ARREST EXTRAORDINARY

The Philadelphia Sun of Monday, says Mayor Conrad issued a warrant on Saturday for the arrest of a man named George W. Coleman, the proprietor of a vile dance house, located in the third story of the house at the S. W. corner of Fifth and Calhoun streets.

At 11 o'clock, on Saturday evening, we visited the Station House, when we beheld the most motley group ever congregated in a police office this side of Japan.

MEDICAL HOUSE

No. 16, SOUTH FREDRICK STREET, BALTIMORE, MARYLAND. Established in order to afford the Afflicted sound and scientific Medical Aid, and for the suppression of Quackery.

DR. I. B. SWAYNE has for many years devoted his whole attention to the treatment of Private Complaints, in all their varied and complicated forms. His great success in those long standing and difficult cases, such as were formerly considered incurable, is sufficient to commend him to the public as a physician of the extensive patronage he has received. Within the last eight years, Dr. S. has treated more than 25,000 cases of Private Complaints, in their different stages, a practice which no doubt exceeds that of all other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and the cure effected. He has received the highest testimonials from the most distinguished and eminent physicians, and medicines taken at reasonable times, without effecting a radical and permanent cure; therefore, persons afflicted with any of the above nature, no matter how difficult or long standing disease may be, would do well to call on Dr. Smith, at his office, No. 16, South Frederick St., and if not effectually cured, he will be taken in a public hospital, and his medicines are free from Mercury and other poisonous matter, and are in a simple and comfortable form, and may be taken in a public hospital, or while travelling, without exposure or hindrance from business, and except in cases of violent inflammation, no change of diet is necessary to the patient. Irritation of the urethra, or prostatic glands, or neck of the bladder, is sometimes mistaken for stricture by general practitioners or charlatans, and others afflicted with Seminal Debility, whether originating from a Certain Destructive Habit, or from any other cause, with train of bodily and mental distress, no change of diet is necessary to the patient, an early application, thereby avoiding much trouble and suffering, as well as expense. By his improved method of treatment, Dr. S. can safely guarantee a speedy and perfect cure in all cases of this complaint.

TO FEMALES. All diseases peculiar to Females (as also Suppressions, Irregularities, &c.) speedily and effectually removed. The efficacy of his remedies, for the cure of these affections, have been proved in an extensive practice for the last twelve years. Persons at a distance may consult Dr. S. by a letter, post-paid, describing their complaint, and have their medicine securely put up and forwarded to any part of the United States, always accompanied with full and correct directions for use. Communications considered strictly confidential. Office arranged with separate apartments, so that patients never see any one but the doctor himself. Attendance daily, from 10 o'clock till 8 o'clock at night. N. B.—Persons afflicted with any of the above complaints, will do well to call on Dr. S. at his office, No. 16, South Frederick St., Baltimore, Md. Oct. 13. 90-1y-c.

SANDS SARSAPARILLA, IN QUART BOTTLES. For Purifying the Blood, and for the Cure of Scrofula, Rheumatism, Stomach Ailments, Dyspepsia, Salt Rheum, Fever Sores, Erysipelas, Pimples, Blisters, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Debility, &c. This preparation all the restorative properties of the roots are concentrated, and have been made strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and is in the most peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease dependent on impure blood, is the most extraordinary. It acts directly on the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of medicine, are effected on at the same time, through the instrumentality of one remedial agent which gently stimulates while it disinfects and expels from the stomach and bowels all the impurities which have been accumulated from worthless and inert roots, and of course possess no heating or curative properties, and patients in making choice of which they will use, should take no other, but that one entitled to their confidence, from the long list of cures that has effected on living witnesses, whose testimonials and Excelsior medals have been published, and are still bearing daily testimony to its worth.

ASTONISHING CURE. Messrs. A. B. & D. SANDS, Gentlemen, residing in the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement. In regard to my son, in the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease terminated in a most extraordinary manner, he swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; but it did not subside, and he continued to swell, and foot at one time. We had five different Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his bed, suffering the most excruciating pain. During this time the bone had become so much affected that pieces after piece came out, or fell out, and he was unable to get up. He was in bed for several months, and after eight weeks of severe suffering the disease terminated in a most extraordinary manner, he swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; but it did not subside, and he continued to swell, and foot at one time. We had five different Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his bed, suffering the most excruciating pain. During this time the bone had become so much affected that pieces after piece came out, or fell out, and he was unable to get up. During this time the bone had become so much affected that pieces after piece came out, or fell out, and he was unable to get up. He was in bed for several months, and after eight weeks of severe suffering the disease terminated in a most extraordinary manner, he swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; but it did not subside, and he continued to swell, and foot at one time. We had five different Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his bed, suffering the most excruciating pain. During this time the bone had become so much affected that pieces after piece came out, or fell out, and he was unable to get up.
