that the American ship Empire from New York, arrived that day at Liverpool, reported having fallen in with the foremast of the Trade Wind, longitude 58 degrees west, with one man on it, who had been in that position for six days. His sole nutriment during that period consisted of a small piece of tobacco. Upon discovering him a boat was lowered from the Empire and put off towards the wreck, when the man swam off to her. The rescued man reported that two others who had taken refuge on the foremast

Says: Our reports from the free vallies of Piedmont are more cheering. It appears by authentic statements made at the meeting of the Vaudois Synod (Church of the Waldenses) last week, that a better spirit is abroad in the northern section of the depth of water on that Bar, of that kingdom as well as throughout the populous region along the sea between Genoa and Nice. A large number of volunteer lay delegates were present, who reported that there is a present call among the people for more light on the great question of government and religion, and that some eminent civilians are earnestly engaged in diffusing it.

This may be reckoned among the first fruits of a free press. Every considerable town in the kingdom now has its daily or weekly journal, and there are some twenty seven papers in the capi-638 tal, promoting the work of diffusion, under the auspices of a liberal government. Among the benefactions recently received from the United States, is a donation of \$5000 from a benevolent gentleman of New York, towards building a free church at Pignarole, near Turin. Powers' noble statue of Washington, ordered

by the State of Louisiana is now completed, and will be shipped by a vessel to New York within a few days. It is a grand work, and the lovers of art would do well if they could obtain the consent of the government of the patrioti: State which it is to adorn, for its exhibition en passant in the Empire City. The artist is now engaged on the statue of Webster, ordered by the people of Boston.

For a time it was thought that the disease could be subdued by medical treatment; but the mortality became so fearful that the laborers were advised by their employers to 80 fly. The whole party left, some going one way and some another. Mr. McCoy, the contractor. states that of three hundred in his employ at the time the disease made its attack more than half dry and the air pure. No local cause can be assigned for the mortality. Who can give an explanation of the cause that produced such terrible results? Such results perplex medical science, and put at fault all theories in regard to the phenomena of cholera.

HEAL THE SICK .- Men of liberal education at the present day, devote all their talents to disover the means whereby they may remove those painful maladies which assail the human frame. There is no nobler art than that of healing the sick, considering the numberless diseases to which | English assorted, man is liable, and which may cause him to drag | Swede best refinout a protracted life of distress, or suddenly cut him off in the bloom of his existence and usefulhave seen nothing among the remains of ancient ness. We should gratefully seize upon every causing a removal of those clogs to happiness. In those cases where the Liver or the Stomach is the cause, we would highly recommend Dr. Hoofland's Roman notabilities to compare with that of the German Bitters, prepared by Dr. C. M. Jackson. No medicine at this time stands higher than these Bitters, and to those who are suffering from the horrors of Indigestion, we say they are the anti-
