> CURIOUS ATTEMPT AT COURTSHIP .- There has peen quite an excitement recently in the quiet village of Oakdafe, Shelby connty, Missouri, in consequence of the attempt of two or three young tellows from Georgia, hastening there to win the affections of a young lady, who suddenly was discovered to possess many thousand charms. It appears that she had sent five dollars to Swann & Co., of Atlanta, Ga., for a half ticket in one of their Lotteries which draws every Saturday throughout the year. A prize of considerable mag.itade was the consequence of her little spec-ulation, and her admirers having discovered that she had drawn so much money, hastened to the little village to pay their addresses, supposing the young lady would not be aware of her good fortune. She had as many adorers as the lady in the farce of the "Lottery Ticket," but she did not lose her heart so stildenly as she won a fortune. The firms forwarded the correspondence to Mr. Parker, with a protest against the commodore's action, with a request that the matter be communicated to the government at Washington, to which he acceded."

## THE GUANO ISLANDS.

A correspondent of the Baltimore Sun, writing from Washington, says : "The Attorney General has given an official opinion relative to the proprietary interest of the United States in the newly discovered guano islands. Congress, he says, may terminate the possession of the discoverer, when it pleases. Under the existing laws the discoverer is the nation's tenant at will, and that will to be expressed by Congress whenever the nation may desire to put an end to the estate granted. And the law fobids the President, befor : certain conditions are complied with, to declare any island as appertaining to the United States-as aforehand act, according to his conviction of public duty."
