THE ERA OF CRIME. We give a cortion of the records that mark the ome under our observation, and reject the most revolting. We know that many people object to the p blication of matter of this character; but it must be remembered that it is the an Edian to present such matter as may rd data for the historian, in describing the character of the age in which it was printed -These things cannot be regulated by weak nerves and thoughtless beads.

OPENING FOR MISSIONARIES. Mr. Dwight, at Constantinople, under date of Feb. 27, writes to the Missionary Horald for June,

The Russians have nothing to do with the internal affairs of their country that being governed by their country. their country, they being governed by their own prince, who, we are assured, wishes American injurionaries to come and settle in his country.—

The whole population of Abyssinia is stated at four or five million, the greater part of whom are of Arabian extraction, mixed with Jews, Turks and Negroes. The Encyclopedia relates of them to Judaism several centuries before the Christian sister city. era. It is much more certain, that, prior to the middle of the fourth century, the nation was converted to Christianity, which it has ever since professed. This is, however, more tingured with Judaism than among other nations. Boys and girls are circumcised; the Mosaic laws in regard to clean and unclean meats are respected; the seventh day is their Sabbath, and their altars have the form of the ark of the covenant. In their dogmas they follow the Monophysitic doc-

FOREIGN COIN.

We suppose our readers are aware that Span ish coins are about being crowded out of circu Lation in this country. For several months this money has been circulated in most of the cities of the Union at a depreciation. The Ballimore San complains that the Spanish coin is taken at its pominal value in that city, and the consequence is that the American coin is fast disappearing before the influx of the foreign coin .-The Editors say: "What is to be done? The answer is plain. Refuse to take it. It must surdly at our own expense. If it is steadfastly merchants subscribe to all three of the agencies dispose of what they have on hand at a present differ very mater ally in their statements. THE KINSTON ADVOCATE.

It appears that it is impossible for us to be un derstood by our neighbor of the Adrecate. We know very well what we mean, but we suppose that is of no consequence unless we can impress others with our idea. We copy the whole of his

RIGHT OF SECESSION .- We have, for some time been doing our best to get the Wilmington Con-mercial to inform us, and the public, how it was, and whence it was derived, that there exists in a State the right to secode for cause, but that th same right "cannot possibly exist" in the same sov-ereign to secode at witt. An important principle in our government machinery, is involved and we would like to understand it. State's rights friends of ours, who are "warm advocates of the right of secession," are, like us, on this point, unable to understand it. Neither they nor we understand how a State may by sovereign right secede for cause, and yet have no authority, no right to deter

we do yet, as heretofore, respectfully insist that as this is an important feature in our republican system of government, that the editor of the Commercial explain it, so that all may comprehend it. For it is a mystery that has not been red to the satisfaction of very many, even of the friends of the right of secession. Our own opinion is that if a State has a right to secede at all, clear and indisputable, with no power or authority to call her action in question, she has by necessity, the right to decide on it, and therefore the right to secede at will. If this position be cr-

We have over an! over again tried to show that to claim the right to secede at will, without further qualifications of the sentence, implied the right to do so at the more whim or caprice of the party. I will because I will, is not the proper phrase in which to place Southern Rights. The ight to secode without cause is denied, because it is a breach of contract or agreement, and is morally and politically wrong. We fear our neighright and power. A sovereign State has the power to secode without a cause, but she has no more right to do so than individuals have to break contracis at will, or nations to abrogate treaties at will. We will likely take up the whole matter

DARING ATTEMPT AT HIGHWAY ROBBERY. Augusta, Geo., May 27 .- We are informed by gentleman of LaGrange that a daring attempt at bighway robbery was made upon the person of Mr. Wm. Evans, a young man about 19 years of DISASTER TO THE SHIP ROBT. L. LANE ago, of that place on Friday of last week, Mr. E. was returning, in his buggy, to his father's piation, near Liberty Hill, when he was accesed by a person whom he took to be a negro, who mined him from a little thicket through which the read passed, and asked him for a chew of to bacco. Mr. E. promptly thrust his band into his pocket for the required article, when he was stariled by the stranger's cathing at his watch, and then noticed, for the first time, that the apparent negro was a white man disguised. After some time devoted to introduc-tions and congratulations, the special guests of the City Council were excepted on a round of visit and observation, some particulars of which we hope to record hereafter.

> N. Y. Correspondence of the Commercial. New York, May 26, 1857. This is the first cheerful day of the week .-

Till to-day we have had clouds overhead, rivers underfoot, and between both an atmosphere of which "aqueous vapor" formed far more than the proper perportion. Und r the influence of such weather, all the wheels of our multitudinous life have moved slowly, or grown rusty for want of motion. Down town there was desolation; the lords of the great warehouses tarried late over their savory breakfasts, leaving sub-clerks and porters to attend to any chance customers whose wants should drive them abroad in spite of a wind and rain which laughed umbrellas to scorn. The spring trade in dry goods is closing very unsatisfactorily. We have had high prices for raw silk, wool, cott n and flax, while the demand for fabries has been unusually limited, owing to the unfavorable aspect of spring weather, and the tightness in the Western money market. There has been considerable discussion this week as regards the propriety of publishing the failures in the buthan the system of espoinage which the three "Commercial Agencies" of this city have established throughout the country. Their reports inal houses of business, everybody will the character of a castomer. The reward of \$5,000 offered by the daily Times for the information in regard to the Burdell mur der, is understood to have developed already some important facts which may lead to the arrest of parties who have not, hitherto, been directly implicated. We are in a peck of trouble just now with our municipal and State authori-'ies, of which you have already received full details. The police, however, are the only parties deeply interested. Who shall decide when doctors disagree? Early vegetables are now in mar ket, but at very high prices. Rhubarb and Asparagus are the only green things within the man, the Hon. Preston S. SCARCITY OF BREADSTUFFS.

The citizens of Huntsville, Ala., propose to call a meeting of the people of Hancock county to provide means for the relief of the destitute and suffering peopl; of her sister counties. In Hancock and other sparsely populated counties the destitution is such that many cattle and hogs have died from starration, and the farmers have in some instances deserted their homes and gone to where they could obtain the necessaries of life, leaving their fields and houses to take care of

SHELBURNE, N. S., May 23 .- The ship Robert t. Lane, with six hundred emigrant passengers from Liverpool for New York, struck on Brazil rock, off Cape Sable, on the night of the 21st instant, and backed off again in a leaky state. About three hundred women and children were put on board a schooner at sea, and landed here last evening, all well. The ship succeeded in getting into harbor to day by continually working at the bright, cheerful smile. His wife sat down and pumps, with loss of rudder.

Andrew Pickens Butler was born, in Edgefield District, in the year 1796. His father was the late Gen. William Butler, of Virginia, and his mother Beheth Land Morre, of Edgefield, the former baving migrated from Virginia to this State. He had six brothers, among them George, a gallant officer, in the war with Great Britain, who died young; the Hon. William Butler, M. D., formerly a surgeon in the U. S. His health began to fail, upwards of a year since, and his decline was doubtless, in some measure, hastened by the melancholy, distressing and sudden death of his near, young and gallant kinsed with all the tenderness of parental affection .-He left Washington, at the close of the la'e Executive session of the Senate, in a very feeble state, having : emained until the last moment at the post of duty; and returned to his home to mingle his mortal dost with that of his parents and kindred, in his native State. A TOUCHING SCENE IN COURT. The Buffalo Advertiser of Friday week, states that Dr. Beigler, convicted of the seduction and murder of a young woman, was brought into court for sentence. During these proceedings the family of Dr. Beigler came into court, consisting of his wife, a grown up son and daughter, a little girl and a bright little boy, who laughed with plea-sure as he met his father. It has seldom fallen to our lot to record a more distressing or singular case of shooting than one that occurred yesterday morning, about 10 o'clock, at a house on Lee street, near China street, in the southern section of the city. The parties concerned are both boys, and the oldest is not over seventeen years of age. The facts in the case appear to be these : A youth named John Richards, who resides with his parents at the house where the deed was committed, had a difficulty some time since with another boy named Joseph Harvey, who lives with his mother in Warren street, back of Entaw street, and they were separated in consequence. According to the statement of young Harvey, as he was yesterday morning passing the house of Richards, on his return from an errand, he was called in by the latter, who said G vernor of the State, and afterwards the gal- there was nobody home but himself, and he wanted to show him (Harvey) something. It seems he was in his yard on Sunday about mid-day, feeding his horses, when a negro approached, and informed him there were some large fish in a neighboring creek Mr. E. and the negro started to the creek, the former having first gene into his bonse, and stated to his wife that it was one of Wm. Miles' servants who wished him to go. Mr. Edwards not returning, search was instituted Monday morning, when the dead body was found in the creek. An examination showed that he had received two sovere blows on the head. Mrs Edwards did not notice the boy particularly, and thinks she would be unable to identify him. The general impression is that the boy falsely stated he was owned by Mr. Miles, for the purpose of averting suspicion. OPERATION MILD, CURE SUEE .- Mild operation with successful effect, are the peculiarity of Brand-redth's Pills. Now that we may expect genial Spring, it is of great importance that a few doses be used by the wise. Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth Pills afford an invaluable and efficient protection WM. H. DAVIS' PAIN KILLER. My DEAR SIR -I desire to state a few Instan

ers of good resulting from the use of the Pair Killer. The first case that I shall mention in which I performed a cure was that of a servan boy who had his ri-bt hand severely scalded by the falling of boiling oil on it was in a few days ses Then my girl was cured of an obstinate Cough. Lastly, I shall refer to myself-I took the medicine-not from any confidence I had in it: or the contrary. I took it, with a great deal of feat how ver, I must own that it several times re lieved me of cold in the chest-and it cured me of a Fever-of pain in the knee-and an ulce in the mouth In addition to the above a case of cholers was brought to my notice; a coach man was attacked with this disease, and medi cines kept for this complaint were given to the man without any effect, and as the last resort when he was cold and speechless, the Pain Killer was administered, which threw a warmth into the system and revived his sinking energy-in short rhe man was restored.
