Quackery.

DR. I. B. SMITH has for many years devoted his whole attention to the treatment of Private complaints, in all their varied and complicated forms. His great success in those long standing and difficult cases, such as were formerly considered incurable is sufficient to compact the considered incurable, is sufficient to commend him to the public as worthy of the extensive patronage he has received. Within the last eight years, Dr. S. has treated more than 29,500 cases of Private Complaints, in their different forms and stages; a practice which no doubt exceeds that of all other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and medicines taken at reasonable time, without

known where his directions were strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore, persons afflicted with diseases of the above nature, no matter how difficult or long annuling the case may be," would do well to call on Dr. Snath, at his office: No. 16, South Frederick St., and if not effectually relieved no remuneration will be required for his services. His medicines are free from Mercury and all mineral poisons; put up in a neat and compact form, and may be taken in a public or private house, or while traveiling, without exposure or hindrance from business, and except in cases of vioentinflammation, no change of diet is necessary.

STRICTURES.—Dr. Smith has discovered a new method by which he can cure the worst form of stricture and that without pain or inconvenience to the patient. Irritation of the uretha, or prostrate the patient. Irritation of the uretha, or prostrate glands, or neck of the bladder, is sometimes mistaken for strictures by general practitioners or charlatans.

YOUNG MEN

and others afflicted with Seminal Dobility, whether originating from a Certain Destructive Habit, or from any other cause, with train of bodly and men-tal evils which follow, when neglected, should make an early application, thereby avoiding much trouble and suffering, as well as expense. By his improved method of treatment, Dr. S. can safely guarantee a speedy and perfect cure in all cases of this com-plaint.

All diseases peculiar to Females (as also Suppressions, Irregularities, &c.) speedily and effectually removed. The efficacy of his remedies, for the cure of the above affections, have been well tested in an extensive practice for the last twelve years. Persons at a distance may consult Dr. S. by a letter, post-paid, describing case, and have medicine securely put up and forwarded to any part of the United States, always accompanied with full and explicit directions for use. Communications considered strictly confidential. Office arranged with separate apartments, so that patients never see any one but the doctor himself. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of n edicine, are carried on at the same time, through the instrumentality of this one remedial agent which gently stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time estores vigor and tone. PATTEREON, N. Y, 20th, 1851.

Messes. A. B. &. D. Sands: Gentlemen.—Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at one time. We had five different Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his! ed, suffering the most excruciating pain. During this time the bone had become so much affected that piece after piece came out, of which he has now more than twenty-five preserved in a bottle varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarasparilla, and with its use his health and appetite began immediately to improve, and so rap-
