MISCELLANY.

TERRIBLE RAILROAD CATASTROPHE. PETERSBURG, June 4.—We were greatly shocked at the information brought here yesterday about moon by a Telegraphic Dispatch to the Express from Liberty that Mr. Wm. Magee, one of the Delegates from this City to the Fortune, because she doesn't fill them. Bristol Convention, had in an effort to get in the cars of the V. & T. R. R., at Liberty, after the train had started, fallen through upon the track, and that horrible manner. We have not learned sins of Brigham Young the particulars of this melaucholy casnalty, and cau only state the painful another." been suddenly and most distressingly lost, and a gloom thrown over the deliberations of the Convention in which

the deceased was to have taken a seat." but had been for a great many years a resident of Virginia, and a good part of the time, of this City, where he was universally respected. He was a most estimable gentleman in every sense of the term, and his sad end but makes his loss the more deplorable. He leaves a widow and several children to mourn over their dreadful bereavement.

FIRE.-Yesterday about 10 o'clock, A. M., a fire broke out in the fine new building on Market street, known as the Leavenworth Seminary. Soon after the alarm was sounded the various engines of the city reached the spot, and thaving a good supply of water from the plugs in the vicinity commenced playing vigorously upon the roof, from which volumes of smoke were issning. The hose were also carried into the house and the walls and floors were thoroughly drenched. As the fire broke out in the attic just under the roof, it was for some time difficult to reach the flames with the water-but after awhile the energy and activity of the firemen began to show themselves in a diminution of the volume of smoke issning from the roof, and in about fralf an hour the damage was over and the house saved -not however without sustaining considerable injury within and without, from the appliances necessary to save it."

PATRIOTIC.

Dr. Brandreth proposes to finish the Washington Monument himself, and, it is said, devote the proceeds of his business, annually \$40,000, to that patriotic purpose. The doctor is a very public-spirited man and knows the benefits of advertising. For the purpose of putting the monument up, every man, woman and child in the country will take down a full box of the doctor's pills.—

NEW HAMPSHIRE AFFAIRS. CONCORD, June 4th .- Gov: Halle

was inaugurated to-day shortly after noon. His address was lengthy. He says there has been the usual progress made in the industrial pursuits during the past year, and he advocates the establishment of a board of education and a State normal school. Agricultural interests are considered encouraging.-The State debt is somewhat increased, but it will be extinguished without increased taxation. The liquor law has been attended with favorable results. He opposes any increase of banking capital, advocates a longer period of residence for aliens and that they shall be able to read and write the English language before they be admitted to vote. He deems it necessary to protest against the Dred Scott decision, and suggests the propriety of extending pecuniary aid to settlers in Kansas.

REPORTED FAILURE.

A correspondent of the Petersburg Express, writing from Murfreesboro', N. C., makes the following statement :

Moneyed men in the lower counties have been greatly alarmed by the reported failure of the late cashier of the Farmers' Bank of Elizabeth City, and his failure may affect the bank very injuriously. There is a great run with these bills and general distrust. His liabilities it is thought will not exceed \$95,000, and if so, the results will not be so disastrous as some will imagine, as his assets are estimated at least

Somebody says "Fortune is fickle." No such thing! Fortune is always pouring forth, plenty, happiness, and honor; but men sometimes get lazy and careless, and hold their platters wrong side up; and then blow away at That's the truth of the story.

GENIN'S OBERON HAT,

A New summer style for young men. Genin has t e pleasure of calling the attention of young men to on entire new fabric, intended specially for their use, and which combines the flexibility of the roft hat, with all the lightness and ventillating properties of the straw. The material is felt, of the finest texture; the color a dark faw n or umber; the crown moderately low, and the brim which is wide enough to him the face, without being toe wide to be elegant, has a loss like turn on either side which is picculiarly graceful.

The fabric is lighter that a straw hat, and the

it gives to the touch as readily as the soft hat, is so fastic that it springs back to its true shape as soon as the pressure is removed. A shower that would spoil the straw hat does no damage to the Oberon, and in point of darability, will compare favorably with any summer style ever introduced in this coun-
