MR. DAVIS' LECTURE.

We were not present at the Lecture on Thursday evening, but learn from intelligent sources that "The last days of Royalty in North Carolina" were well depicted. We expected no other report relative to the effort of this highly talented man and accomplished orator.

MRS. CUSHING'S EXHIBITION. A musical exhibition will be presented on Monday evening at Military Haft. Sixty children, no der the direction of Mrs. Cusures will entertain the auditory on that occasion. The musical medulations of these "little people" cannot fail to ex-cite the most pleasurable emotions. Price of adnts, the proceeds to be appropriated ola purposes.

RELIGIOUS NOTICE. Rev. Dr. Deems will preach in the Fifth Street M. E. Church, to morrow morning, and at the Front Street Church at night.

FILIBUSTERING DON'T PAY.

The Baltimore Sun says that fillibustering in the United States is not a good investment upon the capital paid in, and the passion and sentiment expended, is proved by the fact that while Amer-Icans have never yet undertaken a national war that has failed, they have never undertaken a marauding expedition that has succeed. The

" Albany Journal " gives the following as proof : " McKenzie's 'Patriot War' in Canada failed and its victims were transported or shot. Lo-pez's foray in Cuba failed, and he perished by the garote. The Sonora expedition failed, and the bones of its deluded members are bleaching on the Plains. The Nicaragua expedition has failed at last, also. Walker is cooped up and starving, while his men are begging their way back home, through New York and New Orleans."

THE MORMONS IN UTAH.

We belive the press throughout the Union speaks the same language in reprehension of the monstrous doings at Utah, and of the necessity for firm and decisive measures on the part of the General Government. The Petersburg Intelligencer says: "We are gratified to observs that the press, is speaking out in reference to the cut throats and robbers of Utah, and demanding of the government measures that will vindicate the dents. outraged laws of the country, and avenge the bloody crimes that redden the waters of Salt Lake | Alston and Bragg, will honor the occasion with -a lake which, if justice should fail to be meted | their presence. out to the banditti who inhabit its shores, would soon cover up beneath its dark waters as many and as revolting abominations as the Salt Lake that now hides from mortal view the "Cities of the Plain," which the wrath of the Almighty suffered not to exist. The calls upon the govern' ment to act come from all quarters, and from all parties, with remarkable unanimity," The Louisville Courier has the following

It is plain that trouble is to grow out of the affairs of Utah. No proper laws can be executed there now without the federal authority is backed by a sufficient military force to execute obedience to law. But the question must be met, and delay only adds to the evil. If there be no laws on the statute books which provide for the extra-ordinary state of affairs in that territory, let laws enacted that will meet the issue promptly and effectively. Foul corruption there has its empire. ies our fair fame and must be removed. It is a foul blot on our national eschutcheon. De-cency and Christianity imperiously demand its extirpation. It has had existence because previous administrations had not the nerve to apply the remedy. Such a policy was imbecile if not disgraceful. The country looks to Mr. Buchanan to wipe out the evil; and we have confidence it

The Louisville Journal is equally emphatic: Something decisive must certainly be done.— The existing state of affairs is a burning diagrace to the country. If nothing else will answer, we are decidedly in favor of sending out to Utah a military Governor, clothed for the occasion with planary authority, and backed by as much of the of the Central Government as shall be ne-y to achieve the end of effectually extinguishing this unspeakable national scandal.—
Congress beyond dispute should boggle at no constitutional means, however unusual or arbitrary, of wiping out so dark and damning a stain upon the national good name.

stain upon the national good name.

The New York Courier and Enquirer holds this

We find in the Washington Union of yesterday on army order withdrawing General Harney from Florida, and commanding him to repair without lelay to Fort Leavenworth to assume the comnd of that spot. Special isntructions will be sed to him at that place from the War Departissued to him at that place from the War Department. We hope those instructions will be of the most decided character, and that Brigham Young in his strenghold of infamy will be taught to know there is law above him, and that the whole Mormon bot-bed of pollution in Utah will be broken up to give place to decency and morality. It is time that this foul blot on the surface of the United States should be wiped out. Gen. Harney is just the man to meet Brigham Young and deal with him as he deserves, if he is supported by the Government. We hope that support with be given, and that in it there will be no shame.

RECOVERY FROM DROWNING-CURIOUS

MISTAKE. On Monday last, says the Norfolk Herald, a little boy about 8 or 9 years old, fell overboard at Gampbell's Wharf, and sunk before any effort could be made to save him. A pair of oystertongs were brought, with which the body was drawn up after it had been fifteen minutes under water. A bystander thinking it was one of the children of Mr. Gladey, a barber, in Commerce street, ran to inform him of it. Mr. Cladey hastened to the spot and had the body removed to his house, and sent for Dr. Wm. M. Wilson, under whose care he revivied and was restored to life in a short time. It turned out, however, that the boy was not the son of Mr. Gladey, who came in from play while the Dr. was at work on his representative, but the son of Mr. James Smith, grocer, who resides in Church st. Shocked and overpowered by his feelings, Mr. Gladey had not taken time to discover the mistake in which he had been unintentionally involved; but had no cause to regret that he had interested himself, and perhaps been the means of saving the life of the child

CHARLESTON, May 14 .- The Imbel arrived in Wilmington, N. C., from May 14th, 1956, to May th's port yesterday morning, with dates from Havans and Koy West to the 10th Instant. We return our acknowledgments to her Purser, John Manoney, Esq., for a continuance of past favors. Our correspondence is very full, and to this we refer our readers for the details of the intelligence by this arrival.

A further advance has taken place in sugars.-The demand was very steady, particularly for the lower grades, but the transactions had been rather limited. The estimated stock at Havana was 190,000 boxes, and at Mataozas 75,000 boxes.

The general news from "the ever faithful 1sland" comprises nothing that can occasion very general remark. The mania for joint stock companies is still continued, and our correspondent apprehends unpleasant consequences in financial circles, as the final result of it. The Credit Mobilier, which has been lately established in Havana, however, is said to be under the management of men of business capacity and experience .-There are still reports concerning the importing of slaves into the island Manti has obtained from the "Mother Country" a renewal of his fish monopely, and our correspondent thinks another joint company might be profitably formed to compete with him. The captains of American vessel- at Havana, are going to petition Congress for such an alteration in the marine laws, as will enable them to discharge seamen without paying the usual three months wages. There was an accident on the Rail Road between Havana and Union recently, and the engineers have been put in prison for it. It would be well perhaps for the safety of the travelling public, that the example of the Captain General in this particular should be imitated occasionally in the United States.

A PECULIAR LAWSUIT.

A young man has brought a suit at Louisville against a young lady under most peculiar circumstances. It appears that she resides in the vicinity of Louisville and has long been considered the belle of the circle in which she lived. Her suitors were numerous, and many offers of marriage were refused. A short time since she met with one to whose earnest and sincere devotion she yielded so far as to name the day of marriage .-The newspapers chronicled the approaching nuptials and the young man lavished the most expensive presents on his intended. On the marriage eve they attended a ball, and during the dancing the lady complained of indisposition, which becoming 'no better fast,' she asked her affianced to conduct her home, which he did in the most tender manner. Arrived at home, they bid adieu. with fond anticipations of the coming day, which was to see the 'twain made one.' But during the night the lady grew worse, and at sunrise she was a mother. The young man said that he could never have been deceived had it not been for the fashion of wearing hoops; and he brings suit for recovery of the value of his presents.

TEMPERATURE OF THE INTERIOR OF THE EARTH.

There is the direct evidence of the internal heat of the globe derived from the increase of temperature in descending from the surface. It has been determined by numerous carefully conducted experiments in deep mines that at a depth of one hundred feet variations of the seasons on the surface cease to be felt, and that the heat inthermometer for every 60 feet of depth. The tains the first Message of Gov. Medary, newly sp- temperature of water from deep Artesian wells confirms the evidence derived from mines. The water of the Artesian well at Grenelle, near Paris which is 1791 English feet in depth, is 81 ° when the temperature at the surface is 51 °. Assuming, therefore, that the same increase of heat coutinues in descending, it is easy by computation to determine at what depth the heat of boiling water would be obtained; and Mr. Philips conceives that the temperature at lower depths augments in an encreasing ratio. Calculating the increase, however, at the known rate of 10 in 60 feet, it may be estimated that a depth below the surface States to send an adequate force of mounted men of only seven miles all substance must be red to scour the country between the Minnesota and hot.

ELOPEMENT EXTRAORDINARY.

The Macomb (McDonough county, Ill.) Enterorise gives an account of quite an "interesting" subbub that was kicked up in that quiet little town on Wednesday of last week, by the elopement of Wm. Owens with his wife's sister Miss Ohio and Mississippi rivers, surrounded by an ar-Julia Tungate. Mr. Owens was a horse and cattle tificial bank to prevent inundation. There are dealer. The day before he left he borrowed all the money he possibly could from his acquaintances in town, promising to return it next day; in rough estimate of the number of people that the evening he borrowed a buggy, and a span of horses frem a friend, and during the night, lifted the fair but frail Julia out of her bedroom-window, placed her in the borrowed buggy, and drove

off at the best speed of the borrowed horses. The guilty pair were followed, overtaken at Farmington, Iowa, and arrested in their room at a hotel, where they had retired for the night .-They were brought back to Macomb, the young lady was restored to her friends, and the gentleman was committed to the county jail to await his trial-for stealing the horses and buggy.

> EXCITEMENT IN HIGH LIFE. Supposed Elopement of a City Father with a Wil-

to. - The Cificinnat! Times of Saturday says : Great excitement existed this morning, by a report of the elopement of one of the City Fathers, a representative of the Thirteenth Ward, with a young widow, a member of a wealthy f-mily .-There are a hundred ruthors affoat as to the affair, and it is almost impossible to arrive at the trath, but the facts seem to be about as follows: The City Father is a young man, of wealthy parents. He is a graduate of St Xavier, and being rather a wild boy, his parents endeavored to 'settle' him as soon as possible. He was persuaded to marry at an early age, and doing so, was established in a comfortable business. He lived apparently happy and contented, and a few years ago went into the liquor business with his wife's brother.

A year or two ago the partner died, and the widow, of course, took his place in the firm. It issaid that an intimacy soon grew up between the City Father and the widow, who was his sister by marrisge. At least, letters from her to him, expressing the strongest kind of love, have been detected by his wife; and it is known that they have frequently held interviews, nominally of a business character, but suspected to be of a different

Yesterday morning the City Father seemed to take leave of his wife and child in a manner more han usually affectionate, and leaving the house, apparently for his usual routine of business, has not since returned. The widow, who has four children, and who resides in Newport, has also been missing since that time, and the natural inference is that they have gone away together .-The widow's children are all just recovering from

Discoveries this morning confirm the suspicion-All the monies both arties had in bank, and which yesterday, and papers have been found in which the City Father bas made over to his wife all his business and other property. It is supposed they took the evening train, last evening, and are now on their way to a sea port with the intention of embarking for Europe. Telegraphic dispatches were forwarded this morning to the several cities requesting their arrest if detected. The affair is distressing to both families. Both were favorite children, and this elepement, if true, will be a severe blow to their parents.

Strange as it may seem, the affair has also a political influence. The City Father is a Democrat, and the democrats have but one majority in the City Council. Without him, therefore, the democrats are powerless, and cannot take unto themselves the hundred or so appointments to be made by the Board. The City Father has not resigned, and, of course, his place cannot be filled until his term expires. This fact has caused quite sensation among the several hundred applicants for appointment by the City Conncil. The gentleman has frequently, of late, expressed his determination to resign his seat, but he has failed to Broome streets. A gentleman leased a store in do it.

THE MAMMOTH DINNER.

The Memphis Appeal gives an account of the largest dinner ever given in the Southern States, perhaps in the Union-that at the recent railroad celebration at the Navy Yard at Memphis.

To give some adequate idea of this immense dining we may particularize some of the articles provided .

There were 8,000 plates and dishes in which the The Marion (Alabama) American says :- "Nedinner was served; 10 bbls. potatoes; 2,500 lbs, groes are rising-not against their masters, but to beef and mutton; 400 chickens; 75 hams; 18 large the great behoof of their masters. Conjous ATTEMPT AT Countrief .- There been quite an excitement recently in the quiet village of Oakdale, Shelby county, Missouri, in consequence of the attempt of two or three young fellows from Georgia, hastening there to win the affections of a young lady, who suddenly was discovered to possess many thousand charms. It appears that she had sent five dollars to Swann & Co., of Atlanta, Ga., for a half ticket in one of their Lotteries which draws every Saturday throughout the year. A prize of considerable magnitude was the consequence of her little spec-ulation, and her admirers having discovered that she had drawn so much money, hastened to the little village to pay their addresses, supposing the young lady would not be aware of her good for She had as many adorers as the the farce of the "Lottery Ticket," but she not lose her heart so suddenly as she won a fortune. EXTRAORDINARY CURE Point or Rocks, Frederick County, Md.

Da: Swayne .- Dear Sir :- Believing if a duty we to the public, and in justice to you. I have thorehit proper to make known one of the most extraordinary cures, in my own case, that flus ever been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my Lungs and very much afflict ed them, and discharged large quantities of corruption, external and internal. My breath could also pass through my Lungs and out through the cav ty of my breast with apparent ease, attended wit a violent cough, day and night, loss of appetite, and extreme debility, so that my physicians thought my case entirely hopeless and beyond the power of medicine. I remained in this wretched condition for a long time, until I was wasted to mere skeleton, and there seemed to be no hope for me; but having read in the public papers of th many wonderful cures performed by your COM-POUND SYRUP OF WILD CHERRY, 1 immediately sent to Baltimore for five bottles and commenced its use, and to my great satisfaction and my anxious family, the abscess or opening in my lungs began to heal, and the cough subsided and on using ten bottles I was restored to perfect health. I believe, that to your valuable medicine, under the blessings of Divine Providence, I am say, that I am now enjoying as good health as I

Over five years have elapsed, and I still remain a perfectly hearty man at this date, June 2d, 1656. ave not had a day's sickness months. Please accept my grateful acknowledg Yours, very respectfully, THOMAS DIXON.

The Subscriber is well acquainted with Thomas Dixon, and can testify that the he has been affected as above represented. I regard his recovery almost as a miracle. He is a worthy member of Society.

THE NATURE OF GAMES OF CHANCE .- All the

philosophy of society concur in the opinion that there is much injury done to individuals by in-dulging in games of chance. No observer of men and things can doubt it, for the health, time, and character of a man may be sacrificed to gratify such an appetite. Taking a chance in a lottery is quite another affair. No loss of time, no evil associations need accompany such a speculation.

The nature of it is very different from that of games where time is occupied in bringing out results. Ten, five, or two dollars and a half may be sent to 8 wan & Co., of Atlanta, Georgia, and a whole, half or quarter of a ticket will be returned for the amount. A drawing takes place every Saturday throughout the year, and in each case, the commissioners of the State, under whom sancthe commissioners of the State, under whose sanction these lotteries are instituted, are present to protect the rights of those who make investments. That every thing may be satisfactory S. Swan & Co. publish all their drawings in the following papers, viz.: New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book.

CAPE PEAR.

WHEREAS, a libel has been filed in the District Court
of the United States, in the District of North Carolina, for the District of Cape Fear, on the 8th day of May, A. D., 1887, by Jonas Smith, Oliver M. Pettit and M. Cooper, owners of the Schr. L. P. Smith; and Perry M. Hudson, David A. Atkins, R. C. Godfrey, mate and TON.

Bo-ton, May 12.—Twelve tottery offices in this city were overhauled to-day by the police, in six of which tickets of the Delaware States lottery were found, and the parties were arrested. At Myrick's office on State to Milmington, N. C., discovered the said Light Boat, Wind Mill Point with a signal of distress hoisted where-Boat, that on pearing the said Light Boat, the Captain of said Light Boat saked for sid, and retriested a navigator on board. That the Captain of said schooner deemed it unsafe to navigate said Light Boat, as she had not sufficient sails, no compass, was without anchors, and in a helpless condition. That the Captain of the said Light Boat stated to the said M. Cooper, that he would be com-pelled to abandon said Light Boat and offered the said Cooper salvage if he would tow said Light Boat into port The said Cooper offered to tow said boat into Cape Henry but that the Captain of the said Light Boat objected, an declared there was no chance of getting said Light Boat into the Cape, on account of the ice and northwest winds That said Captain Cooper then endeavored to tow said Light Boat into Ceracoke Inlet, but night coming on, wind being northeast, could not enter. That on that night said schooner broke loose from the said Light Boat, but that by extraordinary effort on the part of the master and crew of said schooner, they succeeded in again get-ting a hauser to said Light Boat. That at daylight the said schooner dropped back another hauser to the Light Boat, and continued fretened to her for about four hours, and by the action of the sea said habers chafed and part est, which rendered them entirely uscless. That on the 25th the Captain of said schooner put a man on board said Light Boat to take charge of her, the Captain of said Light Boat having surrendered her to Capt. Cooper: That the said schooner hauled to under the land and ob-

> her into New Inlet bar. Having towed said Light Boat about 300 miles, and that they are entitled to a reasonable share of said Light Boat, her apparet and furniture for the salvage thereof.— And praying process against said Light Boat, and apparel, and furniture and reasonable and proper salvage, and that the sald Light Bost, her tackle, apparel and furniture, miny be condemned and sold to pay such salvage with costs, charges and expenses.

> tained a pilot, and returned to said Light Boat, and towed

Now, therefore, in pursuance of the monition under the seal of said Court, to me directed and delivered, I do beroby give public notice to all persons claiming the said Light Boot, her tackle apparel and furniture, or in any manner interested therein, that they be and appear before the said District Court, the first Monday after the fourth Monday in October, next to be held at Wilmington, for the District of Cape Fear; then and there to interpose their claims, and to make their allegations in that behalf Dated May 13th, 1857.

SIMPLICITY OF DRESS. We have seen Hon. J. Q Adams, years ago,

The man having asked "how many dog days there were in a year," received the answer; that

A man named Bennet Powell, late tax collector of Emanuel county, Georgia, absqutulated from that State with \$3000 of public money in his pos-

session, and took a trip to Texas, where he hired himself as an overseer to Mr. Dickson, of Cherokee county. One of his securities in Georgia, Mr. Fortner, pursued the defaulter to his new residence and succeeded in arresting him under a requisition from the Governor of Georgia. The whole sum, except \$400,00 was found in his possession. Public defaulters and fugitives from justice will find Texas too warm a place for them.

CURE FOR AN OBSTINATE COUGH. A correspondent states that the following recipe cured a person who had a cough for three years: Take a pint of milk, warm it, and when it comes to the bolling point, put to it as much made mustard as will turn it to posset. Now take away the curd, and into a half pint of the posset pour one ounce brown sugar candy, which must be allowed to dissolve. Take the posset as hot as you can at night, when in bed and renew it for three or four times. This has also been found to give relief in case of asthma.
