MOORE'S CREEK MONUMENT. The meeting of the Committee appointed by the meeting at Moore's Creek, on the 27th of February last, held on the 6th inst., was very interesting. The Proceedings did not come to hand in time for to-day's issue. We will endeavor to make room for them in our next.

HOWARD FIRE COMPANY. The following officers were elected for the en- color. suing year on Monday:

JOHN A. PARKER, President. JAS H. MITCHELL, Foreman. JOSEPH LAWTON, 1st Assistant Foreman HENRY ZIMMERMAN, 2nd do T. H. NICHOLS, Secretary. W. J. CORNWALL, Treasurer.

BOSTON NULLIFICATION.

The following article appears in the Boston Traveller of Saturday last :

We are informed that two fugitives, who had succeeded in making their escape from their masters in the South, have arrived in this city the present week. One of the slaves was from Mississippi, and escaped in a vessel. He arrived here night before last, and states that resterday La saw his master, accompanied by a well known slave-catcher in the streets of our city. Once before, the fugitive states, he made an attempt to escape, but was then captured and carried back. when his master told him if he was ever caught again in the act of running off, he should be shot The other Ingitive was from the State of Virginia and made his escape by land. The Vigilance Committee of the city immediately took prompt and effectual measures to put them in a place of safety, and they are now beyond the reach of their pursuers.

So it seems there is a vigilance Committee in Boston, whose business it is to nullify the Fugitive Slave Law and rob Southern citizens of their property. We do not know whether the actors in these scenes belong to the lovers of our "glorious Union," er to that class who desire a disolution. From their manner of doing things we suppose they adhere to the latter.

DEBATE IN THE SENATE.

The following is the closing matter of the debate on the President's message, in the Senate, on the 22d December :

Mr. Lindley. I do not belong to any particular party. I have been looking for some time for a chance to join the democratic party. That party now presents a double aspect-one portion believes in one construction of the Kansas-Nubraska bill and the other in another construction The gentleman from South Carolina admits this, and tells the opposition to make the most of it. I await further explanations before I take my posi-

Mr. Davidson. Mr. Speaker, I have to say, in answer to the gentleman, he had better remain in the party of his friends, Mr. Fillmore and the gentleman from Kentucky ; the doors of the democratic party are closed to such as the gentleman from Missouri ; the gentleman from South Carolina can take care of himself. The House has kindly indulged me in listening to my views of the subject under consideration : and, as I see my pared to do justice to all parties, and desired to time has expired, I will conclude with a reference to the gentleman from Kentucky, [Mr. H. Marssee no charter granted but such as would secure La finde a democratic Pro dicates the constitution, and, in so doing, does justice to every section of this vast country indiscriminately. He finds a democratic party, with constitution may be grounded, and every right of every portion sustained, in lieu of sectionalism and every other "ism," upon principles originally laid at the foundation of our governmentprinciples reasserted and argued in the most faithful and eloquent manner by our candidate. and by every true-faith democrat in the free States. Yet, sir, because the democratic party has succeeded in the late fierce contest, in which we fought as patriots, and our opponents fought as fiends ; because they succeeded in giving permanency to this Union, the defence and preserv ation of which has been committed to their hauds since the accession of Mr. Jefferson to the presidency in 1801 : you find the gentleman from Ken-Fear tucky, who voted for the admission of California. with her mob-law constitution-who voted for, or approved of, the Utah and Mexico territorial bills signed by his candidate for the presidency-who voted for that candidate with his Brie letter affirming that Congress has the power under the constitution to legislate upon slavery in the Ter ritories, to abolish slavery in the District of Co lumbia, and the slave trade among the soveroign States-who, pledged to vote against the admission of any other slave States, is acting in this House with the gentleman from New-York, [Mr Haven,] and the gentleman from Indiana, [Mr Dunn,] each of whom has declared for the power of Congress to legislate upon the subject of slavcry in the Territories, who has advocated, and, for aught I know, is still advocating, Mr. Fillmore for the presidency-Mr. Fillmore, who, notwithstanding his Erie letter, and the compromise measures, has been false to both parties, opposing the democratic party in the past or the present, who, after joining the know nothing party, which charged corruption on the old whig party, that had endorsed him into the presidential station, flattered the f-reigners on the stump, begging them, whom he was swern to proscribe, to vote for him fcr the presidency-who declared, in one of those stump speeches, that the restoration of the doctrine of popular sovereignty, by the repeal of the Missouri restriction, was the Pandora's box, out of which all the evils of the slave agitation had sprung;-this gentleman, I say, with all these bars of inconsistency about him-inconsistency from his apostacy from time-honored principles which, I am free to confess, he onee maintained with honor to himself-inconsistency in grafted upon him by his adoption of other principles with which he has lately inoculated himself comes into House and attacks the democratic President and the democratic party for vindicating the very principles which he once could clear ly see through, until the smcky light of the dark lanterns clouded his better vision, and misled him into strange pathways. The gent eman, sir, reminds me a good deal o the story of the negro and the priest. I mean no offence to the gentleman. This negro was fond of question being then on the ameniment-"that his neighbor's pigs, and turkeys, and geese. The priest told him that if he took any more without paying for them he would send him to the devil. ne time afterwards the negro went to the priest the confession : the priest asked him, "Have you lakes any more geese ?" "No, massa." you taken any more pigs ?" "No." "Have you taken any more turkeys or geese ?" "No." "Well. you can go, and I will make the matter all right As he was going away he congratulated for you." himself to his brother Sam as follows : "He didn't ask me duck ary time, or I would have been sent right to the devil." [Great laughter.] Now, sir, the probations of confession are searching things, I am told, and I would advise democrats never to say squatter sovereignty! in the hearing of the hearing be gentleman from Kentucky.

From Our Raleigh Correspondent. NORTH CAROLINA LEGISLATURE. SENATE.

MONDAY, Jan'y 5, 1857. The business of this morning was commenced by Mr. Mills presenting a memorial from the citizens of Rutherford and adjoining counties, which was referred.

The bill to prevent the felling of timber in Fishing and Eno rivers was amended by adding Sugar creek and its four principal branches, and passed its third reading.

The bill to amend the charter of the Cheoe Turppike Company, and The hill to amend the charter of the Bank of

Wilmington, was also read the third time and passed. Mr. W. R. Myers introduced a bill prohibiting

the Clerks of county courts from affixing the county seal to the free papers of free persons of

A number of engrossed bills from the House were read the first time and referred to appropriate committees.

Mr. Myers introduced a bill concerning evidence in cases of assault and battery.

Mr. Battle moved to amend the bill to improve certain rivers in Sampson county (now on its second reading) by appropriating \$20,000 to the improvement of certain creeks in the county of

Nash, which resulted in the defeat of the billyeas 13, nays 29.

A message from the House proposing to adjourn sine die on the 26th inst., led to considerable debate, and was finally concurred in-yeas 27, navs 18.

The bill to re-charter the Bank of the State being the order of the day, the question was the amendment proposed by the Committee on Banks and Currency.

Mr. Thomas, of Jackson, considered the question to be, shall the Legislature recede from its position-shall it acknowledge its inferiority to the bank ? It was a question, too, between the people and moneyed power. He had notice last session for the re-charter of this bank and of the

Bank of Cape Fear- [the Speaker here reminded Mr. T. that it was out of order to discuss the merits of the bill pending the amendment.] Mr. Hill, of Caswell, moved to amend the pro-

posed amendment, by striking out the clause restricting the power of the State to tax its (the Bank's) dividends.

Mr. Cherry was opposed to the motion of Mr. Hill. He considered the amendment of the committee a a compromise. The tax of 75 cents per share was quite sufficient. His constituents wanted a re-charter of this bank, and he was sure that the Stocaholders would accept the charter as it came from the committee.

Mr. Thomas again got the floor, and proceeded to discuss (by-permission of the Senate) the amendment, the bill, and the banking system generally ; in the course of which he severely reflected upon the course of the Bank in refusing the charter offered two years ago, and then gave way to hear from his friend from Wake.

Mr. Wilder repelled the charge of dictating to the Legislature the terms upon which a charter wou'd be accepted by the Bank. The Bank had not asked for this charter. He was responsible ned. for it-he had presented it without consulting the stockholders. His position was an impartial one-he was not a stockholder, and never bor-

Half-past one being accepted as an amendment, he resolution passed-yeas 97, nays 10. Mr. Gilliam presented a substitute for his bill concerning Clerks and Masters in Equity. [Provides that as these offices become vacant, the du-

Superior Courts.] On motion of Mr. Outlaw, the rules were suspended, and a resolution adopted prohibiting de-

bate on the question of the meeting or adjournment of the House. A message was sent to the Senate proposing to

adjourn sine die on the 26th inst. A bill to diminish costs in suits at law, passed

its second reading. [It also provides that the Plaintiff and Defendant may testify in open Court.] The bill was supported at great length by Messrs. Stubbs, Dargan, Caldwell and Wridgens; and opposed by Messrs. J. M. Leach and Badham.

The bill passed its second reading-yeas 55, nays A bill concerning the Dower of Widows, and

a bill to divide Chatham County, were rejected. A bill to repeal the 6th sec., 36th chap. Revised Code, making it penal to pass one and two

dollar notes, passed its second reading. The House then proceeded to the consideration of some nonsense, as to the propriety of removing the Capitol to some place where the moon

shone, and then adjourned till the usual hour tomorrow morning. TUBSDAY, Jan. 6th.

A message was sent to the Senate, proposing to go into an election of five Trustees for the University at half-past eleven o'clock. Mr. Baxter, from the Select Committee, reported back bill to charter the People's Bank, with amendments and a proposition to print, concurred \$10.

Mr. White introduced a resolution concerning the Commissioners of Revenue. The following bills, &c., were introduced and

eferred : Mr. McIntosh, a resolution authorizing the loan f a sum not exceeding \$5,000 to the United Bap-

tist Institute, Fayetteville. Mr. Jenkins, a bill to more effectually prevent the Killing of Stock, &c., on Railroads. Mr. Reeves, a bill to amend the 3d sec., 69th chap. Revised Code.

Mr. Thompson, a bill for the completion of the Atlantic and N. C. Railroad.

Mr. Clarke, a bill concerning County Courts granting Licences for the sale of Spirituous Li-

HORSE SHORS.

Horse shoes without nails are one of the most useful inventions of the day. The inventor makes the whole in two pieces, employing, in addition. two small screws to aid in screwing the parts together. Both are made of malleable iron-the lower portion, or sole, being very similar to the horse shoe ordinarily employed, but with a grove around its exterior, and without nail holes. The upper portion, or vamp, is thin, and has a flange projecting inward from its lower edge to match the grove in the sole. These parts are so arranged as to secure a tight and firm connexion, and the whole is made additionally secure by the aid of the set of screws at the heel. One practical advantage to be derived from this style of shoes is the facility with which they may at any time be removed or exchanged.

MISSOURI.

The last message of Gov. Price was presented te the Legislature on the 26th of December. The Governor commences by congratulating the members on the high degree of prosperity with which the people have been blessed. From the tone of this message and other facts developed in the current news of the day, it is reasonable to conclude that the State of Missouri is increasing rapidly in population and in all the elements of presperity and wealth.

TERRIBLE SNOW STORM.

The terrible mow storm which visited this portion of the State, a little more than a week since, visited with redoubled fury Fort Des Moines. It commenced on Monday and lasted until Wednesday. Such was it violence that persons were lost and almost perished in the snow drifts in passing from one portion of the city to another. Men dared not venture out, such was the terror inspired by the storm .- Iowa City Republican.

POINT OF ROCKS, Frederick County, Md. Dn. SWAYNE.—Dear Sir:—Believing it a duty 1 owe to the public, and in justice to you. I have thought proper to make known one of the most extraordinary cures, in my own case, that has ever been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my Lungs and very much afflict- ed them, and discharged large quantities of corrup- tion, external and internal. My breath could also pass through my Lungs and out through the cav- ity of my breast with apparent ease, attended with a violent cough, day and night, loss of appetite, and extreme debility, so that my physicians thought my case entirely hopeless and beyond the power of medicine. I remained in this wretched condition for a long time, until I was wasted to a mere skeleton, and there seemed to be no hope for me; but having read in the public papers of the many wonderful cures performed by your COM- POUND SYRUP OF WILD CHERRY. I im- mediately sent to Baltimore for five bottles and commenced its use, and to my great satisfaction and my anxious family, the abscess or opening in my lungs began to heal, and the cough subsided and on using ten bottles I was restored to perfect health. I believe, that to your valuable medicine, under the blessings of Divine Providence, I am indebted for this great change, and I am happy to say, that I am now enjoying as good health as I ever have. Point of Rocks, Frederick County, Md. Da. SwaykeDear Sir:-Believing it a dutyl owe to the public, and in justice to you. I have thought proper to make known one of the most extraordinary cures, in my own case, that has ever been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my Lungs and very much afflict- ed them, and discharged large quantities of corrup- tion, external and internal. My breath could also pass through my Lungs and out through the cav- ity of my breast with apparent ease, attended with a violent cough, day and night, loss of appetite, and extreme debility, so that my physicians thought my case entirely hopeless and beyond the power of medicine. I remained in this wretched condition for a long time, until I was wasted to a mere skeleton, and there seemed to be no hope for me; but having read in the public papers of the many wonderful cures performed by your COM- POUND SYRUP OF WILD CHERRY, I im- mediately sent to Baltimore for five botiles and commenced its use, and to my great satisfaction and my anxious family, the abscess or opening in my lungs began ito heal, and the cough subsided and on using ten bottles I was restored to perfect health. I believe, that to your valuable medicine, I am indebted for this great change, and I am happy to say, that I am now enjoying as good health as I ever have. Diver five years have elapsed, and I still remain a perfectly hearty man at this date, June 2d, 1856. I have not had a day's sickness for the last 18 months. I remained in this wretched condition for a long time, until I was wasted to a mere skeleton, and there seemed to be no hope for me; but having read in the public papers of the many wonderful cures performed by your COM- POUND SYRUP OF WILD CHERRY, I im- mediately sent to Baltimore for five bottles and commenced its use, and to my great satisfaction and my anxious family, the abscess or opening in my lungs began to heal, and the cough subsided and on using the bottles I was restored to perfect health. I believe, that to your valuable medicine, J under the blessings of Divine Providence, I am indebted for this great change, and I atill remain a perfectly hearty man at this date, June 2d, 1856.
