Quackery. DR.1. B. Smirs has for many years devoted his plaints, in all their varied and complicated forms. His great success in those long standing and diffievery discase cuit cases, such as were formerly considered incur-able, is sufficient to commend him to the public as worthy of the extensive patronage he has received. Within the last eight years, Dr. S. has treated more than 29,500 cases of Private Complaints, in their different forms and stages; a practice which no doubt exceeds that of all other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent care; th-refore, persons officied with diseases of the above nature. "no matter how difficult or long standing the case may be," would do well to call on Dr. Smith at his office: No. 16. MISCELLANY

THE NEWARK RIOT.

J. Roosvelt Bayley (we had nearly for gotten the dagger-the compositor will please stick it in here†) Bishop of Newark, in partibus infidelium, by the grace and appointment of the gentleman who occupies one of the chairs of St. Peter, has come out with a letter containing the usual denials and assertions, and says, among other things, he "will allow that there is no blame to be attached to the two thousands Protestant (Irish Orangmen) who marched in the procession armed with pistols and daggers, displaying colors and banners and playing tunes most offensive to the eyes and ears of Irish Catholics." This is an ironical way the † Bishop has of speaking, and the little white lie conveyed in the allowance " no blame," while he means all blame, will cost the reader nothing, and he has not to pay for its forgiveness (12 1-2 cents.) cents.)

How sensitive the delicate creature is ! Who would suppose that the Protestants are compelled to pay homage to the "Ho-cheap lot of Bed Ticks; Linen Oznaburgs and are compelled to pay homage to the " Holy Host," to stand and look at a great deal of mummery and "most offensive to the eyes" of Protestants when in Catholic countries-who would suppose it to hear this † Bishop talk? Who would suppose that Protestants are often obliged to hear certain mumblings and chantings in Latin, and to take their hats off when the " Holy Host" is passing, or have them knocked off. as Professor Morse had his "wide-awake" or beaver knocked off once while in Rome? Who would suppose that a procession of Irish Catholics in October, 1845. in the city of Now York, carried a banner with the following inscription upon it? EQUAL RIGHTS OF MAN 15 OUR Democratic Principles, one and all. DOWN WITH THE NATIVES and their twenty-one years, Naturalization Laws. Every man has a right to the elective franchise an his arrival HERE IN AMERICA. Then on one side of the above, a small flag was represented bearing the following: NATIVE HERETICS AND PROTESTANT Bigots DARE not arouse The Roman Catholics' Spirit unto rath or tremble at the consequences. Remember Rome, Spain, and France. 800-10-1800. United States, 1845. O. K.-o'conel,-O. K.

On a representation of a flag similar to the one above described, were painted two crosses, a crown with cross bones beneath: and the American Eagle below all, grasping two flags with the union down.

These delectable flags and banners, with their characteristic inscription and emblems, were most offensive to the eyes of the American Pretestants but we have never learned the † Bishop of Newark took it seriously to heart and "came out with a letter," as the Catholic Bishops appear to

be very fond of doing now a-days. All this has been borns by the American Protestants, but the sensitive Bishop of Newark is hurt to the soul on hearing some music in the streets and on seeing several American flags !- American Crusader.

N this preparation all the restorative properties L of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root Aug. 10. forms an important part of its combination, it is at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scien the manner of its prep aration, that its remarkable success in the cure disease depends. It acts simultaneously upon the stomach, the sirculation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of r edicine, are carried on al the same time, through the instrumentality of this one remedial agent which gently stimulates while it disinfects and expels from the stomach and bowels all that is triliating, and at the same time estores vigor and tone. Many other preparations imitate in ocaring the name of Sursaparilla, and in that their resemblance ends, being often prepar-ed from worthless and inert roots, and of course

possess no healing or curative properties, and pa tients in making choice of which they will use, should take no other, but phatone entitled to their confidence, from the long list of cures it has effect ed on living witnesses, whose testimonials and residence have been published, and who are still

bearing daily testimony to its worth. ASTONISHING CURE.

PATTENSON, N. Y. 20th, 1851. Mesers A. R. &. D. SANDS: Gentlemen.-Having with sed the most beneficial effects from the use of your Sarauparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1815 he took a severe cold, and after eight weeks of severe suffering the dis-ease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician and discharged most prompty. by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and fost at one time. We had fivedifferent Physicians, but none relieved him much ; and the last winter found him so emachated and low that he was unable to leave his. ed, suffering the most exernciating pain. During this time the bone had become so much affected that piece after piece came out, of which he has now more than twenty-five preserved in a bottle varying from one half to one and a half inches in length. We had given up all hopes of his recovery, butat this time we were induced to try your Saisaparilla, and with its use his health end appetite began immediately to improve, and so rap-I was the change that legs than a dozen bottles of

ected a perfect cure. With gratitude, I remain truly your,

INDIAN CORN. A French farmer has succeeded in giving to Maize, or Indian Corn, any color he chooses, by the following plan: Hay-ing received from China a specimen of maize of a pearl white color, the grains of ful, he was desirous to obtain the same grain, but other colors. For this purpose, he planted by the side of some of them some American maize, of a rel color, and the result was a crep of grain of pink tint, with some of a blueish, and others of green color. He made a similar experiment with the maize of Tu savors, the grain of which is as white as Carolina rice, and the thus obtained a crop, the ears of which were about 1. inches in length, and the grains of a blue color,-Another time he planted some maize of the color of amber among some of the black maize of Syria. The ears attained the length of 22 inches, and the grain was of different colors.-The yellow maize, on being planted near some of the brown maize of Centra

America, produce some of the dark brown color, which ripens eigt days soouer than the other sorts. This farmer now possesses one hundred and fifty three different varieties of maize, and his object in continuing his experiments is not only to change the color at will but also to obtain varieties which will ripen earlier as well as larger and longer

ears, and thus increase the produce. Baltimore American. "Breaches of faith !" screamed Mrs. Partington, as she heard the term applied to Mexican violations of the arm "Well, I wonder what they will have next.
