THE AMERICAN ORGANIZATION. It is somewhat singular that the Standard, and \$5,000. other Democratic papers in this State, while professing to be the friends of Southern rights, should

The American Organ in New York, states clearly the reasons why the American party are opposed to Mr. Seward. We make the following

"We have much stronger grounds of opposition to Mr. Seward than his non-concurrence in ou-views on the question of foreignism. Mr. Seward has not taken the front rank among our oppo-nents on this last-named question. Others have Forney, and the editors of The Richmond Enquihave other reasons. And here let us ask THE TRIBUNE of what avail would it be to change the laws of naturalization, or to repeal them, if the Union is to be destroyed by such men as Seward, Chase, and Sumner? If, at the same time that of the American party, whose destiny is not only American demagogues who seek the destruction of the Federal Union."

The Tribune comments severely on the above, for sustaining Southern rights on the slavery question, the Standard attacks them as abolitionmocracy. Hear what the Tribune says:

to establish the pernicious institution in Kansas by means of bullies imported from Missouri to overawe and suppress the will of the people."

Thus is the Democratic party in North Carolina led on, by its organs, to oppose the only party at the North that has ever avowed an unqualified

retrievable political death, with such assistance any other Virginia city. who love their country latter than party.

Treasury Department, North Carolina.

Decrunes 10th 1854 Sin: In response to a resolution transmitted to me yesterday evening from the House of Commons, directing me to communicate to the House and the Cape Fear Bank do not expire for several of Commons the amount of claims existing in the years, the subject will come up before the prewill be due from the Public Treasury on the first. day of January next, and the means in the Treasury to meet these demands. I have the honor to state, that it is desirable to provide for the payment Mr. A. M. Gorman, the Editor of the Spirit of in a few days, to the North Carolina Railroad the age, and Dr. W. M. Johnson, Assistant Editor Company, \$46,000, which with the payment made of the same paper, are in town. They are well a few days since to said Company of \$44,000, will known as spirited writers and faithful advocates complete the payment of \$90,000, the amount of the State's last subscription to said Company, for which State bouds are to be sold to replenish the Treasury.

The interest on the debt of the State, the particulars of which are shown in my last report to the General Assembly, say \$175,000 will have to be paid the 1st of January next.

There will also be due the sum of about \$5,000 to the Judges of the Supreme Court, the officers of State, &c., on the 1st of January, making in all

State's subscription to the North Carolina Rail To meet this, there is a proposed sale to-morrow of \$111,000 of State bonds.

The amount due from the Raleigh and Gaston Railroad Company for dividends declared on the stock of the State in said Company, and for bonds purchased by said Company on the 20th October last, say \$35,000.

Interest due the State on the 1st January, on bonds of the Wilmington and Raleigh Railroad Company, \$1,500.

Balance in the Treasury and in Banks, say

Amounting to \$150,000. In this I have made no estimates of advancestand in the same line with the Tribune and other | ments to members of the General Assembly. The abolition papers at the North, in opposition to the cost of the General Assembly is usually about \$45,000.

> With great respect, Your obedient servant D. W. COURTS.

Speaker of the House of Commons.

ROMAN CATHOLIC CRUELTY.

In the Montreal Witness we find recorded the taken the front seats on this question, and have continually believed forth fire and fury upon us, family by a band of men, apparently on account tention to the following suggestions, concerning the route taken by the mail steamers, and the exof their converson to the Protestant faith. The rer and Pennsylvanian, occupy higher seats than Seward on this question. Had we no other reason for opposition to Seward, it would, indeed, be enough that he opposes our doctrines. But we

"On the afternoon of the 31st October last, Mr. Poillien, a colporteur of the Grande Ligne Mission, entered the house of one Louis Poussaint, we get rid of the evils of foreign influence and of ing, as soon as dusk, this young man, his father, indiscriminate foreign immigration, we cannot preserve the Union and render it perpetual, what do we gain? The Tribune mistakes the mission avowedly Pro Slavery. As we see in the above extract, it makes war on the opponents of Slavery extension, on Mr. Chase and Mr. Summer, as well as Mr. Seward, on the absurd and obsolete their design, and they were only deterred from this: When departing from Cape Clear or the English Channel for New York or Boston, let the ground that they are seeking the dissolution of the Union. In a word, the Know Nothings are a new form of the Castle Garden Safety Committee, with Nativism added by way of a condiment and guil-trap. The many honest and well-meaning opponents of Slavery in the Northern States, who have been induced to connect themselves with the Order, must prepare either to quit it or to be used as the tools of the party that is struggling siles, by which they broke the windows and the door, besides keeping the poor people a long time

From the Baston Advertiser. How to Diminish the Danger of Crossing the route? Atlantie.

The terrible disaster of the steamship Arctic, Railroad, ran into the river at the Company's with the consequent loss of life, will not have been wharf, and now lie in about ten feet water. Luck- purely a misfortune, if it proves to have been the ily nobody was hurt with the exception of the cause of increased attention to precautions against Mail Agent, who injured his arm very badly by the repetition of similar occurrences. It is doubtless true that of the multitude of plausible sug-We went up last night, immediately after the gestions and wise ideas with which correspondent occurrence of the accident, and, as nearly as we filled the columns of the newspapers soon after could discover, the facts were as follows: That the news of the shipwreck was received, not a the engineer came on to the inclined plane at a tenth part, perhaps not a hundredth part, were of very high rate of speed, as shown by the fact that a nature to deserve the attention of practical men, in passing over the "frog," at the head of the or likely to result in any good. It would be strange

and that the engine could not be reversed so as to different nature from most of what has been writ- us. were not sufficient to check the motion before the writing about, having been educated to the sea, in accident had happened. Two things are evident: the Navy, and subsequently having been a sucneer must have known that the engine could not this way, he has made many passages in sailing on the level at the foot, for the difficulty in re- ica, and has thus had opportunities (not lost on versing had existed all day. The two brakes such an observer) of witnessing the course of sailusually employed were on, and Mr. Laspeyre, the ing and the incidents of the voyage. The sugconductor, was at the third. After all our efforts gestion of this letter is of an emimently practical to get the facts, we could come to no other con- nature; it proposes an absolute protection against clusion than that the fault lay altogether with the danger by avoiding the danger; this is done by prescribing such a course for the steamers as shall avoid the principal dangers, while it scarcely adds to the length of the voyage. It appears that it will be quite practicable to find such a course .-It has been said that the burnt child shuns the fire; but steamers would not appear to be governed by the moderate share of wisdem attributed to children; for they rush blindly among the islands and headlands of Newfoundland and Nova Scotia, notwithstanding the disasters to the Columbia, the Humbeldt, the City of Philadelphia,

the Arctic, and many others of less note. Printed copies of the subjoined communication have been furnished to the directors of the several lines of ocean steamers at home and abroad .-We are gratified to learn that its suggestions have met the approval of a number of gentlemen well qualified to form an opinion in nautical matters to whom it has been submitted. We append the Board of Underwriters, of New York.

BOSTON, Dec. 1, 1854.
To the Editors of the Boston Daily Advertiser: Sirs .- The recent loss of the steamship "Arctic," with the attending circumstances, has been the occasion of many communications from practical men, involving the more cautions guidance of clothing, in all about \$50 or \$60. The burglar steam vessels. Among the important suggestions made, much stress has deservedly been laid upon justrament which he fastened to the end of the the necessity of adequate beat accommodations, key, by which he was enabled to turn it. Strange furnished at all times with compasses, masts, sails, pars water and provisions, and with a competent which persons were sleeping, not one was awakcrew attached. A conspicuously painted number upon each boat should show for how many persons it is adapted. Occasionally, by some concerted signal, the crews should be called to their stations by the boats and tackles, to familiarize them with this special duty, and to ensure order

and despatch in sudden emergency. The immediate cause of the loss of the "Arctic," Now, it is well known that in all that region or sed increase of the navy, it says, will be no essenocean over the Banks of Newfoundland, and near its rock-bound shores, the light of day is often obscured by impenetrable mists; that in the same vicinity immense icebergs are met at certain seasons, drifting from the North, with which contact is as imminent a perfl as collision with unseen ressels under sail and steam, or running foul of fishing vessels which lie at anchor on the Banks.

The important question now is-What can be done to lesson the risks of ocean navigation? 80 far as relates to the passage to and from the pediency of making a change which, without involving any material loss of time or additional distance, may tend to promote the safety of vessels. lives and freight. These considerations may justly claim the candid examination of careful navigators, underwriters, and all whose interests, profession and character are concerned and connected

with the hazard of a voyage to or from Europe. I would premise that the masters of steamers, parties in the house, were seated, around the col- both British and American, have been induced to porteur, while he read the Scriptures; and while believe that the more northerly they could make to remedy the evils resulting from foreign votes thus engaged, a party of rufflanly fellows, with the passage, the shorter is would and influences, but to annihilate that class of blackened faces, entered the house, armed with some assign the absurd reason that "there the dethus engaged, a party of ruffianly fellows, with the passage, the shorter it would be. For this, short, heavy sticks, and began to beat and mal- grees of longitude are shorter;" others, that such treat the inmates in the most heartless and shock- a course is exacted by the theory of "Great Circle ing manner. The old man, who has been a Pro- Sailing," which leads them, after leaving the and while that paper abuses the American party testant a long time, and bears an excellent char-southern extremity of Ireland, to keep far to the acter, was evidently an object of especial hatred; north of a direct course by Chart, and to pass over his head was sadly cut, and one or two other the length and breadth of the Banks of Newfoundists! Thus showing a willingness to misrepresent blows fell upon different parts of his body, and land, near the Coast; and sometimes, when the he was so much hurt as to be confined to his bed skies happen to be clear, in sight of Cape Race, for some time. The young man also received a thus needlessly courting, as it were, all the dan-"The Order is not neutral, but openly and bad wound on the head, and all the party were gers to which I have alluded as peculiar to that

hundred to a hundred and fifty miles to the northward, (thus making sure of not being wrecked upon it, and being more out of the way of the outward bound Colonial vessels, as well as of the exposed and be-fogged fishermen on the Banks.) From this point the course for Sandy Hook would still be considerably to the South, and giving Sa-Medicine purifies, regenerates, and rejuvinates ble Island a good berth. The same rule will hold, the entire system. with little modification, if bound to Halifax. .

Reference to the accompanying chart will show (traced) the passages made by the steamships "Great Britain," 1845, and "Atlantic," 1858, both having made the Northern passage, while the latter came out from Liverpool north of Ireland, and

It is my belief that were the passage ma round Cape Clear, and thence direct for Sandy Hook, (as indicated on the chart,) many of the abovementioned dangers would be avoided, and coasibly the voyage terminated quite as soon, in-

These ideas are submitted in the hope of drawing the attention of navigators, and of eliciting those of others better acquainted with this subject senger; I may add that I would cheerfully pay ore passage money, and submit to be a few hours more on board, if required, to avoid running at greater or less speed among icebergs, or in proximity to rocks. With a knowledge of the facts, will not a preference be given, by those who

THOMAS B. CORRIE Office of the Lafe Saving Benerolent Associate New York, 24th November, 1854. Thomas B. Curris, Esq., Boston.

DEAR SIE-I have read your communic with much satisfaction: It is calculated to satisfy passengers in steam ships to look to greater safety and less haste. I have a similar letter from Lieut. Maury, of the National Observatory at Washing ton, on the 7th, which I have asked his permission to publish. He suggests two routes; one northwardly one, for inward bound vessels. 1 thank you for the information you have furnished

Very respectfully, your ob't serv't, WALTER R. JONES, President.

Riotous Demonstration in Alleghany, Va. Alleghany county, Va., held on the 18 inst., for the purpose of expressing their indignation at the acquittal of Thompson, the alleged murderer of Miss Pharr. There was quite a serious riot on the occason, as appears from the following from the Era:

At 10 o'clock the people quietly hang Dr Thompson in effigy. The image hung unmolested until the people went into the court house to attend the indignation meeting. Whilst there, Robert B. Thompson, backed by Messys, Rush, Neff. ing run into a field, turned upon his pursuers and showed fight, when he was knocked down and mounted upon a rail, and thus carried into the Cherry st., three doors west of Schuyfkill Second mounted upon a rail, and thus carried into the court house. The friends of Thompson were bound over to keep the peace and the effigy was subsequently burnt.
