THE EYES.

There is a popular notion, sauctioned on by medical men, that the eyes are eserved by opening them every morn-g in a basin of cold water. Some of the orst cases of petergium or film on the inface of the eye, have been witnessed on those who have boasted of this prac-tice. When water gets into the wind-pipe, the nostrils, or the ear irritation is produced; and when the eres open un-der water the sensation is apything but agreeable. The eye is lubicated by a

secretion admirably adapted o facilitate the motion of the lid over its afface, and secretion admirably adapted o facilitate the motion of the hid over its afface, and as this secretion is partially solube in water, it is as inconsistent to wash it away as it is to remove the oil from the wheels of machinery. SANDS: Gentlemen, --Hav-ing witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the dis-ense settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than cleve a ulcers formed on the leg and foot at one time. We had five different Phy-sicians, but none relieved bim much; and the last winter found him so emaciated and low that he was dnable to leave his ied, suffering the most excrucia-ting pain. During this time the bone had become so much affected that piece after piece came out, of which he has now more than twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rap-id was the change that less than a dozen bottles ef-letter es. With gratitude, I remain traly yours, DARHUS BALLARD
