The Drame, Music, Fine Arts, and Science, also receive stummen, and several columns of carefully selected and agreeable matter are given in each number. In addition to the above there is a department of Miscellages for reading of an entertaining character, carefully selected from new books.

It is confidently believed that a journal such as the CRITE tion annot fail to have a good effect upon our national fiterature, and to some extent upon our national character. It will be found especially valuable is directing the attention of youth to works of real excellence, and encouraging an appreciation for viluable reading which is being rapidly destroyed by the circulation of superficial and suphistical books. To the reading man the literary intelligence alone must render it very desirable; and to all who wish to promote an improvement in taste, the encouragement of merit, and an uncompromising condemnation of vicious style, mock sentiment, and evil principles, such an enter-prise cannot—at least, should not—be indifferent.

To members of Historical, Literary and Scienti-fic Societies, Lycetims and Debating Clubs, the subjects discussed in this paper will at all times prove of peculiar interest, and it is the design of he editors to thoroughly canvass from time to time those important philosophical questions which agitate all inquiring hinds, correcting false theories, and encouraging profitable investigation.
