A correspondent of the Baltimore Clipper "Angel Gabriel" is still in prison, no peace. He amuses himself occasionally, by preaching to the prisoners. THE ALLIES. The Mauch Church Gazette states that the Roman Catholic Priest at that place has openly taken the field for Governor BIGLER, the Democrat ic candidate for Governor of Pennsylvania, and has instructed all his subjects to vote the whole Democratic ticket. The Baltimore Clipper says that this is the case everywhere-it is so in Mary-

An alliance having thus taken place between the Democratic leaders and the Romish Priests, it is no wonder the Standard and other Democratic papers of North Carolina are mad with us for espectfully of their allies. to be exposures of the signs, grips and doctrines of the "Know Nothings." We do not attempt to deny the verity of these statements, because it is occessary; but it appears to us that the witnesses in this matter are in rather an awkward predicament. It is illustrated to our mind by the following supposition:

A lawyer gets up and addresses the Court thus I will introduce a witness in this case that will settle the matter in dispute. It is very true that he has forfeited his claims to the character of a man of honor and a gentleman; is a perjured wretch, by his own showing; is, in fact, a most illimitable scoundrel, but the Court may be assured that in this case his testimony may be relied

This is the character of the evidence laid be fore the public in regard to the " Know Nothings." We do not suppose that any man, in ordinary cases, would admit such testimony and at the same time profess the least claim to common sense, or even sanity. And yet, so far as we can observe, it makes a "very good Morgan" for party-most nony for politicians.

# THE KERR DINNER.

The complimentary dinner without distinction of party, to the Hon. Juo. Kerr, came off at Yanceyville, on Thursday, the 28th ult. The Milton Spectator says it was a mass meeting gentlemen from several of the neighboring counties and from Virginia being present. Hon. Calvin Graves presided. Letters were read from Gov. Reid, Hon. William A. Graham, John M. Morehend, Thos. Ruffin, Thomas Bragg, Henry W. Miller, and E. G. Reade, expressing regret that it was out of their power to attend. The following was the third regular toast.

John Kerr. Our esteemed fellow-citizen, ou distinguished representative. We honor the man who fearlessly and ably advocated the Constitutional Rights of the South, when imperiled by demagogues and fanatics.

Mr. Kerr responded in a speech of more than an hour in length, and was frequently interrupted by the applause of the assemblage. It was one of his best efforts, and all seemed delighted. He said it was the prondest day he ever experienced to see his friends thus come forward to express their gratification of his action upon this great national measure. He then in a clear and forcible manner, gave his reasons for voting in favor of the Nebraska bill, and proved that the South had gained much by its passage. At the close of Mr. Kerr's speeck a committee of four was apcinted to solicit a copy for publication, In good time the meeting closed.

CARRYING DEADLY WEAPONS. The Montreal Herald, in alluding to the prova-lent practice in some parts of the United States of carrying deadly weapons concealed about the per-sons, makes the following sound and excellent re-

"It is manifested that when civilians adopt thi practice, they adopted with it certain modes of thought, not proper to be entertained by law-abiding men. They do not carry these things without a purpose, and to that purpose, dangerous and wicked as it is, their minds become habituated by the constant sight and handling of the instruments which suggest it. It is probable that a man can hardly put a pistol into his pocket daily, without having a frequent feeling of a desire to make use of it. Mere defence is a vain pretence; the proper and really valuable defence of a man in ociety, is the defence of the law. It is not defence, even to kill the man who kills me : but punishment taken into my own hands. And this punishment, which may sometimes be just is of-Judge and executioner in his own cause. nhabitants are rebuilding the town. Among the passengers by the Northern Light are Judge Canfield of Ohio, Judge Blair of Washington, J. B. Booth and lady, the Bateman family M. Strakosch, and Ole Bull.

Our dates from California are up to September 16th. The general election was held on the 6th instant. For Congress there were three tickets in the field : Broderick and anti-Broderick Dem ocrats, and Whigs. The returns from half a dozen counties are yet to be received, but enough i known to established the election of J. W. Denver and P. T. Herbert, anti-Broderick Democrats .-The anti-Broderick ticket has so far 33,000 votes the Whig ticket about 31,000, and the Broderick ticket 8,000. It is doubtful whether Beard, the Whig candidate for Clerk of the Supreme Court, or Leake, his anti-Broderick opponent, is elected. twenty-six Democratic to seven Whig Senators; and forty-five Democrats to thirty-five Whigs in the Assembly. But it is very uncertain whether the Democrats will be able to unite on any candidate for the United States Senate.

In San Francisco the Know Nothings carried every thing before them. They elected, as their own candidate for Mayor, 8. P. Webb, formerly Mayor of Salem, (Mass.) by a majority of 529 over his highest opponent. The new Common Council will be composed of twelve Whigs and four Dem-

The annual emigration across the plains contin ues to pour into the country. Moderate numbers had already arrived, who mentiom many others on the way. It is not, however, likely that the total number of immigrants by land will be very

great this year. But the chief immigrants have been Chinese. Every ten days or so somewhere between five hundred and one thousand of these people arrive at San Francisco. The late clamor against the race has almost died away in San Francisco. In the interior, however, it is still heard. Of the 40,000 Chinamen supposed to be in California, about 35,000 are said to in be in the condition virtually of slaves, or peons, to their mere wealthy countrymen. Their employers are said to be five great companies, organized to import laborers from China. The people of the different compan ies are continually quarrelling among themselves and in different parts of the State have recently had several pitched battles, in which some of the combatants were slain. The grounds of quarrel are not very well understood by "outside barbarians." nor perhaps much better by the Chinese

OUTRAGE BY CATHOLICS. A diabolical outrage has been perpetrated in Ireland. About 900 inhabitants of the town of Enniskillen and the adjoining neighborhood proceeded by railroad to Derry on the 15th, and had a grand Protestant and Orange celebration. As they were returning, the train came in contact with a large fragment of rock placed upon the rails, near an embankment, throwing the train off the rails, instantly killing the stroker, and wounding numerous others, including Lord Enniskillen. The deed is stated to have been done by the Catholics, and suspicion of it was entertained beforehand, so that unusual precautions were taken, and the train was going at a very slow rate We were informed vesterday evening, says the at the time, otherwise the loss of life must have been frightful.
