ADDRESSES.

We see it announced that the Rev. Dr. DEEMS, of Wilmington, is to deliver the Annual Address. and the Rev. Tuos. G. Lows, of Halifax, the Annual Sermon before the Goldsboro' Female College at the commencement on the 27th and 28th of May.

WILMINGTON LIGHT INFANTRY. This fine company paraded yesterday under

the command of Capt. DaRosserr. We believe they leave for Fayetteville to-day; and will go from there to Raleigh. The only objection we have to this Company is that there is not enough of them.

THE MORMONS.

SMITH. They were driven from that State and subsequently from Illinois, on account of the murders and robberies they committed, and a total disregard of the laws of the land and the obup their doings as follows :

"There can be no question that these expulsions of the Mormons from Missouri and Illinoi were instified by their own conduct. They plandered and murdered the surrounding citizens, and could not be brought to justice in the ordinary manner, for their organization enabled them o defy the courts and the civil power. The miltherefore properly invoked to subdue them.The result, however, in both cases, was that hough Missouri and Illinois got rid of the Mornd the Mormons gained largely in numbers and in the sympathy of the world. They raised e cry of persecution, and made more converts this country within a year after their expulsion from Missouri, than in all their previous career. And from that day to this the recital of he persecutions in Missouri and Illinois forms a effective part of their appliances for stimu lating the zeal of the saints in Bogland and the other countries of Europe from which their pros-elytes are now chiefly d-awn."

In regard to their further operations, the New York News says:

We cannot do a worse thing with a difficulty tion of the anniversary of the revolutionary batthan to dodge it, and never was this practical fruth more pointedly illustrated than in the actual position of officers in Utah. When that Territury was organized the acting President of the United States, Mr. Fir. twone, was called upon to decide whether the authority of the Republic should be extended over its inhabitants as of right or by sufferance. He found the Mormons ddly claiming to be considered an independent his right to nominate a Governor for them, and professing to hold their lands not of the American Government, but of the Almighty. Instead f meeting these insolent assumptions and frustrating them forever, Mr. Fullmone evaded the issue by conferring the Executive appointment upon the fligh Priest of the seet, who condescended to accept it as a compromise solicited by the United states, and of slight importance to his

Both the papers above quoted are severe on the course pursued by Mr. FILLMORE. We do not coincide with them in charging the then President with a delinquency arising from incapacity or want of firmness. Neither Mr. FILLMORE, nor any other man, could have foreseen that a body of fanatics so horribly corrupt in social habits, and so outrageous in all their conduct, would have even made so important, not to say so fear- your kindness. ful a head as they do at the present hour.

But reference to Mr. FILLMORE or Mr. PIERCE's administration is nothing to the purpose in discussing the question as to what shall be now done in

It is stated that the Rev. Dr. Loyunop, of Boston, in his recent Fast-day sermon, is reported to have said that he could see nothing in the Constitution of the United States that authorized any interference with the Mormons on the ground of polygamy, which is regarded by them as a matter of conscientious religious faith.

Our readers will recollect that we some time

ago expressed our doubts if Congress could take cognizance of the "religious" faith of the Mormons, in regard to admission into the Union, or in relation to any act by Federal authority .-While we had no doubt of the right of the general Government to put down the rebellion, for such we consider it, by the military forces of the Union. On further reflection and from reading the remarks of our cotemporaries, we feel inclined to the belief expressed by the Editor of the Travsler, that the Courts will decide that no person has a right, under pretext of religious duty, to practice anything that the common sense and common consent of the civilized world pronounces immoral and detrimental to the welfare of the community. The Editor of the News strengthens this point by saying : "What then shall we do with these people? Det them alone, for our own honor, as well-as for the sake of their own lasting happiness, we cannot. The limits of religious toleration, though difficult of definition, are rtunately not absolutely undefinable. A man's sight to worship God according to the dictates of his own conscience must be guarded like all other rights, and therefore like all other rights it must many outrages upon the white settlers have rebe restricted in its exercise by a just consideration of moral and social consequences, as well as Blue Earth county. Forty settlers have been of the rights of others. No man can be permitted to worship God in such a way as to optrage prisoners. Great alarm is everywhere felt, as all have cut down the corn, section, vegetables, and the decencies of life or to oppress his neighbors." the ladians beyond the Minursota river are as-

ground will be required to put down the rebellion in Utah, by the Federal arm. The Morsons new claim to be a Nation, though within the jurisdiction of the United States. They say the United States have no right of government over the people of a territory, but only the land, while it is lying waste. We will not attempt to combat this sense. They claim the right of life and death over the members of their Charch, which embrace citizens of the United States, subject to the con trol and entitled to the protection of our laws .-BINGHAM YOUNG is, with them, the fountain of all political power. The records of the United States Court have been destroyed under his auspices. He assumes the coercive functions of the properly appointed Executive. By word and deed he has set the authority of the Federal Executive at deflance, and the staff of the judicial authority of the States is broken by him and his adherents. Declare the Territory of Utah under martial law and send a sufficient military force to distain the declaration. Against that force BINGHAM YOYNG WIll appear. Let him be taken in arms" and hung at once. The sight of their Prophet, Vicegerent, or whatever else the Mormons suppose him to be, hanging on the gallows, will do more to dispel the awful delusion that exists among them, than anything that can be imagined. All the principal leaders, taken in the ranks of rebellion should be served the same way. This course will settle the matter in the best way it can be done. The most dangerous and disastrous weakness a Sovereignty ever committed since the world was formed, is to temporise and parley with rebellion.

The remedy we propose is a fearful one, we admit. But while it is one of justice and necessity for the guilty, it is one of humanity for the innocent. We agree with our cetemporaries, that whatever is done should be done at once. Every hour of delay approximates a peril, the consequences of which no human mind can fathom.

Privilege of correspondence was accorded him in the arrangement, but it is understood that she has not heard from him since their separation. Some friend probably has advised him not to write dutil he shall be able to send a letter which will not be likely to disgust her educated sensibilities by its literary inelegance. It is due to the lady to say that she is neither unamiable nor, usually. obsfinate; and her extraordinary firmness in this marriage affair is only to be accounted for by some strange influence over her possessed by Dean. She is well educated-sensible, peither giddy nor romantic, and well knows the difference between refinement and sulgarity. It will not be surprising if. before she has passed the allotted year away from Dean's influence, she shall think of him with as much regugnance as she has heretofore exhibited of obstimute self will.

New York April 25, 1857. Yester'sy afternoon the schooner Marcha was taken into custody with her crew, by our new Marshal, Islah Rynders, it appears that about a week ugo this energet'e officer got an inkling that a little schooner was fitting out cat Pier No. 43 North River for the Coast of Africa and the slave trade. The vessel was a fast-s iling Baltimore-clipper-craft, and her oatensible destination was the Island of Corsica.

The Marshal and his brother kept watch da and night upon the vessel. One day this week the Marshal himself went down in the disguise of a visitor from the rural districts, and made some inquiries on board a ship lying along the side the suspected, craft. He was perfectly successful. The captain and mates of the ship amnsed themselves considerably at the expense of their fresh water friend, and gave him to understand that the little schooner beyond was a "black lird."

When the disguised Marabal innocently inquired what was a "black bird," he was informed that a black bird was a vessel that went to Africa to pick up niggers. The Marshal expressed his incredulity, when the communicative captain and mates related what they deemed to be pretty conclusive evidence as to the certainty of what-

they assuited was the character of the schooner. On the strength of this information warrants for the arrest of the scheoner were placed in the hands of two of the deputies, and the s'eamer Satellite was chartered to chase the suspicious

Yesterday morning the schooner was towed down the bay, followed by the Stellite, and the Marshal watched the chase down the Bay, Just below the Quarantine the schooner was left by the steamer which towed her down and another steamer came up and put on board a crew of Spaniards and Portugues. The schooner was then towed down to the Hook where she was overhauled by the Satellite, and Capt. Pannee of the Revenue Cutter at the Quarantine placed a guard on board, and sent her back to this city The steam-boat which had towed the schoone down was also arrested and searched, and four Spaniards found on board.

The schooner Merchant was in command of a certain Captain Jones, with a crew of ten men and was supplied with the lumber, water easks, rice, &c., which make up the equipment of a regular slaver.

Captain Rynders deserves the highest credit for his energy and skill in ferreting out and ef fecting this seizure. - Daily News. A SUSPENSION BRIDGE CRUSURD BY SNOW

The snow storm which commenced on Sunday last continued to fall at Rochester, New York for forty-six hours, doing great damage by its heavy weight. The roads in the vicinity are said to be fairly sfrewn by limbs of trees which were broken off. The suspension bridge which spans the Genesse river there, and which was finished hist sommer at a cost of over : 28,000, and was capable of austaining a weight of two thousand tons, gave way on Tuesday in consequence of the quantity of snow on it, and is now a perfect wreck. FURTHER INDIAN TROUBLES.

Sr. Louis, April 22 .- The officers of the steam er Minnehaha, from Upper Missouri, reporta great excitement at Plattsmouth, Nebraska, in consequence of the Pawnee Indians being driven in by a number of settlers of Salt Creek. A fight oc curred, resulting in the killing of several Indiana and one white man and the capturing of 18 Indians. General Thayer, of Omaha City, has raised a party of volunteers to protect the settlers.

POOR SLAVES' CHARITY. The following from the Augusta (Ga.) Dispatch, speaks well for the down-trodden, over tasked slaves of the South :-

FROST AND FAMINE IN TEXAS. Letters from San Antenia and Indianola, Texas dated respectively on the 7th and 8th inst , furnish the following interesting extracts:

"We hoped to have Had fine gardens, but this year the frosts have been severe. Ohly last night April 6) we had a frost that killed every garden in this part of Texas. We have all to plant over again. While at Indianola I saw one of the camels tried with a couple of 500 pound bales of cotton. He moved off with them with as much ease bands which have lately been committing so as a mule would with a sack of corn. The natives looked astonished, He could have carried another bale, I am satisfied, with perfect case."

> "We have a wretched prospect before us for the summer. Two frosts-the last two days agoall the fruit. For the want of rain the ground is now dry to plant: Unless it rains in two weeks, there is danger of famine. No grass is up for pasture; the streams are dry that can get so; the cattle are, some of them, starving, and have to be thrown out to save the calves, so that we shall soon be without milk : while butter is already for. ty cents per pound, and rising. It is a lamentable prospect which a merciful Providence can alone avert the realization of."

Triourmar No. 1; Is a remedy for Keleautien, Spermtorthesa, at dall the distressing consequences arising from early abuse, indiscriminate excuses, or too longresi dence in hot climates. It has restored bodily and sexual strength and vigor to thousands who are now in the enjoyment of health and the functions of manhood; and whatever may be the cause or dis qualifications for for marriage, they are effectually subdued.

Triesemar No. 2. Completely and entitel eradicates all traces of Gonorhma, both in its wild and aggravated forms, Gleets, Strictures, Irritation of the Bladder, Nonretention of Urine, Pains of the Loins and Kidneye, and those disorders for which Copaivi and Cubebs have so long been thought an antidote. Triesemar No. 3,

is the great Continental Pamedy for Syphilis and Secondary Symptoms. It also constitutes a certain cure for Scurvy, Scrottria, and alle Cutaneous kruptions, removing and expelling in its course all impurities from the vital stream, so as alrogether to eradicate the virus of disease, and extel i by insensible perspiration through the medium of the pores of the skin and urine.

It is a never failing remedy for that class of disorders which English Physicians treat with Mer-

cury, to the inevitable destruction of the palient's onst tution, and which all the Sarsaparilla in the World cannot remove.
TRIES + MAR No. 1, 2, and 3, are prepared in the form of a tozenge, devoid of taste or smeil, and cases, and divided in separate do-es as administer-Valpenu, Lull-man, Roux, Ricord, &c., &c.
