CONGRESS-YESTERDAY. WASHINGTON, Feb. 25, 1857. In the SENATE a protracted and animated discussion arose upon a motion of Mr. Hale to reconsider the vote by which the act was lately passed to enable the people of Minnesota Territory to form a Constitution and State Government. The object of this reconsideration was stated to be to remove from the bill the amendment lately attached to it by the Senate, on motion of Mr. Biggs, restricting the right of suffrage in said Territory to enizers of the United important reforms have been made under States, either native or naturalized. He has many friends in Penn-Constituti n. Those who advocated the sylvania. motion to reconsider argued against the amendment of Mr. Biggs on the general ground that Congress had heretofore conceded to others than citizens of the United States the privilege of voting in the Territories, and also for the special reason that in the case of Minnesota this right had already been granted to its inhabitants by that suffrage should ever remain an incident of citizenship, and that there was Constitution to enact a "uniform rule" for of the individual outside. naturalization, and yet in contempt of its own legislation should proceed to vest in other than citizens one of the most important attributes of citizenship. SECRETARY DOBBIN.

The generous conduct of this gentleman owards the veteran Commodore Stewart, f our navy-yard, says the Pennsylvanian, has deeply endeared him not only to the friends of the Commodore but to all classes of society in Philadelphia.

There is, perhaps no one of the retiring cabinet that leaves his high office with as many friends and as few enemies as Mr. Dobbin, and will carry with him into his retirement the sincere love of so many thousands of our countrymen in every section of our Union.

Although in feeble health, no person could have exceeded him in his indefatigable discharge of the laborious functions of his responsible department. Under his administration our flag has been seen in every sea, and our commerce has been protected on every shore. Under his vigilant eye merit has been promoted in the service, and impression of regard and respect. We hope that his health will be invigorated by repose from the cares of office and the heathful breezes of his native climate, and that a long career of future usefulness yet
