ECLECTIC MEDICAL JOURNAL. We have received the October number of the above named work, published at Cincinnati, and conducted by Jos. R. Buchanan, M. D., and R. S. Newton, M. D., at \$2 a year.

THE JOURNAL. The Journal of Priday presents the public with the fact, that the free white population of North Carolina is 577.750, and of this number 2 524 are of foreign birth, or as one to two bundred and twenty-eight natives. From these facts the Editforeign influence, must have some ulterior object

as we know. There is no complaint about forcitizens in any way, or create riots and commit evil is American, not North Carolinian merely.

This looks to us like a very unfair manner of party and other foreigners who seek to govern the and weakness: country, of which latter, we suppose, there are a lew, that the efforts of American Protestants are directed. It is not desirable that they should appoint our President, elect our Congress, and hold fficial stations which govern the country. Surely you have been told often enough that it is the wish of certain citizens, that native Americans hall rule America.

The Journal says in his article

dea of its being necessary for the 90,000 ers to combine for the protection of their ust the dangerous encroachments of two undred naturalized citizens is ridicuextreme-like loading up a ninetypound paixban gun to bombard a fence-rail."

But then it is an idea of the Journal's own manufacture, so far as we know. We never heard it suggested or intimated before. It would be indeed, like " loading a paixhan gun to bombard a fence-rail." Yes verily, it would, be almost as eccentric as the attempt of the Journal, which is, to conceal from the view of his readers the mountain of evil in the country at large, by the little mole hill of evil in North Carolina. This is like a man's expecting to shut out the scenery of the earth and the heavens, from the view of mankind at large, by putting a pair of leather spectacles on his own nose, merely. The Journal says :

"According to Dr. Durbin, the learned and ghly esteemed Methodist divine, the number of atholics in North Carolina is even more Homepathic than that of naturalized citizens—they are not a drop in the bucket—a rill in the ocean of our population. Combining against them is simply "love's labor lost"—there is really little or othing to work upon."

The introduction of Pr. Durbin, "the learned and highly esteemed Methodist Divine," is peculiental and tender, inasmuch, as we are left to suppose that his high attainments and virtues enabled him to classify the population of est sentimentality and tenderness of the thing consist in committing Dr. Durbin to the inferences drawn by the Journal itself. We may be mistaken, for we really do not know; but did the Doctor use the language and perpetrate the sentiment in the above extract, conveyed in the words beginning with: " they are not a drop in the bucket?" We guess not. We do not wish to be too particular, but we should really like to know about it. If he did not, will it not be difficult for the Editor to sustain the idea that he intended the readers of the Journal should know the TRUTH? The Journal says again:

" Many have neither the time nor the opportually to examine into these things, and hence it comes that mole-hills are magnified into mountains. We sincerely believe that upon examination these mountains will sink back into their primitive insignificance, and be mole-hills again."

This extract may seem out of place, as we have already noted the poetical figure of "mountain and the mole-hill." We wish only sto notice the remark, in this place : "Many have neither the time nor the opportunity to examine into these things." What is the use of time and opportunity, when neither the one nor the other can be used in resistance to party Despotism? "Time and opportunity " indeed! We are too well acquainted with the private polity of both the great parties of the country, not to know that interpreations of party, or clique promulgation, are so more admissible in politics, than is the right of opinion under the rule of the Roman Catholic Hicrarchy, in religion. The Journal further says:

"The Northern getters up of the secret organization commonly designated as "Know Nothings," no doubt have specific purposes in view—cuds of their own to serve, but the great majority of the people have no such ends—it can benefit them little to be made the means for the aggrandizement of certain parties who would use them as mere instruments to promote the aggrandise-heut of a few—to be held under bonds and pled-ges in comparison with which the usual organiza-tion of parties is as nothing."

Biat the "Know Nothings" have "ends to serve," is an admirable specification in the general charge of corruption against them. Whoever heard before of anybody's having spds to serve? Gertainly not the Editors of Administration papers, upon whom is forced, as it were government patronage. The administration pener the patronage upon them, against their will, as they would have us believe; not in so many words, but in the beautiful flow a language, redolent of devotion to the interests of the nation and the rights of

We would make our article too long. we comment on the beseechings of the Journal that the "Democrata" will still act with their party; that the said party may not be disor anized; and how the "Know Nothings" are Ned Buntlings" and other cattle; how aspished the Journal is that "clever people" have een " drawn in " or rather " sucked in " to that Organization. Said "clever people," are sure to see what "fools they have been made," in admiring wonder," and a great deal more of argument

We like the idea that a man should " admire and wonder" when he flads he is made a fool of. He must have been very wise before, or else his being made a fool could not be so great a matter ings of the trial of Dr. Graham for the murder of of wonderment and surprise to himself. The Democrats, he says, "especially will find this out."all the evidence of interest, in the question, and They will find, quoth the Journal that they have been "secretly and insidiously arrayed." We suppose this means that they were drawn into line while asleep. We can tell our friend that no democrat or whig either, so called, if he should be s little drowsy, will not fail to get "wide awake' when he gets into "Liberty Hall." Would you edged by Mr. Ggo. L. THE SLAVE TRADE IN CUBA.

In one of the latest circulars of Gen. From this it will be seen that there North Carolina, in a manner known to almost every intelligent citizen of the State. But the greatpression of the slave trade:

hilst the first attentions of the Government do not permit me to give your Excellency more full instructions, I ought to indicate to you the conduct you ought to pursue in the delicate subject of the trade in negroes. The free, loyal, and absolute repression of the condemned trade is towards the Government of her Majesty a sacred obligation in the fulfilling of the treaties. Towards her representatives in this island it is not less, and to all of them it will constitute a question to the honest. This trade must disappear, and it shall quite disappear. DR. SWAYNE: Dear Sir—Believing it a duty
I owe to the public, and in justice to you, I
have thought proper to make known one of the
most extraordinary cures, in my own case, that
has ever been truly recorded. In the month of
October last, I was afflicted with a severe gathering in my breast, which formed a large abscess. october last, I was afficied with a severe gather-ing in my breast, which formed a large abscess, and also communicated to my lungs and very much afflicted them, and discharged large quan-tities of correption, external and internal. My breath could also pass through my lungs and out through the eavity of my breast with apparent ease, attended with a violent cough day and night, loss of appetite, and extreme debility, so that my physicians thought my case extremely hopeless physicians thought my case extremely hopeless and beyond the power of medicine. I remained in this wretched condition for a long time, until I was wasted to a mere skeleton, and there seemed to be no hope for me, but, having read in the public papers of the many wonderful cures performed by your COMPOUND SYRUP OF WILD CHERRY, I immediately sent to Baltimore for five bottles and commenced its use, and, to my great satisfaction and that of my auxious family, the abacess or opening in my lungs began to hear, and the cough subsided, and on using ten bottles I was restored to perfect health. I feel very grate ful, and firmly believe that in your medicine, under the blessings of Divine Providence, I am in der the blessings of Divine Providence, I am in debted for this great change, and am happy to say that I am now enjoying a good health as I ever

ed his right arm over Loring's shoulder and he clasped him with his right hand; I was alarmed because I was afraid they were going to use deadly arms; when Loring struck Graham there was not half a foot between them; I have no doubt started to run. Wadkins was thrown off and expiration—The Bitters are pleasant in taste and in smell, and can be administered under any circumstances, to the most delicate stomach. Indeed they can be used by all persons with the most perfect safety. It would be well for those who are much affected in the nervous system, to commence with one tea-spoonful or less, and gradually increase. We have speak from experience, and are, of course, a pro-per judge. The press far and wide, have united Java, in recommending the German Bitters, and to the afflicted we most cordially advise their use."

> FOR BRONCHITIS. THROAT DISEASES, Hacking Cough, and the effects of imprudent use of Mercury. No medicine has ever been discov-ered which has effected such cures as Carter's Spanish Mixture. Throat diseases produced by salivation, Hack-

ing Cough, Bronchial Affections, Liver Disease, Neuralgia and Rheumatism, have all been relieved and cured in a wonderful manner, by the great purifier of the blood, Carter's Spanish Mixture. The case of Mr. T. H. Ramsey alone should satisfy any who doubt. Call on the Agent and pro-cure a pamphlet containing cures, which will asound you.
