In addition to the above, there is a department of Miscellanes for reading of an entertaining character, carefully selected from new books and the ablest reviews, and a weekly collection of Notes and Queries, which contains a great variety of carlous and valuable information.

It is confidently believed that a journal such as the CRITER ION cannot fail to have a good effect upon our national literature, and to some extent of his Contemporaries, by G. H. Lewes; Ailieford, a Family History; Dalo:

upon our national literature, and to some extent upon our national character. It will be found esupon our national character. It will be found especially valuable in directing the attention of youth to works of real excellence, and encouraging an appreciation for valuable reading, which is being capidly destroyed by the circulation of superficial and sophistical books. To the reading man the literary intelligence alone must render it very desirable; and to all who wish to promote an improvement in taste, the encouragement of merit, and an uncompromising condemnation of virious style, mock sentiment, and evil principles, such an enterprise cannot—at least, should not—be indifferent.

To members of Historical, Litera y and Scientific Societies, Lyccums and Debating Clubs, the subjects discussed in this paper will at all times prove of peculiar interest, and it is the design of the editors to thoroughly canvass from time to time those important philosophical questions which agitate all inquiring minds, correcting false theories, and encouraging profitable investigation.

PROSPECTUS OF THE "SOUTHERN SENTINEL,"

A Democratic and Miscellaneous Journal, to be published weekly, at Wilson, N. C. THE existing condition of political parties, and I of partizan strife, naturally suggests the estab-lishing of such a journal as the "Southern Sentinel" proposes to become. The present, indeed, is a crisis in our political history, never witnessed be-fore. The Constitution has been invoded; the laws trampled and sput upon; religious liberty assailed; Although I took Mr. Nisbet's box in addition ballot boxes broken and burnt; the landmarks of to my own when he returned to America still it is our political ancestry partially effaced; the wis all gone but three or four bottles, and that would dom derived from a time-honored experience unseated; strange and questionable men have been pushed into high positions; and fanaticism, unchained from its are and its faggot piles in the North, is heard to how! among us in the South. These evils, so far as it humble abilities shall serve, THE SOUTHERN SENTINEL

Will endeavor to arrest. It will endeavor to incul-cate a reverence for the laws as they exist, and for the Constitution, as it has been interpreted by the wise men of the past and by the Fathers of the Democratic faith. It will defend not only political but artificous liberty, and will do battle against every political heresy that may appear, whether hatched in caves or culverts, or open convention. The Sentinel will also, to relieve the monotony of politics, devote space to literary topics, original and selected, as well as to miscellaneous subjects, which shall include Agricultural and the latest Commercialintelligence. In brief, no efforts nor expenses will be spared to make the Sentinel one of the most useful and efficient journals in the South.

The first number of the Sentinel will be issued about the first of the next month, and sent to sub-scribers at the rate of \$2 per annum: \$2 50 at the end of six mouths, and \$3 at the end of the year.— Discount made in behalf of clubs, who shall take five, ten or more copies.
