THE BURDELL MURDER. This case has attracted universal attention for some time past. The grand jury have made the

The two Misses Conningham were then placed in charge of the coroner, and a subscription taken up for the benefit of the family of Farrell, who is detained as a witness, after which the jury was discharged. The coroner immediately turned over the possession of the house and its effects to the public administrator, who had been proviously authorized by the Surrogate to seize and hold the estate and effects, personal and real, of Dr. Burdell. The public administrator has a force of the province the mercury often sinks to 40 degrees below zero, separated from all that is dear to me on earth. The following communication appears in the Charleston Mercury of Thursday last, with appro-batory remarks. It is from a writer in Fayetteville. We insert it that our readers may be advised of the different projects on foot and proposed to be accomplished.

LOWER SECTION OF THE CITY. A night or two since, a daring and murderous outrage was committed upon the person of Mr. John Henry, residing in Plover street, between Seventh and Eighth, and Washington and Federal strects. The facts as related to us, are follows: Mr. H. had called at the house of his attending physician; after this he passed down Eighth st., and when near Catharine, he was accosted by two men, one of whom struck him beneath the ear. The other fellow then came on the other side and struck him a blow in the face, which caused the blood to flow freely, and staggered him so that he fell into the street. The rascals then deliberately searched the pockets of Mr. Henry, and took from one of them a pocket book containing eight dollars. This occurred sbortly after eleven o'clok.

The two highwaymen then lifted Mr. Henry up, and supporting him on either side, they led him to his residence some six squares distance. Mrs. Henry supposing there was no one besides her husband at the door, promptly opened it, when she was horrified at seeing her husband covered with blood and mud. She had not long, however, to indulge in any surmises, for the highwaymen entered the room, and demanded of her if there were any pistols in the house. She informed them there was not. They then drew knives and walked deliberately to a bureau, which stands in the front parlor, the drawers of which they opened, and took therefrom a piece of fine cloth, two gold chains, one valued at eighteen, and the other at fifteen dollars, two pair of ear rings, a set of silver spoons, \$20 in money, two shirts, and a fine coat. The villains, after securing the above described plunder, turned to Mrs. Henry, who stood in the room, with a babe in her arms, and demandupon as but a harbinger of new pleasures and ed two rings from her finger. She refused to give them up, when one of them took his knife, swearing he would cut her finger off if she did not comply with his request. The poor woman then took off the rings and handed them to the scounwhich they had been nominated by the dominant drel. At about half-past twelve o'clock, a gentle- Ex'rs v. DR. KANE .- A despatch was received in the city yesterday by H. Grinnell, Esq., conveying the sad ntelligence that our distinguished countryman Dr. Kane has probably departed this life. The despatch comes via Mobile, having been received there, as is supposed, by the steamship Quaker City. It is as follows:

" HAVANA, Feb. 13th, '57. "Dr. Kane is still alive, but can't last through the day. His mind keeps right. He has just left his friends and bid his countrymen farewell.

Mr. Morton has been Dr. Kane's faithful serv ant and steward for the last seven years, and accompanied him twice to the Arctic regions.

Dr. Kane is thirty-four years of age. His disease is of a scrofulous nature, arising from scurvy and exposure during his northern explorations. Friends in this city are led to entertain some hope that Dr. K. may survive, from the circumstance that he has four times been in the same critical endition,-once in Egypt from an attack of plague; once in Africa, prostrated by the African fever; once in the Mediterranean, with lock-jaw, and he was dangerously wounded in the Mexican war, while carrying despatches for Gen. Scott, between Vera Cruz and Mexico.

PROFANITY.

Profanity in a child is a terrible thing. We enountered a lad some six or eight years old on the street the other day, who was sw aring terribly at companion; no one in "the army in Flanders" ever indulged in fouler profanity than this mere child. Where he had learned so to profane the name of the Diety we know not; but if he had parents-a mother who loves him and a father who cherishes great hopes for his future -we pity them. Their boy can never be anything else than curse and a shame so long as his lips utter blasohemies. The swearer, however proud or elegant he may be-however elevated his social position has nothing of the true gentleman in his nature, and the halo of Divinity will never conserate his achievements.

Let no boy indulge in profanity, in the hope to equire an appearance of manliness -- for the good and the true will regard him as a blot on God's beautiful earth, and will shun him as a pestilence. Wherever he may walk, the flowers will wither under his tread, and his memory will be in the hearts of men a bitter thing forever -Ex.

After a warm sermon, an invitation was given to seekers of religion to approach the altar of prayer. ANOTHER REMARKABLE CURI DR. SWAYNE'S COMPOUND SYRUP OF

REV. JAMES R. DURBOROW. Pastor of Berlin Circuit, Baltimore Conference And all the principal Merchants at Point of Rocks Md., have testified to the following

EXTRAORDINARY CURE. POINT OF ROCKS, Frederick County, Md. Dr. SWAYNE. - Dear Sir: - Believing it a duty

owe to the public, and in justice to you I have thought proper to make known one of the mor extinordinary cures, in my own case, that has eve been truly recorded. In the month of October last I was afflicted with a severe gathering in m breast, which formed a large abscess, and als communicated to my Lungs and very much afflic ed them, and discharged large quantities of corrup tion, external and internal. My breath could also pass through my Lungs and out through the cay ity of my breast with apparent case, attended with a violent cough, day and night, loss of appetite and extreme debility, so that my physicians thought my case entirely hopcless and beyond the power of medicine. I remained in this wretched condition for a long time, until I was wasted to mere skeleton, and there seemed to be no hope to me, but having read in the public papers of th many wonderful cures performed by your COM POUND SYRUP OF WILD CHERRY, I in mediately sent to Bultimore for five bottles an commenced its use, and to my great satisfaction my lungs began to heal, and the cough subside and on using ten bottles I was restored to perfec health. I believe, that to your valuable medicine under the blessings of Divine Providence, I an indebted for this great change, and I am happy t say, that I am now enjoying as good health as Over five years have elapsed, and I still remain a perfectly hearty man at this date, June 2d, 1856 I have not had a day's sickness for the last !
