MISCELLANY.

Dining at Sea in Rough Weather. The ship's company often reap much amusement from the little accidents, the ridiculous tumbles, and the strange postures which the passengers are thrown in-to by the unsteady motion of the vessel; indeed, we now feel so little alarm during a gale, that we sometimes disregard its at the ludicrous occurrences which happen among ourselves. Hogarth might have feasted upon them. In the confusion of motion, caused by the heavy seas, if we attempt to walk, we fetch away, and are tossed to the farthest side of the cabin, in all the odd and uncommon figures that can be imagined; and often, before we can re-gain our legs, the ship yields to another wave, and we are tumbled in the most ludicrous manner to the opposite side, kicking, struggling, or crawling, amid a confusion of moving chairs, stools, boxes, and other furniture. Our dinner ceremony is often rendered a humorous scene: at this hour the cabin being the general rendezvous of the party, we must crawl tremb-ling toward the table, and tie ourselves in the chairs. A tray is set before us, with deep holes cut in it for the dishes, plates, and glasses; the table and chairs are lashed to the deck; yet one or the other frequently gives way, and upsets half the steward with soup, followed by his little slave with potatocs, and the servant with such other covers as there may chance to be. But scarcely are the things upon the table, and the servants stationed clinging to the backs of our chairs, before a sudden lurch of the ship tumbles all into disorder. Away go stewards, servants, and little Mungo, to the lee corner of the cabin; the Mungo, to the lee corner of the cabin; the perior Butter: 50,000 Cigars; Java, Laguira and soup salutes the lap of one of us; another receives a leg of pork; a third is presented Sept. 16. receives a leg of pork; a third is presented with a piece of mutton or beef; a couple of chickens or ducks fly to another; the pudding jumps nearly into the mouth of the next; and the potatoes are tossed in all directions about the deck of the cabin .-One saves his plate; another stops his knife and fork; some cling to the table, thinking of only saving their person; one secures the bottle; another, helf fullen, holds up his glass in one hand, and fixes himself fast to the chair with the other .-Chaos is renewed! everything is in motion; everything is in disorder and confusion .-At the next roll of the ship, the servants, staring with amazement, again fetch away, and, with extended arms, are tossed to the U opposite side of the cabin, where they cling fast and remain fixed as statues, afraid again to move; and although we are lash ed in the chair ourselves, it is with some difficulty we can maintain our seats .-Plates, dishes, knives, forks, and glasses clatter together in all the discord of the moment; the steward and his boy, crawling upon their hands and knees after the dancing potatoes, the flying fowls, or walkjoints, are rolled over our feet; and all is disorder and confusion. The ship now becomes steady for a moment; the scattered parts of the dinner are collected, and those who have escaped sickness again attempt to eat. Some foreseeing all these accidents fix themselves in a corner upon the cabin deck, and take the plate between their knees, fancying themselves in security; but quickly they are tumbled in ridiculous postures, to the other side of the cabin, sprawling with outstretched limbs, like frightened crabs. Some having no calls of appetite join not in feast, but lie swinging up and down in their cots or hammocks; others remain rolling from side to side in their berths; some cry out with sore bruisès some from being wet with spray; one calls

MEDICAL HOUSE, No. 16, SOUTH PREDERICK STREET, BALTIMORE. MARYLAND. Established in order to afford the Afflicted sound and scientific Nedical Aid,

and for the suppression of
Quackery.

DR. I. B. SMITH has for many years devoted his
whole attention to the treatment of Private complaints, in all their varied and complicated forms.
His great success in those long standing and difficult cases, such as were formerly considered incurable, is sufficient to commend him to the public as
worthy of the extensive patronage he has received.
Within the last eight years, Dr. S. has treated more
than 29,500 cases of Private Complaints, in their
different forms and stages; a practice which no
doubt exceeds that of all other physicians now advertising in Baltimore, and not a single case is
known where his directions were strictly followed,
and modicines taken at reasonable time, without known where his directions were strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore, persons afflicted with diseases of the above nature, no matter how difficult or long standing the case may be," would do well to call on Dr. Smith, at his office, No. 16, South Frederick St., and if not effectually retieved no semuneration, will be required for his services. His medicines are free from Mercury and all mineral poisons; put up in a neat and compact form, and may be taken in a public or private house, or while travelling, without exposure or hindrance from business, and except in cases of violent inflammation, no change of diet is necessary.

STRICTURES,—Dr. Smith has discovered a new method by which he can cure the worst form of new method by which he can cure the worst form of stricture and that without pain or inconvenience to the patient. Irritation of the uretha, or prostrate glands, or negleof the bladder, is sometimes mistaken for strictures by general practitioners or charlatans.

YOUNG MEN

and others afflicted with Seminal Debility, whether originating from a Certain Destructive Habit, or from any other cause, with train of bodily and mental evils which follow, when neglected, should make an early application, thereby avoiding much trouble and suffering, as well as expense. By his improved method of treatment, Dr. S. can safely guarantee a speedy and perfect cure in all cases of this compeedy and perfect cure in all cases of this com-

riety of other articles, suitable for family and plantation use and the retail trade, which they will dispose of in lots to suit dealers or consumers on reasonable terms for cash, or in exchange for Naval Stores or other produce.

The senior partner D. C. Fazzman, is located in the city of New York; the junior partner, Gzo. Houston, in Wilmington. If desired, advances, will be made on consignments to and from either place. All business entrusted to them will receive proper attention; and orders for Goods will be promptly and carefully filled.

ASTONISHING CURE. ASTONISHING CURE.

PATTERSON, N. Y. 20th, 1851.

Mersrs A. B. &. D. Sands: Gentlemen.—Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon awelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at one time. We had five different Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was sicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his bed, suffering the most excruciating pain. During this time the bone had become so much affected that piece after piece came out, of which he has sow more than twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarseparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles effected a perfect oure.

With gratitude, I remain truly yours,

VOLUME TEN OF THE "SCIENTIFIC AMERICAN" commences on the 16th of September. It is chiefly devoted to the advancement of the interests of Mechanics, Inventors, Manufacturers and Furmers, and is edited by men practically skilled in the sits and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical ability. Nearly all the Valuable Patents which issue weekly from the Patent Orfice are illustrated with Engravings, and the claims of all the Patents are published regularly in its columns as they are issued, thus making it a perfect Scientific and Mechanical Encyclope. perfect Scientific and Mechanical Encyclope-dia of information upon the subjects of Mechan-ical Improvements, Chemistry, Engineering and quarto form suitable for binding, and each volume contains Four Hundred and Sixteen Pages of Reading Mutter, Several Hundred Engravings, with a full and complete Index. Its circulation on the last Volume exceeded 23,000 copies per week, and the practical receipts in one volume are worth to any family much more than the subscription

MISCELLANY.

"High Church" and "Low Church." A correspondent writes,-that in para graphs relative to the recent election of Provisional Bishop, he sees the expression, 'low church' and 'high church' again made use of. He desires an explanation of their original and present meaning. The information sought might more properly be ex-pected in religious journals; and any at-

Of the four first Bishops of the Protestant Episcopal Church in the United States, one (Bishop Seabury of Conn.) received consecration at the hands of the non-juring Bishops of Scotland, and the other the from the Archbishop of Cantebury, who was the successor in direct line of Tillotson, who succeeded the deposed Sancroft There was now every prospect the feud which had disturbed the Church of Engwhich had disturbed the Church of England for a century, would be extended to this country. By the exertion of wise and good men, conspicuous among whom was the late Bishop Parker of Massachusetts, such a calamity was prevented. A Bishop who had received consecration from the Archbishop of Canterbury, was induced to unite with one who had received consecration from the non-juring Bishops in the consecration of Dr. Bass the first Bishop of Massachusetts.

The terms "high church" and "low church" still retain their original meaning and have decided adherents in this country .- N. Y. Expe
