NEW FLOUR.

The first lot of Flour, from New Wheat, received by BRYAN & OLDHAM, of this place, was from W. W. Guess, Esq., of Orange county, and sold by them at \$10 per barrel. INQUEST.

Coroner A. A. Hartsfield held an inquest on Wednesday, 13th inst., at Rose Hill, about seven miles from town, over the body of a negro man named Silas, the property of Thos. H. Lane, Esq., who was drowned on Sunday last by falling from

a boat. Verdict: accidental drowning.

SOUTHERN LITERARY MESSENGER. We have received the August number of this valuable periodical. Published in Richmond, Va. by Macfarlane, Fergusson & Co. Jno. R. Thompson, Editor, \$3 a year.

OPINIONS IN WASHINGTON. A very reliable correspondent of the Baltimore Sun, Ion, writes from Washington City, as fol-

" As matters now stand, it is hardly to be supposed that Mr. Fillmore can carry any Southern State, and therefore the hazard of a defeat of the election before the people is greatly diminished The contest is brought closely between Fremont and Buchanan, and therefore the old line national whigs have little difficulty in making a choice." Another correspondent of the same paper says:

Senator Jones, of Tennessee, made a most eloquent speech yesterday, giving in glowing lan-guage his reasons for supporting Mr. Buchanan. The galleries, transported beyond themselves,

YELLOW FEVER IN HAVANA. The yellow fever is reported on the decline in

a month, it will so far decrease as to remove all causes of alarm. The Herald says: "It appears that it broke out this year about a month before its usual time, and that a large number of vessels which were almost ready or preparing to leave were unable to leave port in time to escape the infection. To this fact may doubtless be attributed the large fleet which is now in Quarantine." FELLOW FEVER ON STATEN ISLAND.

The New York Herald of Wednesday, says :-"Although the Quarantine grounds are still barricaded, the excitement has considerably abated, and the yellow fever is on the decrease .-There are but twenty-five persons sick of that disease at present in the hospital, and there have been no new cases sent there from incoming vessels during the past two weeks. Of those which have arrived within the last month, there was one in which the disease was exceedingly virulent, but she had her cargo discharged, was thoroughly fumigated, and cleared yesterday from this port. No less than twenty-five persons, who were on board of her, died of yellow fever. These were stevedores, lightermen, and other persons employed about Quarantine. She was the most fatal vessel which came from any of the infected ports, and her departure will, no doubt, be a great relief to the Staten Islanders."

A GREAT COMPLIMENT. A writer from a strong abolition district in Ohio. writes to the New York Express that a Fillmore

Club has been formed there, and that thousands of Fremonters only support their candidate because they think him available, but Fillmore is their first choice. We suppose it must be considered a great compliment to Mr. FILLMORE, that he is the first choice of the decided abolition District of Wellsworth, Ohio. We want no such compliment for Buchanan. RUNAWAY NEGRO CAMP.

On Friday last a runaway negro camp was discovered on an "island," in Big Swamp, situated between Bladen and Robeson counties. On Saturday morning a company of twelve or fifteen started out to hunt them, and after starting them from their camp, one of the negroes fired at Mr. David C. Lewis, wounding him, from the effects of which he died on Sunday morning. On Fri-

day, a man named Taylor was shot at twice from

the same place, but missed. The negroes had cleared a place for a garden, had cows, &c., in the swamp-none accested: The swamp is about four miles wide, and almost impenetrable. Journal of Thursday.

Texas papers mention the receipt of additional bales of new cotton, of excellent quality and staple, which is selling at 12 cents. There is promise of a very fair crop this year.

NORTHERN VITUPERATION. MIDDLETON, August 8 .- I perceive that you were posted up regarding the exercises attending the commencement of Weslevan University which makes a letter from me of comparatively little importance. I arrived on the ground on Wednesday morning, and I am sorry to say that I found a prevailing spirit of fanaticism among part of the students and others, who should know better, that was quite disgusting, and in a Literary institution quite reprehensible in the last degree. Upon inquiry I found that Mr. G. W. Curtis, the lecturer, had in the evening previous, taken advantage of his invitation to address the Literary Societies, to "wring in" a Fremont stump speech, and one too that had with but few sentences, been already detailed to admiring political audiences in uifferent parts of the country. This Havana, and it is expected that in the course of may be considered proper by men who would a month it will so far decrease as to remove all sacrifice the country to benefit the blacks, men who are raised in the "interior" and see little of the world and necessarily become narrow-minded ted something different from Mr. Curtis, because of his supposed general intelligence, and his acknowledged association with good society. On the occasion of his address there were many gentlemen and ladies attracted to the church, because they desired to hear a literary performance; -and judge of their surprise when they found that they must listen to a wild abolition discourse, or appear rude by leaving the assem-bly. Some gentlemen expressed their indigna-

It is not worth while for me to go over the one sided argument or rather appeals to the passions of his andience, for his address was nothing else but as Mr. Curtis has seen fit to publish it in the columns of the Tribune, I take the liberty of extracting one paragraph as a sample of the whole. s, the Beechers, and the Greeleys pale before this libellous charge upon Southern people. Mr. Curtis must have the credit of surpassing them all in bitter hate and ungarded ex-

"Therefore in Slave States there is no literature, no art, no progressive civilization. Manners are fantastic and fierce; brute force supplants moral principle; freedom of speech is supmns Slavery; a sensitive vanity is called honor, and cowardly swagger, chivalry; respect for wo-men is destroyed by universal licentionsness; lazy indifference is called gallantry, and an impudent familiarity, cordiality

And this is the vile stuff that Mr. Curtis pours out upon a New England audience, -inoculates into the ears of "hopeful youth," and dares to utter while Southern gentlemen or Southern ladies are in his hearing, called together by the beneficent idea that they were to hear an address before a College Institution, devoted to science, and engaged in the cause of literature. For the honor of the people of Middleton, I write, that the substantial citizens were loud in their condemnation, and hurled back into Mr. Curtis's face the foul insinuations, his distorted and libelious pic-ture of the Southern people. Upon the students, in many instances, the effect was as bad as would be expected,-incipient Tappans and Parkers were to be seen everywhere, young men just starting in life, with eyes glaring with hatred towards the Southern brethren,—sectional,—na row-minded,-and for all great purposes, as American citizens, ruined, I fear, forever. Shame ! shame !!

A MINISTERIAL DEMONSTRATION. The Puritan Recorder, the chief organ of the New England Congregationalists, contains a long manifesto issued by the Mendon Association of preachers, on the serious aspect of the present slavery difficulties, and arguing strongly in favor of the election of Fremont to the Presidency.

IOWA. The Washington Union of Wednesday says:-Our accounts from Iowa differ from the statements put forth by the black republican prints. N. Y. Correspondence of the Commercial. New York, Aug. 12, 1856.

We of Gotham have become affected "ad nauseam" with the cases arising under the code duello. At first Brooks vs. Burlingame interested us; we really expected a manly meeting worthy the olden time. But when the party of the first part effervesced like unbottled soda over a newspaper sheet and that too without the inspiring "pop," which even small beer gives out and the belliger ents fell foul of each other with squirts of Ink, desires and hopes of the British people; though it we could only see a ridiculous farce, and wish some more decent and dignified mode of adjusting differences could come into vogue. As the opinions of the world go, now very adverse to duels, no two men should play with pistols. If they decide to take the consequences of a duel, let it be a duel in earnest-little talk and effectual shooting. Society does not now exact that quarrels shall be settled by standing at ten paces to be shot at; it frowns on it, and punishes it, so that men that resort to the duello, should go out for a strong reason, and being out set. The Vigilance Committee continued to hold full sway in San Francisco. Nothing of moment had transpired during the fortnight intervening since last advices. A controversy was pending between certain parties and the Governor of California, relative to an arrangement with the Vigilance Committee, that they may deliver Judge Terry and cease to exercise authority. Nothing, however, had been accomplished.

Hopkins, who was stabbed by Terry, was convalescing, after having been despaired of. The fate of the Judge was undecided. The exportation of offensive parties still continued. James Gallaghan, Casey's executor, had been arrested, but was liberated on certain conditions, agreed to by the committee. Several others were given the same privilege.

The regular authorities had also sent in pursuit of him without effect. At the latest dates his capture was considered certain.

Philander Brace, one of the murderers of Capt. West, was in the hands of the committee, and his execution was looked for.

Numerously signed pettitions and great mass meetings had called on the city and county officers to resign. All of them positively refused compliance except two. TREATIES CONFIRMED.

Washington, Aug. 13.—The Senate was in executive session more than three hours to-day, and ratified the treaties with Austria and Baden for the extradition of criminals. Also commercial treaties with the Kingdom of the two Sicillies, the former government.

A treaty with the Sandwich Islands was considered but not finally acted upon.

Official documents show that Honduras refused to receive the United States commercial agent until indubitably convinced of the authenticity of his commissions, but permitting him to remain, provided his conduct should furnish no ground of complaint relative to the questions which agitate that part of Central America against the fillibusters who have violently seized on Nicaragua.

RUMORS CONTRADICTED. Washington, August 13 .- There is no truth in the report that Judges Lecompte and Cato, of Kansas, have been officially requested to resign, nor have they been removed.

There is no ground for the statement that the prosecutions in Kansas for treason and other crimes are to be quashed. Mr. Geary accepted the Governorship on no such conditions as alleg-

Number 3 is a new and revised edition of the North Carolina Reader, first published in 1851 .-Numbers 1 and 2, just issued, complete the series, which is, as a whole, cheaper than any other series of Readers in the United States, and as The Editor (Prof. Hubbard) in his Preface to

Number 1 'deems it proper to allude to a few of the peculiar advantages aimed at by the Superintendent of Common Schools while making efforts to have this work completed. These are 1. THE ENCOURAGEMENT OF A FEELING OF SELF DEPENDENCE, and the enlistment of popular settliment in behalf of the State, and its institutions. It was not thought important however, to have more than one number of the Readers of merely local interest.

2. TO REMEDY THE EVIL EVERYWHERE COMPLAINED OF IN COMMON SCHOOLS, OF A PERPETUAL CHANGE IN TEXT BOOKS; an expensive habit, and one which injures the Schools by preventing the children from being classified. A series of home Readers, it was supposed, would be certainly used, and this great evil thus avoided. 3. ECONOMY, the popular system of Readers

This series is to consist of fewer numbers than universally used in the State, the sum saved to parents and children would amount to several thousand dollars annually

4. TO PUT IN THE HANDS OF CHILDREN LEARNING TO READ, COMPOSITIONS SUFFIages, correct specimens of style, interesting in matter, and inculcating proper morals and religious instruction."

The prices are for No. 1, 25 cents; No. 2, 374 cts. and No. 3.75 cents. A liberal deduction from these prices to Merchants and School Teachers. Wilmington, N. C., March 4.

50,000 DEATHS BY CONSUMPTION. Would perhaps be a small estimate for the ravages

of this dreadful disease in a single year; then add the fearful calalogue of those cut off by Inflammation of the Lungs, Hermorrhage, Asthma, Coughs, Colds, Influenza, Bronchitis, and other diseases of the Lungs and Liver. And the list would present an appaling proof of the fatality of these two diseases. But it is im-

portant to know that nearly all of this dread waste of human life might have been prevented by a DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

Violent Cough, Bloody Expectoration etc. I not only take pleasure, but doem it a duty I owe to suffering humanity, to certify publicly to the great power of your Compound Syrup of Wild Cherry. I was taken with a violent cough, and bloody expectoration, great wasting away of my flesh, all the symptoms of fixed consumption. Af ter trying various remedies without any relief, and hearing of the great virtues of your Syrup, I commenced its use, and to my great satisfaction, and astonishment of all around me, my cough began to abate, appetite improve and in fact I have be-come as healthy and fleshy as ever. Some twelve

months have elapsed since the disease was first arrested, and I have every reason to believe that it is completely eradicated from my system. Very respectfully Witness: Benj. Reighard. JACOB HAUS. Extracts from opinions of the press:
