Gen. MacRag has determined to serve no longer, we are informed. We know him as one of three persons that first set "the ball in motion" in regard to the Wilmington & Raleigh Raff Road, and the public know him, as he passed through different official gradations to his present position, and they know him as one of the most efficient, useful and practical men that ever occupied a similar station to that which he sees proper to resign.

We personally know but little of Mr. Lynch .-When we belonged to the indomitable Whiggery of this section, he was a democrat; rather too much so, we thought-but we condemned his removal from an humble station under the Government, on the road, because he was commended for his integrity, his social worth, and other qualities that are necessary to make a useful citizen. Preferring, at that time, to honor the man, rather than " sustain the party "-we at this time publish the advertisement recommending his promotion, with pleasure, on two accounts-first, on account of the worth of the man nominated, and secondly, because it is paid for.

Rumor bears upon her breath or voice, as the case may be, the names of several other gentlemen. We are not cognizant of the fact that any of them desire the office-but all of them, except one, are democrats, which is a very essential matter, for several reasons.

The State is democratic, as is well known to the public. The Governor is democratic; the Legislature is democratic, and of course, in regard to things pertaining to the welfare of the Commonwealth, Internal Improvement, either in its incipiency or its fruition, must be democratic.-In fact, with one exception, the sublime idea of the supremacy of the democracy has been always asserted, by the present government of the State. in relation to the Wilmington and Raleigh Rail Road, and in all others, if we mistake not.

Oh! Governor of this illustrious Commonwealth. be sure, in deputing the power of the State, in this election, you have an eye single to the glory of the Democracy! The interests of this community, whose enterprise built and sustained the road, are of little import, to that claim, which supercedes all others in our America, the claim It is a matter of rejoicing to many of us that judices, are disposed to enter the lists against the we have a democratic predominancy in our beloved North Carolina, and to those who have the has been making for the last two years.

Mass. WORGESTER, Oct. 20 .- Asa O Baiman the per on who arrested the fugitive slaves, Thomas Sinix and Anthony Burns, was discovered at the American House yesterday, and the fact was immediately posted throughout the city. In the evening the vigilance committee of the citizens surrounded the hotel, and threatened to mob it whereupon warrants were issued and he was arrested this morning and brought before the court charged with carrying concealed weapons. The case was then postnoned for two weeks and he was required to give bonds for his appearance

A large and excited crowd soon gathered round the court house, and it becoming evident that his life was in danger, George F. Hosr, (a free soiler.) the son of the venerable Samuel Hoar appealed to the crowd to let the "kidnapper," as they called him go safely out of the city. Upon this the crowd gave way, and Batman, accompanied by a strong guard, went to the depot, folowed by the populace. Here the colored men is the mob fell upon him, and would undoubtedly have taken his life but for the interference of Martin Stowell, James A. Howland, Mr. Hoar Rev. T. W. Higginson and Stephen C. Foster, all active abolitionists.

In the Midst of the excitement Batman was hustled into a carriage, accompanied by Mr. Higginson, and thus escaped with his life.

Explosion of an Infernal Machine at Earle's Hotel—Several Persons Injured. New York, Oct. 30.—Great excitement was ocsioned between one and two o'clock on Saturday afternoon, in the neighborhood of the Park by a very loud explosion which took place at Barle's hotel, in Park Row, shaking several buildings, ringing the signal bells in the office of the Chief of Police, and injuring several persons who, at the time, were in the hotel. It appears that an elderly gentlemen had asked a boy in atten-

dance, at the hotel, for his baggage, and with the latter went behind the desk to get it, when the boy in looking for it handled the rest of the luggage rather roughly, and among other articles a brown valise which instantly exploded with a noise like thunder. Mr. Powers, the bookkeeper, who was standing by, had his hair and whiskers burned, and the skirt of his coat torn. A Mr. R: Dowd, who was talking to Mr. Powers was badly burned about the face. Another gentleman was lifted from his feet and his clothes much torn .-The old gentleman above referred to, and several others were slightly burned. One man who was sitting upon a settee in front of the house, was thrown into the middle of the street. The boy who was overhauling the baggage was severely injured and taken to the New York Hospital, Mr. Earle, the proprietor, was struck in the face by a splinter torn off the dining room door, which was forced from its hinges. The Chief of Police, Capt. Brennan, and others were soon on the spot, and after the place was cleared, proceeded to search for the remains of the valise and its contents .-They found a double barrelled pistol with one barrel screwed off, and some other things, which when put together formed a torpedo of a dangerons character. A 1216 lb. powder keg and a one cound cannister were also found. The contrivance for exploding the machine was admirable when the valise was held by both handles it would not explode, but when held by one only, the interior work was set in motion and the explosion took place. The machinery was handed to Mr. Blunt, gunsmith, for reconstruction. The

nany of the ceilings wery badly cracked. Several windows were broken and the columns shatter ed. The damage is estimated at about \$2,000 No person about the hotel seems to know how the ralise got there, and no one has claimed it. Mr. Earle is not conscions of having an enemy, and cannot account for the introduction into his hotel of so dangerous an instrument. It is supposed that it was sent their in expectation of some person calling for it and that the explosion was premature .- Journal of Com.

The fire first showed itself on the second story of the northeast corner and soon spread with great fury throughout the building. The Eastern wall fell towards the avenue, crushing several freight cars. It was not until this wall fell that any water was thrown tles for \$5, six bottles for \$8; \$16 per dozen .on the fire, consequent upon the scarcity of hydrants in that vicinity, and the extreme danger of the wall. The firemen were profibited from going near it. The building was a lofty two story brick one, with basement, extending from Fortysecond to Forty-third street. There were several new cars just finished, and others in process of making. In less than an hour the roof fell and a portion of the walls, and by half-past 11 o'clock the whole edifice was in ruins. The loss we understand, will amount to upwards of \$30,000 which is covered by insurance.- Ib.

> ARREST OF AN AMERICAN IN ITALY. A letter in the Newark (N. J. Advertiser, dated Leghorn. Oct. 6 gives the subjoined particulars of the arrest and subsequent discharge of an American in that city named Quin:

Mr. Quin had taken passage for the United States. During the evening before the day of his departure, he was reading a newspaper article in a cafe, with some marks of displeasure which two young Austrians cadets remarked, and thus opened a conversation. Affecting agreement with him, he was betrayed into a rather free expression of American sentiments, after which they par ted, without any apparent discord. Soon after however he was arrested and thrown into the military prison of the Austrian garrison. The United States consul, J. A. Binda, Esq., a citizen of South Carolina, though by birth an Italian, having heard of the case, forthwith waited upon the Tuscan authorities and demanded their interposition and the release of the prisoner, or at least a trial according to the civil laws of the country; but he was told that the city was under military law, and that he must call upon the Austrian commander in chief. He protested, that as an American conding the action of the Lower Provinces and the sul in Tuscany he had nothing to do with Austria, and he pressed his suit in vain and left, but not, however, without a formal protest.

In the hope of effecting a speedy release of the prisoner, he repaired to the Austrian headquarters. where he was told, with an air of absurd solemni ty, that the man had been guilty of an enormous crime; nothing less than an attempt to seduce the young cadets and excite insubordination, not one word of which had the slightest foundation in truth-and that the penalty was death, and that he must be tried by the military tribunal. After reasoning the case without success, he closed the interview with an assurance that he should forthwith communicate the cause to the commander of the Udited States squadron (Com. Stringham)

now fortunately, in the Gulf of Spezia on the coast The next morning a letter was received at the consolute from the chief of the Austrian forces in Tuscany, at Florence, saying that the prisoner, in consideration of his being a stranger, against whom there appeared to be no testimony of other disorderly conduct, and an American citizen, about to leave the country, would be restored to liberty. It was carefully added, in a postscript, that the threat of sending for the squadron had not the slightest influence in the case! Mr. Q. is now safely on his way home.

NOTICE TO MARINERS. Buoys and Beacons at the Entrance to and in

Mobile Bay, Alabama. The following buoys, beacons, &c., have been placed to facilitate the entrance into Mobile Bay A Bell Boat, striped black and white, is an chored in eight fathoms water, half a mile outside the outer bar-Sand Island Light bearing N. W. by N., 15 N., 216 statute miles distant. The bell is tolled by the action of the waves.

An Iron Bnoy, striped black and white, is plaeed in mid-channel, just within the Bar, ranging with the Bell Boat and Sand Island Light. A black Iron Buoy, on the west side of the main nnel, near the north end of "Sand Island

A red Iron Buoy, on the east side of the chan-nel, at the edge of the "East Bank," and opposite the black buoy just mentioned. A black Iron Buoy, on the west side of the channel, at the edge of the "West Bank," and

opposite Fort Morgan.
An Iron Buoy, striped black and white, in midchannel, between Mobile Point and the "Middle A red Iron Buoy, on the east side of the main channel, at the west end of the "Middle Ground."

In entering the harbor, red buoys should be left on the starboard hand, and black buoys on the port hand. Buoys striped black and white may be passed on either hand, but should be kept well aboad. To enter in foggy weather, after passing the Bell Boat close aboard, run in by compass N by N. 14 N. to the first striped buoy, thence N. by W. 14 W. till up with Sand Island Light, and thence the course along mid-channel to the upper

striped buoy is N. 14 E. From this buoy, running N. W. 14 N. and passing the upper red buoy we reach the upper anchorage ground of the low-After passing the upper red buoy it is well to steer N. by W. 34 W. till the ship comes to anchor. Two wooden Range Beacons, 20 feet high, have been erected on the east end of Sand Island, and two on Mobile Point. All of them will be lighted at night, and will be visible on and near the ranges

The Seaward Beacon at Sand Island is painted white, with a vertical red stripe on the seaward side. It will show a white light, and when rang-ing with Sand Island Light-house, it ranges also with the Bell Boat and the striped buoy, to lead in over the outer bar.

The Inner Beacon at Sand Island is painted red, and will show a red light. Its range with the outer beacon is the limit of the channel along the west bank, northerly from Sand Island. At Mobile Point, the Seaward Beacon is paint-

ed red, and will show a red light. This, in range with the inner one, leads up along the edge of the East Bank," northerly from the outer bar. The Inner Beacon at Mobile Point is white, and will show a white light, and, when in range with the Mobile Point Light-house, leads to the upper striped buoy, and through the channel at the west end of the Middle Ground.

A Screw-pile Beacon is under construction inended to mark the shoal at " Revenue Point," near the outer bar.

A black Spar Buoy has been placed on the south point of " Southeast Pelican Shoal," in 20 feet water, the castern woods on Dauphin Island, ust on with the east end of Pelican Island. The buoy marks the entrance to the " middle channel," that between Pelican and Dauphin Isands being closed. From the buoy the course in

over the bar is N. E. 1/4 E.
