RAIL ROAD RECEIPTS. We have issued an edition of Rail Road Receipts, for the Wilmington & Weldon and North Carolina R. R. and for the Wilmington and Weldon alone—on excellent paper.

BUCHANAN AND BRECKENRIDGE!! THE CONSTITUTION AND THE UNION! DEMOCRATIC MASS MEETING AND BARBEGUE At Wilmington, N. C., on Wednesday and Thursday, Oct. 22d and 23d.

A Democratic Mass Meeting and Barbecue will be held at the above time and place, to which all who revere the Constitution, love the Union, and are opposed to fanatical aggressisns upon the rights of the South, are respectfully invited, without distinction of party.

Distinguished speakers have been invited, and several will certainly be present and address their llow-citizens. All the Railroad lines leading to Wilmington

will give return tickets, entitling visitors to come here and return home for the single fare. THE LATE ELECTIONS.

The result of the elections in Pennsylvania, Ohio and Indiana, foreshadow a glorious day for the Constitution and the country, in November next. We have at no time had our faith shaken by the various rumors and declarations of the opponents of Mr. Buchanan. The issue embraces not only the constitutional rights of fifteen States, but a moral and religious question.

We have heretofore stated, and we again repeat our opinion, that GOD WILL VINDICATE HIS BIBLE IN THIS ELECTION, assailed during this political contest, by infidelity in its most daring and blasphemous aspects. The Fremont party say they will have another God, instead of the God of the Bible-another Constitution and another Bible, rather than the Slave States shall enjoy the rights defined in our organic law.

The rejection of Christ and the blasphemous insults to his word and his power, emanate from men of high station in Church and State. In places professing to be the Sanctuary of God-reherds of Christian Flocks; and the people, incited to war upon the constituted authorities of the Nation, are presented with the instruments of death-and clergymen, and christian laymen, and enators and statesmen, have sneered and scoffed, and scorned and derided the name of the Holy One of Israel.

Can it be supposed that no visible reproof will follow such horrible violations of all that is satred 1 No one who believes the Gospel of God to be true, can for a moment doubt but that sooner or later that truth will be vindicated. Our orinion still is that it will be done now.

The appeals and arguments of the southern people, when pressing their claims for justice; when demanding what is honestly and fairly their own, have fallen on an ear of lead, and been met by a face of brass. But the time is now come, we trust, when in the exercise of a lawful power,

We present below, what be believe to be elections, as can at present be obtained.

We trust our friends will not relax their efforts to dissemenate truth-and remember, that however certain men may be of success, the conditions of all successes embrace a faithful discharge of daty. Accounts that had been received from various

sources, were confirmed by telegraphic despatches received at the Journal Office, The result, in brief, is as follows: Pennsylvania .- Legislature largely democratic.

Democratic majority on State ticket three to five Indiana,-Popular Democratic majority 8 to

10,000. Eight out of eleven members of Congress Democratic. Ohio .- A gain of ten Democratic members of

The result of the popular vote in Ohio is not yet known. We look upon the above three States as safe for BUCHANAN.

The Legislatures of Pennsylvania and Indiana, cans and foreigners altogether. being largely democratic, will elect democratic Senators.

We believe the democratic gain for members of Congress is 28.

N. C. MUTUAL LIFE INSURANCE CO. We have before us the Seventh Annual Report of the North Carolina Mutual Life Insurance Company, printed by Messrs. Holden & Wilson, Raleigh. The Report represents a very satisfactory condition of the Company, with ample funds to meet any probable contingency. Amount of losses the last year \$45,084.41; \$25,968.11 by the death of eleven white persons and the balance

by thirty-one slaves. ELECTION IN NEWARE, N. J. The Democratic majority for Mayor in the city of Newark is reported at 600. This is the first time the city has ever gone Democratic. It has usually given 1000 to 1,500 opposition majority.

SOUTH CAROLINA BLECTION. The election in South Carolina for six members of Congress and the State Legislature, took place on Friday last. There was very little opposition except in the Charleston District and none on political grounds: Peace and good order prevailed throughout the day.

Wm. Porcher Miles, has been elected to Congress from the Charleston District. Messrs. Mc-Queen, Keitt, Boyce, Brooks, and Orr, have been re-elected without opposition.

DEATH AT A REVIVAL.

A young woman named Temple, died suddenly at Vernon, Ct., on Friday last. She was at a religious meeting, and while laboring under much to relieve the Savannah, whose term of service rine Garabaldi, has been convicted before the excitement and giving utterance to her feelings has expired. She is the flag ship of Commedore Circuit Court of Richmond, and sentenced to the

POLITICAL CHEATING.

The following will show our readers the game that is played and will be played in Pennsylvania. The plan was concected at Harrisburg, on the 7th of the present month by what is called sagacity: the Union State Committee:

Twenty-six electors shall consist of the same names; the twenty-seventh elector on the Fill-more ticket shall consist of a different name from the twenty-seventh on the Fremont ticket. For example, Millard Fillmore and twenty-six other names selected from the several Congressional districts shall form one ticket; and John C. Fremont and the same twenty-six names above referred to shall form the other ticket. The twenty-six electors shall be pledged to east the elec-toral vote of the State for Millard Fillmore and John C. Fremont, respectively, precisely in pro-portion to the popular votes cast for each, as in-dicated by the twenty-seventh elector on each ticket. For example, if Millard Fillmore (er the twenty-seventh elector who represents him) receives an equal number of votes with John C. Fremont or his representative, then thirteen electoral votes shall be given for Millard Fillmore

This association of the FILLMORE men with the black republicans, is an act of political cheatery, more shameless and bare-baced than is often recorded of party baseness. What southern citizens can be thinking of, when they act and vote with a party whose intentions are deadly hostile to all our interests and hopes, we are at a loss to guess. We have no idea that ultimate success will crown this dishonorable and unholy leaguebut we desire that our readers may know what sort of constitutional people the Fillmore partizans in Pennsylvania and other places are.

From the National Intelligencer. NICARAGUA.

Extracts of a Letter from an American in Walker's army, to his friend in Washington. GRANADA, August 29, 1856.

I used to talk and think a great deal of Spanish America and the field for enterprise it presented. Since that time I have never abandoned the view I then took of the subject. Though he urged me to join him I declined to unite with Walker in his Sonora expedition. I advised him against it. and predicted its failure; but I cheerfully followed his lead here, when to most people the chances appeared desperate. I was convinced that he boy. had struck at the proper time and place, and I have never for a moment doubted the ultimate success of his undertaking. And here I will remark that Gen. Walker's character is not yet well understood in the United States. I am told that some take him to be a rough, reckless adventurer. On the contrary, he is a man of polished ed ucation, acquired in the best schools of the United States and Europe; remarkably modest and retiring, though possessed of great learning; simple and abstemious in his habits, and as purely a moral man as I ever knew. With these qualities he combines wonderful sagacity with an unbending will. He is perfectly calm and deliberate at ment at any thing.

Of the army of Nicaragua (about 1,200 strong) cannot speak very favorably, except that the rank and file is the best material I ever saw .-The men are mostly young, active, and intelli-The officers, with a few exceptions, have no knowledge of the profession of arms, and laing are not very important. The action at Rivas, in which they lost immediately afterwards, almost entirely destroyed their army of 3 200 men, the largest and best ever raised to Central America. In the mean time the southern portion of the State will improve very rapidly. Commercial and agricultural enterprises are engaging the attention of many of our countrymen who have come here in quest of fortune.

The American rule is now so firmly established that I believe nothing can shake it. When our army is large enough to enable us to invade and the people will triumph in the Restoration of the punish some of these States which have been making war upon us, we shall have some rough fighting to do. We have fine light troops, but true and faithful a record of the results of the are deficient in artill ry-have no mortars. I hope, before another campaign is undertaken, we shall have these things. * * *

> There are now some ten or twelve American ladies here. With these and some of the higher little parties. Granada is very much such a town as Jalapa. The presence of five or six bundred Americans enlivens it very much. The country is the most fertile and beautiful I ever saw. It produces in great perfection sugar, coffee, tobacco, cotton, cocoa, corn, indigo, and many other valuable products. Though these people have been in a constant state of war and revolution for thirty years, there are some fine haciendas left most of which are now the property of the Government by confiscation, and will be sold in a few months. Pierre Soule, of New Orlears, is here. He bought from the Government the other day s fine cocos estate for \$50,000, and intends to settle upon it with his family.

> The greatest difficulty we have had to contend with so far has been a want of money, not having as yet been able to regulate and collect the revenues of the country. That trouble will be removed soon by a loan which will relieve the Government until the financial matters can be arranged. Heretofore the officers have lived upon private resources; within two or three months they will commence receiving their regular pay.

DESTRUCTIVE FIRE AT YORK, PA. Your, Oct. 14 .- 10 P. M .- A tremendous fire raging here, baving broken out in a barn, and there being a strong northeast wind it spread to such an extent as to destroy about a dozen barns and five or six houses. NAVAL. We learn from the Norfolk Herald that the United States frigate St. Lawrence, flag-ship of the Brazil squadron, dropped down to Hampton Roads Friday, and will saif thence in a few days A CANINE NOBLEMAN.

We take the following from the Trinity (California) Times. It records one of the most remarkable instances we ever have heard of canine

William Dredge lives about five miles from town, at the base of the mountain which towers North of us. A short time after midnight on the morning of Wednesday last, he was aroused from his slumbers by the howl of a dog. No menace on his part could rid him of the presence of the strange intruder. The dog continued to walk a-round the cabin, still repeating his dismal moaning howling, occasionally making efforts to effect an entrance through the closed doorway. Surprised and somewhat alarmed at this singular demonstration, Mr. Dredge at last hastily dressed himself and unbolted the door, when a large mastiff rushed in. The dog at once caught hold of his trousers and employed every gentle means to induce the man to accompany him outside. Dredge's first impression was, that the animal was mad; and yet so peculiar and earnest were the dumb entreaties, that he finally yielded and proceeded without the cabin. A joyful yell was the result, and the delighted brute, now capering and wagging his tail before him, and now returning and gently seizing him by the hand and trousers,

nduced Dredge to follow him.

Their course was up the precipitous side of the nountain, and soon they were forcing their way through a snow drift that had settled in one of its numerous fissures. Here comes the wonder. Upon the snow lay the body of a woman, who had evidently perished from cold and exhaustion. Her limbs were already stiffened in death; but what was the surprise of Mr. Dredge to see that faithful dog ferret out from a bundle of clothing that lay by the side of the woman, a young child about two years old, still warm and living. A little inspection, aided by the starlight and the brightness of the snow, enabled him to discover that the person of the woman was nearly naked. With a mother's affection she had stripped her own person in order to furnish warmth to her exposed infant. The trusty dog had completed her

work of self-sacrifice. Mr. Dredge immediately conveyed the child to his cabin, and, arousing some of his neighbors, occeeded again to the mountain to secure from ne attacks of wild beasts the person of the unrtunate woman. Her body was buried the next day. The child and dog have been adopted by this good Samaritan; but as yet he has been unable to obtain any light as to the name of the woman, or how she happened to stay on the dismal mountain side at such an unfortunate hour. The child is doing well and is truly a handsome

EXTENSIVE FORGERIES IN STATE STREET, BOSTON.

Considerable excitement was created in the vicinity of State street yesterday, by the discovery of several bold forgeries.

At about half-past one o'clock a boy presented at the State Bank a check for \$700, the signature to which was kept secret for certain reasons. The teller did not discover it to be a forgery, and paid into the hands of the boy one bill of \$500 and two one hundred dollar bills. A check for \$900, and with the same signature, was next presented at the Granite Bank, but here without sucall times-never manifesting surprise or excite. cess, and while the check was under examination. the boy escaped.

At the North Bank a check for \$3,090, purporting to be signed by John H. Person & Co., was presented by a young man. It was so finely executed that the teller would not have been liable to investigate it, were it not a custom with the bank to pay no money into the hands of strangers bor under the delusion that discipline and train- without undoubted authority, and while he was making his examinations the young man sudden-

Last night, about 12 o'clock, the alarm of fire was given, and flames were discovered issuing from the stabling attached to the "White House" Hetel, and before the fire could be arrested it had spread to the hotel on one side, to a livery stable on the other, and thence to the buildings connected, until all in the block were destroyed .-The most horrible of the whole spectable, was the frantic neighing of the horses-some 42 being in the stables, perishing in the flames, without the possibility of being saved from burning alive-their charred and blackened carcases in the rulus this morning painting but too fearfully the horrors of the scene. These shots were returned by missiles of one sort or another by which the windows were smashed and other damage done. We are unable to say what is the condition of the wounded men. One is represented as being dangerously-the other slightly wounded. Near
