MISCELLANY.

THE "REVOLUTION" IN SAN FRANCISCO.

Major General VOLNEY E. HOWARD has made a lengthy report to Governor JOHNSON, of California, of the proceedings in San Francisco. The report is published officially in the Sacramento State Journal. After giving a minute account of the arrest of Judge FERRY, and the capture of the State arms, it proceeds to comment as follows:

The circumstances connected with this movement are such as to leave no doubt on my mind that the insurgents aim at nothing less than an entire overthrow of the State government and secession from the Federal Union. If it had been their purpose to disband in a short period, they would not have committed piracy by robbing a vessel of a small quantity of arms upon the bay. They would not subsequently have levied actual war upon the State by surrounding the armories by a large military force and seizing the State arms, and making prisoners of the men guarding them—especially when they knew that your orders were that I should act on the defensive, and that I had no power or means to pursue any other line of conduct. It must be obvious to all men of ordinary discernment, that this lawless association has proceeded from one crime and outrage to another, until they have arrived at the conclusion that there is no safety for their leaders but in revolution and a separate government on the Pacific—they have committed treason, murder, piracy and the felony of kidnapping.

They have violently and with force of arms trodden down the authority of the executive and the judiciary. They have, at the point of the bayonet, resisted the execution of the writ of *habeas corpus*—for ages justly considered the bulwark of personal liberty. They have assembled round the jail of the county of San Francisco large numbers of armed men, and planted a cannon against the front, and thus compelled the surrender of two persons therein detained in the custody of the law, whom they have since put to death without a legal trial or the forms of judicial proceedings. They have, without a warrant or any other process of law, forcibly searched the houses of honest and peaceable citizens at the dead hour of night, outraging families and terrifying defenceless females.

For nearly six weeks they have trampled down by an act of military despotism in San Francisco, every constitutional right secured to the citizen by Magna Charta and the Bill of Rights. They have robbed us of the heritage earned for us by the heroic and self-sacrificing patriots of 1776. They have erected in the heart of the commercial metropolis a fortification filled with armed men to overawe the citizens and the civil authorities. By day and night they paraded in the streets large bodies of armed men, and San Francisco presents continually the appearance of a city in the possession of a foreign force—and it is so practically. It is well known that the Vigilance Committee have armed and hired a large body of foreign mercenaries to slough down the officers and citizens of the State, discharge the duties cast upon them by the laws and their oaths of office.

Men who have committed such crimes as those against the State, are naturally hurried by fear and desperation. Before them is the abyss of revolution and secession; behind the halberd. They dare not return under a government of honest judges, with a prospect of fair jurors, who will administer the laws without the commission of perjury. It is a fact worthy of notice, that during this whole excitement, licentious as the press is, the District Judges in San Francisco—the highest judicial officers in this city, both as to civil and criminal jurisdiction—have not even been assailed. Their purity is not questioned to escape from the consequences of trial before these officers, members of the Vigilance Committee, through their mouth-piece—the press—have constantly clamored for their resignation.

They have demanded the resignation of the Mayor, Sheriff, and all other city and county officers, on the avowed ground that the Vigilance Committee could not disband with safety, until these officers were filled with creatures of their own. Failing in this object, they see no safety but in revolution. Knowing that the Executive deputed by the last steamer a requisition on the President of the United States for the necessary means to put down the insurrection, and perfectly aware that the President under the constitution and the acts of Congress has no discretion, but is bound to furnish not only arms, but to employ all the land and naval forces of the United States for that purpose, they perceive that their punishment is inevitable; that it is a mere question of time, unless they can throw off the authority of the Union and tear California from the constellation of States. They see that under the laws of this State there is no limitation of the time within which they may be prosecuted for murder; that so long as California is in the Union and they may exist and remain within its limits, they are liable to prosecution and the ignominious penalty of the gallows. They have no safety, therefore, but in drawing all their fellow-citizens after them into anarchy and disunion—they seek to pull all down to a common infamy of crime.

It is doubtless true that up to the time of the refusal of General Wool to grant arms to the State, had he complied with the requisition, they would have disbanded within four days, and order would have been restored without the firing of a gun. But the knowledge that the State was comparatively destitute of arms, is the key to all the recent high-handed measures, outrages and crimes. They use their momentary power to gloat over, insult and trample upon the people of the State.

If crime is not punished in San Francisco, it is not for the want of able and upright judges. It is owing to the corruption of the juries. It will be admitted that the jury system in San Francisco has not always been remarkable for purity. But whose fault is it? That of the very men who are now in the hands of the Vigilance Committee. They decline or shrink the duty of serving on juries on any frivolous pretext. It is well known that a distinguished judge in that city not long since adjourned the court for a day, alleging that he was sickened with hearing business men commit perjury in swearing to excuses to evade serving on juries.

As to the election frauds—bribery and ballot-box stuffing—there is no doubt that it has been a monstrous evil in San Francisco. These crimes have been resorted to a frightful extent by all political parties; but the punishment has fallen exclusively upon the offenders in one. Some of the most notorious perpetrators of election frauds are prominent members of, and sympathizers with the Vigilance Committee. They are honored and protected members of that respectable association. Since they have created a new punishment unknown to the law—that of banishment—why do they not mete out equal justice to all parties?

Neither can these men escape scrutiny into their motives. They are not purely those of the public good. There are in the Vigilance Committee some merchants of wealth and business integrity. There are a host of others on the verge of bankruptcy. Some are unable to make remittances before this committee began, and who are now urging its prolongation, because it affords them a plausible excuse for not sending per mail funds which they are unable to remit. No one wishes to take out an attachment or foreclose a mortgage against an influential member of the Vigilance Committee. As to him, the courts are practically closed. Capital is tied, and shrinks from insurrection, civil commotion, and the conflict of arms; but a man who trades on borrowed capital, and in an untried hour, is little more affected by the losses of his creditors and landlord, than the burr cascade Frenchman whom he hires to devastate the city. An ocean of flame burns nothing that he can call his own, what right have such men to kidnap one of the Judges of the Supreme Court, a gentleman who is the soul of honor and truth? How dare these traitors thrust Dr. Ashe into their dungeon, erected at the expense of their creditors—a gentleman who has committed no offence, and upon whose integrity the mildew of calumny has never before rested?

No one who has closely observed the proceedings of the Vigilance Committee for the last few days can doubt that it has sunk into a mere political machine. The leading spirits outside and in, belong to a certain political combination, are well known and marked for their former political associations and affections. They cannot disguise their selfish and ungodly ambition. Their purpose is various; some wish for a separation from the Union—others to continue the association until after the November election, for mere party purposes. They think they see in it a patent lever for controlling the elections in California.

I am well aware that a "33 Seal" has published an official denial of these projects. Traitors never admit their treason in the outset. It is quite as easy for a Republican to deny the purpose until the plot is ripe, but it is well known that many of its prominent members have advocated a new Government on the streets, and that others have avowed the purpose of keeping up the organization until after the election, because it was such a capital thing with which to beat their opponents. When the proper time arrives these things will be fastened upon them by irrefragable proof.

The honest yeomanry and miners in the country have hearts, and the sentiments and the souls of honest and free men. Call them to the rescue, with their rifles and such arms as they possess—they will respond to a call, red-ink in the country from this deep disgrace, which is a stain upon every citizen, however humble. The sober people have right hearts and stout arms. They have made the country what it is in peace and war, and will never fail to redeem it in the hour of danger and public calamity. Let them deal with the traitors.

VOLNEY E. HOWARD.

BE CAREFUL WITH THE GUANO.
It may not be as generally known as it should be that great danger may be incurred by the reckless handling of guano.—We understand that cases have occurred of persons having cuts upon their fingers who, in handling this manure, have received a deadly poison into the system. The guano contains an organic element which is just as certain to operate against life if it once reaches the blood, as the corruption of a body that gets into a wound upon the person of the dissector. Farmers should be aware of this fact and be cautious. We hear of a death from this cause occurring within a few days in a neighboring county.

THE GERMAN PRESS.
The Cincinnati Volksblatt contains a statement showing the political position of the German papers in the United States.—From this it appears 10 dailies and 35 weeklies support Buchanan, and 15 dailies and 34 weeklies support Fremont.
