The same correspondent, under date of the 17th inst. says: " An alleged conspiracy to procure the release from Sing Sing of Charles B. PROGRESS OF THE AGE.

The late elections in England distinctly mark the progress of the present age in the recognition | lication. of the rights of THE PROPLE. Time was when the Aristocracy of that country felt themselves too elevated in the social scale to ask political or other favors from the "common people." When a "nobleman" was a being that would not come in contact with the "vulgar herd," as the stamina of a nation was then called. The last half century has given rise to a slow but finally a wonderful change in Great Britain. "The voice of the People," is now heard and heeded. Men who seek position in these days must ask for the approbation of the People. Even the Premier steps down on the Platform and asks them for their "volces" their "sweet voices." These are the fruits of the glorious example of the United

"So far as the free, untrammelled consent and expressed wishes of the governed are concerned should the majority of the citizens in a Territory choose to waive their constutional rights and the Treasurer was referred to Robert E. But when said majority, even to the extent of an entire community, are known to most persistently prefer officers of their own election to those foisted upon them by arbitrary power, and purely republican laws of their own enactment to laws carved, dictated, and forced upon them by a power to which the Constitution gives no such authority, we are constrained to say that most truly are men prone to oppress their fel'ows pany with Dungan, Cartwright & Co., of Phila- How long, think ye, can such oppression be quietdelphia, for the completion of the works, was ly endured ? EXTRAORDINARY CURE

POINT OF ROCKS, Frederick County, Md. Da. Swayne. - Dear Sir: - Believing it a duty I owe to the public, and in justice to you I have been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my Lungs and very much afflicted them, and discharged large quantities of corrup-tion, external and internal. My breath could also pass through my Lungs and out through the cavty of my breast with apparent case, attended with a violent cough, day and night, loss of appetite, and extreme debility, so that my physicians thought my case entirely hopeless and beyond the power of medicine. I remained in this wretched condition for a long time, until I was wasted to a mere skeleton, and there seemed to be no hope for me; but having read in the public papers of the many wonderful cures perfected by your COM-POUND SYRTP OF WILD CHERRY, I immediately sent to Baltimore for five bottles and commenced its use, and to my great satisfaction and my anxious family, the abscess or opening in my lungs began to heal, and the cough subsided and on using ten bottles I was restored to perfect health.
