THE MORMONS.

We published a short time ago an account of an affecting the lawful power of the General Gov annent, whether this and other acts of rebellion are to go unpunished, and this Union to be dishonored by the reckless conduct of persons politically corrupt and grossly immoral. We agree with the New York Herald, which says: "These Mormons have, we think, reached the term of our patience; it is time they were brought to their senses. It is time it was decided whether they are an independent community or really a Territory of the United States. For years they have been exciting the feelings of the American people; it is now high time that some settlement were had with them, and that the pending issues between us were adjusted on some permanent

We admit that the question relative to the soclal habits of the Mormons, and whether they can be constitutionally excluded from the Union on that account, is a difficult one. The shocking garb; and monstrous as the absurdity is, we doubt if Congress can exercise authority over it. That body, we suppose, cannot decide what is or is not religion -not even having authority to judge such matters by "their fruits."

But there can be no question as to the power and authority of the Executive and of Congress, in view of these overt acts of treason, to crush the rebellion by the military power of the Nation.

The enormous volume of Free State immigration which has steadily poured into that unacknowledged State for the last month, comvery considerable influx from the Slave Staces, has impressed the entire Border-Ruffian array with the conviction that they must provoke a fresh 5th Infantry, who were in advance reconnoiterback the Free-State emigration on its way up the Missouri. Hence the anxiety of the entire Pro-Slavery party in Kansas to get rid of Gov. Geary, and the rejoleing at Lecompton when they spied out the fact that he had at length been driven to

If things go on so swimmingly with the "enormous volume of Free State immigration," it is difficult to conceive why there should be any fuss about the matter among the black republicans.-Surely, if the "free State" people are to have so great a preponderance in Kansas, they can do as stand there. Great excitement here, sending they please in its affairs, and reject the institution of slavery by constitutional means.

It is said that he was "spending his money like water, nexed, may be worthy of serious consideration: to uphold the semblance of a government in Kansas," while his drafts on the U. S. She came from a portion of the Union, heatile to our secthe destruction of the papers belonging to the tion and institutions—openly advocated doctrines totally repugnant to the Southern mind and feelings and her unwomanly mode of acting, worthy of the most abandoned of her sex, showed herself no unfit instrument for the accomplishment of any nefarious scheme entrusted to ber. In conclusion the Committee. in a respectful manner, seked that she would allow them to search her baggage, remarking that she were really guilty, the community ought be know it; but, if on the other hand, she were innocent, it was important that her innocence should be made apparent.

Upon ber-hesitating, and nrging the great amount of trouble, she would be expessed to in overhauling all of her baggage, the Committee offered to recompense her for the inconvenience she was put to, Provided, upon a thorough search, the suspicions and charges alleged against her should appear entirely without foundation.

Finding there was no way in which she could avoid an investigation, she at length, consented to a search. Accordingly the Committee followed her to her Hotel, where, upon an examination of her effects, they found matter which fully corroborated their worst suspicions. > THE RICHEST COMMUNITY IN THE WORLD. La ! the Poor Indian ! - A day or two since, says the Washington Star of the 19th, we had occasion to mention that the result of the late sale of the Delaware (Indians) trust lands was \$470,000. The lands sold were only those comprised in the Eastern division of this great reservation. The Western division is now advertised to be sold-That contains some 350,000 acres, and will undoubtedly bring an aggregate of at least 5600,000. ACQUITTAL OF DODRIDGE C. LEE !- IN-TENSE FEELING AT THE VERDICT! WASHINGTON, March 29 .- The case of Doddridge C. Lee, charged with killing David Hume, given to the Jury at half-past five yesterday af-

At a late hour last evening, the jury not being able to agree upon a verdict, the Court adjourned, and resumed its session this (Sunday!) morning, at 101 o'clock.

The Jury came dewn for instructions as soon as the Court opened. The Judge said, that on yesterday he refused the prayers of the Counsel for Prosecution on the ground, that no evidence whatever was adduced, showing that Lee designed to provoke Hume to strike him.

In reply to the inquiry of a Juror, the Judge said the case should rest on the point-whether Lee could have retreated farther before shooting, or whether he had reason to apprehend personal bodily injury from the force and rapidity of the blows by Hume. He said Hume went to Lee's place of business. Lee said nothing except to reply to questions propounded by Hume. These were the reasons why he granted the prayers of counsel for defence.

The Jury then retired, and re-appeared in about thirty minutes afterwards, with a verdict of "Not Guilty!" Lee was immediately discharged from custody, and the Court adjourned until to-mor-

SHOOTING AFFRAY IN RALEIGH An affray occurred in Davis street, Raleigh, on Phursday afternoon, between a man named Champion, from Granville county, and a tallor, named P. W. Royster. Champion knocked Royster down, (the letter being very much intoxicated.) and commenced kicking and beating him very severely. A youth named Wm. Putney, witnessing the affray, immediately espoused the cause of Royster, and seizing a double barreled gun, discharged both loads at Champion. The shot took effect in C.'s side, ranging from his ankle to his shoulder, and producing several wounds of so severe a character, that the unfortunate man's life is despaired of. Putney fled the city and had not been arrested at last accounts.

It ap-pears that she had sent five dollars to Swann & Co., of Atlanta, Ga., for a half ticket in one of their Lotteries which draws every Saturday

throughout the year. A prize of considerable mag.itude was the consequence of her little speculation, and her admirers having discovered that she had drawn so much money, hastened to the little village to pay their addresses, supposing the young lady would not be aware of her good fortune. She had as many adorers as the lady in the farce of the "Lottery Ticket," but she did not lose her heart so spddenly as she won a fortune. A telegraphic despatch from Swan & Co. arrived in time to foil the wily aspirants for her hand and heart.

Holloway's Pills .- The case of Mr. C. W. Dimen of Seneca Creek, Md., affords a remarkable evidence of the efficacy of these pills in bilious disorders. Mr. Dimon resides at the mouth of the creek, near the Little Falls of the Potomac, in the midst of a district so unhealthy, that in the months of August, September, and October, half the population are sick of bilious remittent fever. In October last, Mr. D. was pronounced by the physician who attended his family, to be at "death's door." Calomel and quinine, the "hobbles" of the faculty in that region, had been administered in vain. As a dernier resort, at the instance of a friend, he determined to try Holloway's Pills. In three days the cold paroxysms ed, in a week he was about the house, and in one month able to attend to business.

EXTRAORDINARY CURE.

POINT OF ROCKS, Frederick County, Md. Da. SWAYBE. - Dear Sir :- Believing it a duty I owe to the public, and in justice to you. I have thought proper to make known one of the most extraordinary cures, in my own case, that has ever been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my Lungs and very much afflicted them, and discharged large quantities of corruption, external and internal. My breath could also pass through my Lungs and out through the cavity of my breast with apparent case, attended with a violent cough, day and night, loss of appetite, and extreme debility, so that my physicians thought my case entirely hopcless and beyond the power of medicine. I remained in this wretehed condition for a long time, until I was wasted to a rican slavery in the United States. Indeed, so strongly was she impressed with the misery of white slavery, that she clung to her master and returned with him home, to endure the misery of commenced its use, and to my great satisfaction mediately sent to Baltimore for five bottles and returned with him home, to endure the misery of commenced its use, and to my great satisfaction. and my anxious family, the abscess or opening in my lungs began to heal, and the cough subsided and on using ten bottles I was restored to perfect health. I believe, that to your valuable medicine, under the blessings of Divine Providence, I am

indebted for this great change, and I am happy to say, that I am now enjoying as good health as I Over five years have clapsed, and I still remain perfectly hearty man at this date, June 2d, 1856.
