hen the discoverer, after a long series of laborious and costly experiments, became fully confir-med in his conviction that the Antiphlogistic Salt, which he now has the happiness to present to the American public, was a PERFECT SUBSTITUTE

For Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact that the manner of its operation, like that of the virus in v ccination, could not be satisfactorily explained upon any known principle. How in what way, it so effectually subdues inflammatory diseases, and no others, was at first wholly inexpli cable-but, on further experiment, it was proved that by its power over the veins, arteries and glands, il equalizes the fluids of the body, the want of an equilibrium in which, is the sole cause of in-flammation. It exerts, like the vaccine matter, an extraordinary influence over the circulation-re sulting in a gradual decline of inflammation as in dicated by the pulse, which soon resumes its natural state, as the heat and pain disappear. Such is its potency, that like the virus just mentioned, it requires what merely adheres to the point of a quill dipped into a solution of it, to affect the entire system-but must be instantly used to prevent decomposition and secure its full virtue. Three guills in acute, and two in chronic disease, every 24 hours, till the heat and fever have subsided and a perfect cure effected. When it takes the place of Leeches. Stimulating Ointments and Blisters in Local Inflammation, as Brain Fever, Croup Toothache Pleurisy, &c., its mode of administration is

two-fold. (See directions for dissairing, etc.) The peculiar excellence of this Sait is that without the useless loss of blood and strength, it effectually cures Inflammatory Diseases (no others) by producing an equilibrium of all the fluids in the body and a consequent uninterrupted circula-tion. The tollowing different forms which the un-balanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as perfectly subdurd by the Antiphlogistic Salt, as fire is extinguished by water.

While many nostrum makers victimize the good natured and pill ridden public by ordering from six to a dozen hoxes or bottles to cure any malady, no matter what, the undersigned is happy in being able to state, that the severest forms of recent Inflammatory Disease are overcome by one Acute Package, and the most obstinate and long standing by one Thronic Package Although 30 days have not elopsed since this New Medical Agent became partially known to the citizens of Boston and a few neighboring towns, yet such have be n the results of its trial that during the past week, nearly 400 packages were sold in this city and orders received by mail and express for 165 Family, 347 Chronic, and 385 Acute Packages. In one instance 6 persons clubbed together and wrote for 6 Packages, (of the "Little Giant," as they called it,) to be forwarded to one address-thereby saving expense to themselves and the Progrietor.

The DI-coverer now humbly submits his Perfect substitute for the Lancer, Leeches and Blisters, to the tribunal of an intelligent public, reiterating that it does just what it claims to do-no more, no less: Subdues Inflammatory Diseases, (no others,) whatever be its form or locality, by restoring the lost balance between the fluids and solids.
