MISCELLANY.

HORRORS OF THE CHINESE WAR The Rev. Dr. Parker, the well known missionary at Canton, writing from that city, under date of the 18th of July, of the horrors of the Chinese revolution, says:-

"On the 6th of July, Fiehshon, a town 10 or 12 miles of Canton, west, embracing nearly a million of people, fell into the power of the insurgents, and the imperialists have endeavored in vain to recapture it .-The smoke by day and fire by night of burning villages have been visible from my terrace. On the 13th instant, the first blood was shed on the north of this city, a few miles distant, if we except that spilt by the sword of the executioner, the number of decapitations daily averaging 50 or 60, and for the last ten years 50,000! To day there has been a second battle in this vicinity- 68 insurgents taken prisoners, and one hundred slain.

"Day before yesterday the insurgents were victorious and 300 imperialists were killed. It is said some of the captives today were brought in on poles, their hands and feet being tied like pigs; others were brought in on the points of sharp bamboos; some have their ears cut off; others are ham-strung. The panic in the city, as the gates were closed during these skirmishes, and the flight of women and children, it is difficult to portray; and from hour to hour we know not what may become the condition of foreigners. But most fortunately at present there is a naval force-British and American-able to protect us against any mob. Alas! for China."

MEASURES OF DIFFERENT COUNTRIES. The Newburyport Herald, in the course of an article on Weight's and Measures, remarks that no two nations have the same -though the same name to designate them may be used in many countries. Take the miles measure, for instance :- In England and the United states, a mile means 1,760 yards; in the Netherlands, it is 1,093 yards; while in Germany it is 10,120 yards, or nearly six English miles; in France, 2,025 yards. The Scotch mile is 1,984 yards, and the Irish, 3,038 yards.-The Spanish mile is 2,472 yards and the Swedish 11,700 yards. These are computed in English yards; but the yard itself, of three feet in length, has divers significations in different places. The English yard is 36 inches; the French 39.13 inches; the Geneva yard 57.60; the Austrian 37.35; the Spanish yard, 33.09; the Prussian, 36.57 the Russian, 39.51. For measures of capacity, the dissimiliarity is yet wider and more perplexing. The British have two sorts of bushels, the Imperial and the Winchester, of different capacity. The Winchester bushel is the United States standard; but the State of New York has another of different capacity, and other States have varying standards of their own. These are incommensurable with

the measures of any other nation. COUNTERFEIT QUARTER EAGLES. Two counterfeit quarter eagles have re-Office. They are thus described by the

Journal of Commerce: "It is made from a genuine New Orleans mint die, stolen some years since, and bears the "O" under the talons of the eagle .-Prof. John Torry, assayer here, has analyzed the coin, and finds that it is made of a casting of pure gold, filled with silver, and probably with platina, to increase the weight. The weight is 60 5-10 grains, which is only four grains light, and the coating of gold weighs 30 1-10 grains.—
It is therefore worth \$1,17 in gold, and 8 cents in silver, or \$1,25 in raw material, besides the labor of making. The maker and vender could not, therefore, realized more than \$1 each, which would seem too small a profit, except that the counterfeit is so well done that there is but little risk

When Philip Henry, the father of the celebrated commentator, sought the hand of the only daughter and heiress of Mathews in marriage, an objection was made by her father, who admitted that he was a gentleman, a scholar, and an excellent gentleman, a scholar, and an excellent preacher, but he was a stranger, and "they did not even know where he came from!"

""" Said the daughter, who had well weighed the excellent qualities and graces of the stranger, "but I know where he is going, and I should like to go with him;" and they walked life's pilgrimage together.

R. L. B. Saitrh has for many years devotedhis Quackery.

DR. 1. B. Saitrh has for many years devotedhis Policians of Commendation to the treatment of Private complaints, in all their varied and complicated forms. His great success in those long standing and difficult cases, such as were formerly considered incurable, is sufficient to commend him to the public as worthy of the extensive patronage he has received. Within the last eight years, Dr. S. has treated more than 29,500 cases of Private Complaints, in their different forms and stages; a practice which no doubt exceeds that of all other physicians now advertising in Baltimore, and not a single case is known where his directions were strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore, persons afflicted with diseases of the above nature, no matter how difficult or long standing the case make it with a server of the suppression of private complaints, in all their varied and complicated forms.

His great success in those long standing and cult cases, such as were formerly considered incurable, its sufficient to commend him to the public as commend him to the public as worthy of the extensive patronage he has received.

Within the last eight years, Dr. S. has treated more than 29,50 Pancy Hair Platting. Orders thankfully received tually relieved no remuneration will be required for by Mail or otherwise. Charges moderate. Adhis services. His medicines are free from Mercury and all mineral poisons; put up in a neat and compact form, and may be taken in a public or private house, or while travelling, without exposure or hindrance from business, and except in cases of vioent inflammation, no change of diet is necessary.

STRICTURES.—Dr. Smith has discovered a new method by which he can cure the worst form of stricture and that without pain or inconvenience to the patient. Irritation of the uretha, or prostrate glands, or neck of the bladder, is sometimes mistaken for strictures by general practitioners or charlatans.

YOUNG MEN
and others afflicted with Seminal Debility, wheth

tation use and the retail trade, which they will dispose of in lots to suit dealers or consumers on reasonable terms for cash, or in exchange for Naval Stores or other produce.

All diseases peculiar to Females (as also Suppressions, Irregularities, &c.) speedily and effectually removed. The efficacy of his remedies, for the cure of the above affections, have been well tested n an extens've practice for the last twelve years.

Persons at a distance may consult Dr. S. by a letter, post-paid, describing case, and have medicine securely put up and forwarded to any part of the United States, always accompanied with full and explicit directions for use. Communications con-sidered strictly confidential. Office arranged with separate apartments, so that patients never see any one but the doctor himself. Attendance dally, from 8 in the motning till 9 at night.
N. B.—Persons afflicted with any of the above complaints, will do well to a roid the various

complaints, will do well to a roid the various NOSTRUMS AND SPECIFICS, advertised by Apothecaries and Druggists as a certain cure for any and every disease. They are put up to sell, but not to cure, and frequently do much more harm than good—therefore avoid them.

A word to the wise is sufficient. Address DR. J. B. SMITH, 16 South Frederick st., Baltimore. Md.

SANDS SARSAPARILLA.

IN QUART BOTTLES. For Purifying the Blood, and for the Cure of Scro fula, Rheumatism, Stubborn Ulcers, Dyspepsia, Satt Rheum, Fever Sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Culaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of

Appetite, General Debility, 4-c.

N this preparation all the restorative properties I of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is at the same time, compounded with other vegeta-ble remedies of great power, and it is in the pecu-liar combination and scien life manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent which gently stimulates while t disinfects and expels from the stomach and bowels all that is irritating, and at the same time estores vigor and tone. Many other preparations imitate in pearing the name of Sursaparilla, and in that their resemblance ends, being often prepar-ed from worthless and inert roots, and of course possess no healing or curative properties, and pa-tients in making choice of which they will use, should take no other, but that one entitled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence have been published, and who are still

bearing daily testimony to its worth.
ASTONISHING CURE. PATTERSON, N. Y. 20th, 1851.
Mesers. A. B. &. D. Sanns: Gentlemen.—Having witnessed the most beneficial effects from the ing witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at one time. We had fivedifferent Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was winter found him so emaciated and low that he was unable to leave his hed, suffering the most excruciating pain. During this time the bone had become so much affected that piece after piece came out, of which he has now more than twenty-five preserved in a bottle varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles effected a perfect cure.

With graticude, I remain truly yours, DARIUS BALLARD. We the undersigned neighbors of Mr. Ballard, cheerfully subscribe to the facts of the above state-ment. H. & R. S. Hayt, A. M Trowbridge, Geo. T. AN EVENTFUL CAREER.

C. F. Clarkson, formerly 'editor of the Indiana American, who is now travelling in Tennessee, narrates the following story in a letter published in the Rockville, Ind., Democrat:

Let me recite to you a true history of a man whose farm we passed over yesterday. About fifteen years ago, a Presbyterian clergyman of New York had a wayward son. We have his name and location but choose to withold it at present. Before he was seventeen he became so reckless and unruly that his father could no longer control him. He left for the wicked and corrapt city of New York, where he became a clerk in a drinking saloon, but his character was too bad to be retained there. He next was a bar-keeper in a theatre, but was dismissed. He went lower and and still lower, until he slept in empty cellars and on the wharves of the city, a perfect nuis-

ance and a disgrace to his race. At this stage of his career an old college mate-for our here was a graduate of one of the best colleges in the State of New York--determined that he would hunt him up and make one more effort to save him. He went to New York, and after a week of diligent search, with the aid of the police, he found him. He washed and clothed him, took him back to the country, and by every inducement that could be held Judd's Patent Sperm, Sperm, and 75 Boxes A. by every inducement that could be a M. Candles, lower than they can be bought in New out to him, persuaded him to try to be a Soda, Butter, Pilot, Sugar, Picnic, Lemon, Milk, Walnut, with every variety of Crackers, W. Underwood & Co's.

man. He made the effort, and was successful. The friend who sought him out and who saved him we are well acquainted with. They both determined to come to Tennessee to teach school. They soon reached here, and with a high recommendation they brought, soon obtained good

> The reclaimed son of the Presbyterian clergyman, within six months after his arrival, married an orphan girl worth \$40,-000 in cash. She had a younger sister and brother, who each had equal amounts. The sister soon after died, leaving one half of her estate to our hero and his wife, the other half to her brother, and thus increasing his estate to \$60,000. When the Mexican war broke out, the brother collisted, and made a will, leaving all his estate to and increase of negroes to over \$390,000. He is now one of the richest planters of Middle Tennessee, and does not live twen-

ty-five miles from Nashville.

A HOUSE MIT A BIG CHIMNEY. A few years ago the proceeding of the Washington Monument Society at Washington received a sudden impetus. Among other measures adopted to procure sufficient funds for the completion of the edifice was that of appointing an agent in each Congressional district throughout the United States, who were furnished with lithographs of the future monument, which were presented to

such gentlemen as chose to subscribe. One of those agents called at the house of a very wealthy farmer, in the upper end of Dauphin county, Pensylvania. The whole family were soon assembled to look at the beautiful pictures. In the mean time the agent exerted all his eloquence to induce the steady old German to "plank the tin." He portrayed the services of Washington to his country; he dwelt in glowing terms upon the gratitude we should leel for

Suddenty the farmer broke silence: 'what is all this for ?"

The agent began again; "You know who Washington was ?" "Yes, he was the first President: he

licked the British, didn't he?"

"Yes, that's the man, and this monument is to be erected as a fitting testimonial of the eternal gratitude of his countrymen."

The anticipated subscriber studies the plate attentively. "Well," said he, "I won't pay any thing towards it; I don't see no use to build a house mit such a big chimney."

The agent immediately left.

TAKE THEM OUT OF THE CONVENTS Fathers mothers, brothers, sisters, friends acquaintances, who have children, relatives, or friends in convents or schools, let us solemnly urge you to remove them immediately, or procure their removal as soon as possible

The Ladies of the Secret Heart have still some Protestaint young ladies among their pupils, and in spite of any pretences to the countrary, make continual efforts to mislead them. They have been justly named, by Professor Quinet, of Paris, Jesuitesses. American mothers, shun them as you would a den of domestic vipers. They are insinnating and poisonous; and one of the first obects of all papist teachers is, to detach children from their parents.

A person recently returned from Eu-rope, told his friend he had been presented at Court there. Did you see the Queen there? asked one. 'Wall, no, I did'nt see her, zactly but I seed one of her friends—a judge. Yer see,' he con-tinued, 'the Court I was presented at,
