16 BOYLETON ST., BOSTON 21st Nov., 1953. PROPESSOR BENJAMIN SILLIMAN: - Dear Sir. I take the liberty of asking you if any circum stance has occurred, tending any degree-to diminish the full confidence you have felt in the protection afforded by Newell's Patent Safety

With high respect, truly yours, A. A. Haves.

Boston, Nov. 21, 1963.
To Dr. A. A. Haves:—Dear Sir,—In reply to
the inquiry contained in your note of this date, I can now state that "Newell's Patent Safety Lamp," after a considerably extended experience In my family, has fully justified the favorable opinion which I expressed of it about a year ago. Until this protection was presented, I never permitted the so-called burning fluid to be used in my house. Now it is constantly employed by the domestics, and it has been occasionally burned in the parlor and study. The house being lighted by gas, there is little occasion for its general use in the family; but with the protection named above, I should have no hesitation to use it wherever there is occasion for artificial light, and I do, with en tire confidence, recommend it to my friends and others who consult me on the subject-always which has produce t so many distressing and futal

results. I remain, dear sir very respectfully and truly ours, B. Silleman, Senior. yours, Wilkington, N. C., June 15th, '854. I hereby pertify that i witnessed the experiments of Mr. Newell, with his patent Safety Lamp, for furnishing "fluid" and am perfectly satisfied of the safety of the same.

President of the N. C. dedical Society.

This is to certify that I have used Newell's Patent Safety Lamps, for more than twelve months, and they have given perfect satisfaction

Having purchased the right for the State of N , from the Patentee, we are prepared to fill all Orders at short notice, for every description and variety of Lamps, &c.
All persons are cautioned against infringing upon the above patent, as the law will be rigidly en-

A cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevera,
Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back,
and Limbs, Female Complaints, &c., &c. Indeed,
very few are the diseases in which a Purgative Medicine is not more or less required, and much sicknest and suffering might be prevented, if a harmless but effectual Cathartic were more freely used.
No person can feel well while a costive halatt of
body prevails; besides it coon generates serious and
often fafal diseases, which might have been avoided
by the timely and judicious use of a good purgative.
This is alike true of Colds, Feverish symptoms, and
Bilious derangements. They all tend to become or
produce the deep seated and formidable distempers
which load the hearses all over the land. - Hence a
reliable family physic is of the first importance to
the public health, and this Pill has been perfected
with consummate skill to meet that demand. An with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention: DR. A. A. HAYES, Analytical Chemist, of Boston and State Assayer of Massachusetts, whose high mal character is endorsed by the HON. EDWARD EVERETT, Senator of the U. S. ROBERT C. WINTHROP, Ex-Speaker of the House

of Representatives.

Annorr Lawnence, Minister Plen, to England. JOHN B. FITTPATRICK, Cath. Bishop of Boston. Also, Dr. J. R. Chillon, Practical Chemist, of ew York City, endorsed by Hox. W. L. Maney, Secretary of State.

WM. B. ASTOR, the richest man in America. 8. LELAND & Co., Propr's of the Metropolism lotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills-have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the lest and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obtained by any process. tained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of aeri-monious and injurious qualities, by this each indi-vidual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualeffect is present. All the mert and conoxious quarities of each substance employed are left behind, the
curative virtues only being retained. Hyuce it is
self-evident the effects should prove as they have
proved more purely remedial, and the Pills a surer,
more powerful antidote to disease than any other
medicine known to the world.

medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulas by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known? Their life consists in their mystery. I have no

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-inent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more

than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action - remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-ments as are the first origin of disease. Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from

their use in any quantity.
