COTTON We learn that the receipts of Cotton in this comes to market at present.

THE FIRES. The fires in Brunswick and Bladen have done much damage. Individuals have suffered severely in the loss of turpentine trees, fences, &c. We presume the rain of Wednesday night has put a stop to the fires.

RAIL ROAD COMPANIES. There are still complaints made concerning the transportation of goods from this place to the rest and other parts of the State. There are exantions and reports published in the papers, at we see no good that can be derived from harging blame to this or that quarter. We believe the parties having the matter in charge will attend to it, and that the evil will be removed.

THE JOURNAL'S HOAX. We did not inicad to alludo in public to the honx, or."April-Fool" the Journal porpetrated in on to the news said to bave been received from Greytown; by a vess i which put into the Cape Pear in distress ; but as the Journal of yes. terday mentions the subject, and appears to feel exuitant at the success of the "joke" in regard to its "colemporaries," we are bound to notice it .-We copied the statement without thinking for the moment that a sailing vessel could not have brought news so late as the steamer. If we are an "April fool" in this matter, a man is such who takes the statements of the Journal, as facts, supposing them to be such from the character of at paper. If the Journal is ambitious of attaining a different position, on All Pools day or any other day, we will be compelled to watch him more closely hereafter-that's all.

THE WEATHER,

After some days of mild weather we have had remarkable change for the season. Snow and out on Thursday, and ground frozen at night, the morning presenting quite a wintry aspect .--sphere on our going to press, this morning counts us with ice again.

It was a complaint made by politicians against heir opposents, that there had been "tinkering with the currency." If such a thing were possible, we should suppose that those who set up scientific pretensions about getting up storms, rain, &c., had been tinkering with the weather for the past month or so. The past season illustrates the fact, that all this talk of philosophy about the operations of nature, is humbug and foolery .--We wish this kind of philosophy would confine itself to its legitimate sphere of action, such as that sort, and not be ever pretending to foreshadow thuidoings of that Power- shull a foot

GOV. WALKER-KANSAS.

High expectations are entertained of the abili ty and integrity with which Gov. WALKER will administer the affairs of Kansas. There will be no complication in the matter. The path is made plain before him. A correspondent of the Baltimore Sun, in a letter dated Washington March 31, says : "The instructions to Governor Walker are foll, clear and explicit, and in them are quoted the exact words of Mr. Buchanan's inaugural, namely: "It is the indispensable duty of government to secure to every resident inhabitant the free and independent expression of his opinion by his vote." In this the cabinet cordially concur. They, and those who will shortly administer the affairs of Kansas, believe that there is nothing to prevent such a result in the adoption of a State constitution, as the legislative

assembly at their last session repealed a portion of the election law which required a challenged voter to take an oath to support the fugitive slave law, Gentlemen who have made persona festerday was cold, and from the feeling of the inquiry relative to this subject have been assured that the administration, through Gov. VICTIM. The community was shocked this morning by the intelligence of the sudden death of Eskridge Lane, nephew of the late John N. Lane, and one of the firm of Lane Brothers, extensive dry goods dealers of this city, about nine o'clock this morning. The immediate cause of Mr. Lane's death was Gastritis, or inflamation of the stomach, tend-

ing to gangrene, but he has been indisposed ever since the inauguration of President Buchanan; having been one of the guests at the National Hotel. Though he was not confined in his room, he had been suffering slightly with the symptoms which have marked all the cases of disease contracted at the National. From all the symptoms of the case, in connection with other facts, we

have no doubt that the disease which led to Mr. Lane's death had its origin in the "National epi demic," and that it was the effect of the poison. Lancaster Ev. Express. FROM TEXAS.

INCREASE OF CRIME.

We noticed a few days ago, the subject of the caption to this article, in connexion with some remarks of a Boston paper. Our exchanges are still replete with cases of "stabbing," " horrible murders," &c., so that we might entirely occupy our columns with the details of human deprayity. We have more than once expressed the opinion that moral diseases in communities partake of the nature of physical diseases, by raging, at times, with excessive violence. We have observed that crime partakes of the pature of an epidemic, and particular classes of them seem to have their hour of mischief throughout the whole country, at certain periods. Sometimes it is forgery and breach of trust, public and private default ; at others duelling, murder and all kinds the violation of the ties and orders that promote connubial happiness. The present seems to be era of blood. Almost everywhore there are Yound cases of deplorable atrocity.

THE RIGHT OF SECESSION.

non ""

Cur friends of the Ckarleston Courier accuse us of "misapprehension and curious inconsistency" in regard to the "Right of Secession" and the nuderstanding of the South Carolina Ordinance of 1852. If that Ordinance asserts the right to secede without cause and in the mere assertion of the sovereign will, we confess we have miss pprehended it. EXTRAORDINARY CURE

POINT OF ROCKS, Frederick County, Md. Dn. SWAYNE.-Dear Sir :- Believing it a duty I we to the public, and in justice to you, I have thought proper to make known one of the most extraordinary cures, in my own case, that has ever been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my Lange and very much offlicted them, and discharged large quantities of correp-tion, external and internal. My breath could also pass through my Lungs and out through the cav-ity of my breast with apparent case, attended with a violent cough, day and night, loss of appetite, and extreme debility, so that my physicians, thought my case entirely hopcless and beyond the power of medicine. I remained in this wretched condition for a long time, until I was wasted to a mere skeleton, and there seemed to be no hope for me; but having read in the public papers of the many wonderful curves performed by your COM -POUND SYRUP OF WILD CHERRY, 1 imnediately sent to Baltimore for five bottles and menced its use, and to my great satisfaction and my anxious family, the abscess or opening in my lungs began to heal, and the cough subsided and on using ten bottles I was restored to perfect health. I believe, that to your valuable medicine, under the ble-sings of Divine Providence. I am indebted for this great change, and I am happy to that I am now enjoying as good health as I say, ver have.

Over five years have clapsed, and I still remain perfectly hearty man at this date, June 2d, 1856. have not had a day's siekness for the last 18 nonths. Please accept my grateful acknowledge Yours, very respectfully, nents.
