DR. JOHNSTON. Member of the Royal College of Surgeons, London; graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Par-is, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known.

Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfumess, with frequent blushing, attended sometimes with derangement of mind, were cured immediately. forced against all offenders. A CERTAIN DISEASE.

When the misguided and imprudent votary June 26th, 1855. pleasure finds he has imbibed the seeds of his painful disease, it too often happens that anill-timed sense of shame, or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delay-ing till the const utional symptoms of this horrid disease make their appearance such as ulcerated sore throat, discased nose, noctural pains in the head and limbs, dimness of sight, deafness, nodes each on the shin bones and arms, blotches on the head. face and extremities progress on with frightful ra-pidity, till at last the palate of the mouth or the Lept. 13. bones of the nose fall in. and the victim of this awful discuse becomes a horrid object of commisscration, till death puts a period to his dreadful sufferings, by sending him to "that boune from whence no traveller returns." To such therefore, Dr. Johnston pledges himself to preserve the most inviolable secrety; and, from his extensive practice in the first Hospitalsia Europe and America. he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid dis case.
