ORIGINAL MATTER.

N. Y. Correspondence of the Commercial. NEW YORK, May 12, 1857.

In this almost midsummer weather, we repose in unwonted inactivity. There is hardly any movement in political, social or business circles. People read the reports of the Cunningham trial, because they have been in the habit of reading every thing they could pick up about Dr. Burdell. The prosecution opened with a most savage and needless phillipic by Mr. Hall, impressing upon the jury the duty incumbent upon them of paying no regard to the prisononer at the bar. The examination of witnesses on the part of the prosen has been conducted with great the ficiency. Her able counsel, and carefully as to cause them both to fall on top of sifted jury, will probably succeed in clearing Mrs. Cunningham. Coroner Conway has been on the stand, but does not show to great advantage as a witness. "Clothed in a little brief authority," he is a sight well worthy of beholding. Trade has been very quiet, with the exception of a little excitement about tea, which has gone up a peg through the maneuverings of speculators. The market for China goods is controlled almost entirely by a few large houses, who hold immense stocks which their large capital enables them to retain until they can fix their own price. The red and yellow China silks which we used for sleeve linings have also risen, as well as the white Pongees which are printed into Bandanna handkerchiefs in this country. Prices have, however, reached a higher point than they can long sustain. The dry goods trade has been very quiet, though some merchants are here from New York State and New England. We have passed through the dangerous season, the first to fourth of May. at which dates many notes become due. without any heavy failures. 'Boston has been less fortunate. A great deal of tearing down and upbuilding is going on now. Columbia College, one of the old landmarks, is only waiting long enough to have its daguerreotype taken, and then, down it must come. 'The buildings have been standing at the foot of Park Place for over 80 years. The original institution was called King's College. Alexander Hamilton and Dewitt Clinton received their education at Columbia .-The whole concern is to be moved into some of the unexplored regions on the up per part of Manhattan Island where a magnificent building will be erected, at a cost of not less than \$500,000. The place of the old college is to be supplied by a row of magnificent marble fronts, erected for dry goods jobbing houses.

THE TRI-WEEKLY COMMERCIAL To ascertain the truth of the rumor, the father had the graves re-opened, and found the coffins and bodies missing .-- NEW YORK, LONDON & BREMEN Of course, this created a great sensation, and we are informed that it was

been living in Concord about two years. He once lived in this town, we are informed, engaged in selling peppermint aud cinnamon drops. Before he died he gave the names of three or four of

his accomplices, one of whom, a white place last week and committed to jail. What the fellow did with the medirine he has been making, no one knows. We heard some one say he had agen-

cies in Salisbury and Goldsboro', where one or more of his accomplices reside. Those persons who are in the habit of buying and swallowing every kind of nostrum offered to them for the cure of diseases internally and externally, will take a hint from the above.—*Charlotte* Democrat.

REMARKABLE ACCIDENT. The Bloomington (Ill.) Flag says that lately a very remarkable accident oc-occurred on the farm of Mr. William C. Warlow, of that county. While Mr. John Baker was harrowing in a field, his two horses took fright and ran off, the harrow soon got thrown upon its back, with the teeth up, and horses became en-

HORRIBLE DISCLOSURES-DEAD BODIES EXHUMED AND BURNED.

We learn that great excitement has prevailed in the neighboring village of ncord during the past week, caused by the discovery that several children, who died recently, had been disinterred and their bodies removed.

There are a hundred rumors in circulation about the affair. After compating the conflicting stories together, we make out the following statement of the case.

A quack doctor known by the name of Nugent, applied to a man to assist him in taking up a child that had been buried a few days before. The man made the request known, and intima-ted that two little girls daughters of a very respectable gentleman residing in the vicinity, had been removed from their graves by this man Nugent for the nurpose of extracting, medicinal the nurpose of extracting, medicinal
