MISCELLANY.

THE MINISTER'S DINNER PARTY.

The Rev. Mr. W— was an officiating clergyman, who had charge of a little flock in the State of Massachusetts. He was possessed of an excellent temper, generous feelings, and a well-cultivated mind; but he was eccentric, even to oddity. Ha was a powerful speaker, and his ministration was blessed to the conversion of many souls. At the age of thirty-four he became convinced that it was not good for man to be alone, and for the purpose of bettering entations."

I Latters Patent were granted to John A. Reed. I New York, Jan. 9, 1855. The nature of this Improvement consists of the increase of power about 20 per cent., and reducing the weight of the Ragins one half. The saving of fuel is efficied by letting the steam in on both sides of the cylinder; doubling the size of the port, and balancing improvements removing the infetion and weight of the slide valves, eccentrics, cross heads, connecting rods, 4c. The exceeding simplicity of this Engine, renders it much more durable and easily managed than any other, and when placed upon the boiler with wheels it is portable though effective.

These Engines received the Fist Prize Medal at the great Exhibition in Paris. There are now about Seventy-five of them in operation, all giving great satisfaction.

PROSPECTUS OF THE RAIL ROAD TIMES. AN INDEPENDENT JOURNAL. Devoted to News, Internal Improvement, Education, Agriculture, Manufacture & Com-

WE know that the interests of the People of Our State demand such a paper, and believing that one free from political strifes and quarrels of the day, devoted to such topics, will be the kind they desire, we confidently enter upon this enterprise with the assurance of meriting and meeting their approbation and support. Our object is to make the Times the mirror of the State, in which all can see their true interests held up and encouraged.

INTERNAL IMPROVEMENTS. To this subject we expect to devote as much space as a full statement of the various operations will require; for as our works of improvement advance, so do all the other interests of the State.

EDUCATION.—It is a source of regret to all interested in the Educational interests of our State, (and who is not?) that our papers are so much devoted to party politics, &c., that this great cause has been too much neglected; we propose, therefore, to devote to this subject, a portion of our space. We will foster and carefully note the advancement of Education, not only in our higher Schools, but also in our Common Schools.

AGRICULTURE, MANUFACTURE AND COMMERCE, at this stage of our history, are commanding the attention of all our good State and money-loving citizens. Therefore, the Markers will be reported with care, and all items, calculated to throw light on either of those inseparable oranches of industry, will be carefully gleaned and inserted every week.

It is unnecessary to say more if we had time, but the "whistle of the locomotive" on the East and the cherring news from the West admonish us to close. Permit us, however, to assure you that the first number of the Times will be printed weekly in TERMS—The Times will be printed weekly in TERMS—The Times will be printed weekly in
