## SANDS SARSAPARILLA.

IN QUART BOTTLES. For Purify g the Blood, and for the Cure of Serofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheun, Ferer Sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Culaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, 4-c.

IN this preparation all the restorative properties Tof the root are concentrated in their utmost atrength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegeta-ble remedies of great power, and it is in the peculiar combination and scien ific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of " edicine, are carried on at the same time, through the instrumentality of this it disinfects and expels from the stomach and howels all that is irritating, and at the same time estores vigor and tone. Many other preparations one remedial agent which gently stimulates while mitate in pearing the name of Sursuparille, and in that their resemblance ends, being often preparin that their resemblance ends, being often preparid from worthless and inert roots, and of course
possess no healing or curative properties, and patients in making choice of which they will use,
should take no other, but that one entitled to their
confidence, from the long list of cures it has iffected on tiving witnesses, whose testimonials and
residence have been published, and who are still bearing daily testimony to its worth.

In the spring of 1848 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at one time. We had fived ifferent Physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his led, suffering the most excruciating poin. During this time the bone had become so much affected that piece after piece came out, of which he has now more than twenty-five preserved.

THE Hydromagen is a valuable discovery for protecting the feet from damp or cold, and therefore a preventative of many Lung diseases, without any doctoring whatever. The Hydromagen is in the form of a sole, and worm inside the boot or shoe. Its medicated character is a powerful antidate to discover. tidate to disease.

For Gentlemen it will be found agreeable, warm and healthy, to wear in the coldest or miniest weather, as the foot cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest soled boots or shoes in the most inclemlightest soled boots of shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely expersede over-shoes, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrans in ley wheather, like india rubbers. While the latter cause the feet to appear extremely large the Hydromagen, being a mere thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the fout to appear untidy. To Children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to scarce need mention besides, those who patronize them will find their yearly doctor's bills much diminished thereby.
