

Mr. John Smith has been appointed by the Commissioners of Navigation, Harbor Master for the port of Wilmington, to supply the vacancy occasioned by the decease of John Costa, Esq.

FOURTH OF JULY.

Mr. Curtis M. Lee has been selected to deliver an oration in Clinton, and Mr. Thomas S. Kenan to deliver an oration in Kenansville, on the approaching anniversary of American independence.

LYNCH LAW.

We present on our fourth page a more full account of the operations of "Lynch Law" in Virginia than we published in our last. It is to be much regretted that this violent mode should be adopted in the Southern States, so distinguished for obedience to law and respect for the "powers that be."

THE RIGHT OF SECESSION.

In view of the matter we published on Tuesday, in regard to the rebellion in Ohio and Utah and the nullification of Massachusetts, comes up the right of secession, which we told our neighbor of the Kingston American Advocate we would attend to at the proper time. Utah, of course, is not embraced in the category, for to sovereign States alone does this right belong.

WASHINGTON MONUMENT.

It was told some time ago, that Dr. BRADBURY would appropriate \$50,000 a year, the amount of his income, to the completion of the Washington Monument. In addition to this supply a resident of Washington City, Mr. CONYER, proposes to purchase all the standing timber around the Tomb of Washington, to be made into walking sticks and sold for the benefit of the monument.

GEN. WALKER.

The Philibuster Walker, General as he is called, had an interview with President Buchanan on the evening of the 12th inst. The correspondent of the New York Herald says: "He announced himself a citizen of Nicaragua, and complained of the illegal and hostile interference of Capt. Davis against him. An investigation into the facts will be ordered. The conversation was general and informal. Gen. Walker has concluded to remain here till to-morrow afternoon, and will reach New York on Monday morning."

PEARLS.

A correspondent of the Petersburg Express writing from Murfreesboro N. C. under date of June 13, says: "The good people on the Passaic in New Jersey have been thrown almost into spasms by the discovery of pearls among the mollusks of their streams. These things have been found in North Carolina, time and again beautiful specimens. On the Neuse River they are sometimes picked up as large as the size of an ordinary nutmeg. There is a pearl now in the Museum of the 'low-an-Female Collegiate Institute in this place, which was taken from an oyster a few miles below New-Bern that would make the mouths of the New Jersey Pearl hunters water to look at. It is of an azure plover color, variegated in circles extending from the centre to the periphery. In shape it is flattened globe, its diameter 6 or 8 lines."

MOSE STORMS.

There was another terrific storm in this vicinity. At Mr. C. D. Wallace's farm, near this place, there was a perfect tornado, which took up large trees by the roots, and blew down a barn upon a negro man. The negro was not killed, but considerably hurt for a time.

DECLINE OF DRUNKENNESS IN LONDON.

The London Economist of the 21st ult. publishes an official tabular statement of the number of persons arrested for drunkenness within the jurisdiction of the metropolitan police from the year 1831 to 1856, inclusive, which shows that the number of drunken persons taken into custody in the first year was 21,853, and that in the latter year was only 19,207, while the population of the city had increased 60 per cent, within the period included in the return.

POTATOES.

The schooner Louisiana, Capt. Toti, of Cherry Stone, Va., arrived at New York a few days since from Antigua, with the first cargo of new potatoes. She brought 550 bushels. Some of the potatoes weigh 10 ounces each.

OUR BOOK TABLE.

"Designs for Parish Churches, in the three styles of English Church Architecture; with an Analysis of each style; a Review of the Nomenclature of the periods of English Gothic Architecture, and some Remarks introductory to Church Buildings, compiled in a series of over 100 Illustrations. By J. Coleman Hart, Architect."

We have given in full the title of this truly sumptuous volume, from the excellent press of Duns & Co., New York. In paper, typography, engravings, and binding, it is a gem of a work. It is a treat to the eye, and a book in its own right. The illustrations are admirable as pictures, and instructive in their character. We would hardly select some of the "fond conceits" of Mr. Hart, yet so far as the letter-press goes, although it is not what we expected to find, it contains very much that is constructive in criticism and excellent in suggestion. Every church committee should examine this volume before beginning their work.

The erection of a church is a great event in any community. We should be pleased to see the time when the spirit of the ancient church should animate the enterprise of modern times, and the expensiveness should not be so much accounted. It is a shame to any people to have churches which do not far surpass the residences around them, and a proper christian liberality would lead people to curtail their domestic outlay in order to procure a church which should last a thousand years, and be to the coming generations lessons in stone from their ancestors.

As oratories, places of prayer, we may admire certain buildings, which as churches are reprehensible. The style of architecture should be determined by the intent of the edifice. Now a christian church is an edifice erected mainly for the preaching of the word of God. Prayer and the administration of the sacraments form a part of public worship. So far as the leading of the devotions of the congregation is concerned, it manifestly falls under the category of preaching. The administration of the sacraments is not to be a matter of parade, and any edifice may be adapted to that. The Bible evidently sets preaching above everything else, in public worship. Then the first concern is to arrange an apartment in which the largest number of people can be the most easily reached by one voice. That is to say that the acoustic convenience is to be the dominant idea. When this is once settled, then in the outward appearance and interior finish let the building symbolize the distinctive characteristics of the christian faith.

This of course puts away all such cruciform buildings and other architectural devices as shut out the people from the sound and sight of the preacher; and all such uncatholic devices as making the altar more prominent than the pulpit—indeed it would put away this pagan relic of all altars together, as where there is no sacrifice an altar is useless, and there is no better relic than that which obtained in the best Gothic architecture—"never to insert a useless feature." It would break up the rule laid down by our author, that the nave should never exceed thirty feet in width and the length should be thrice the width of the nave. It would throw away the pointed roofs, unfinished inside, and running up without ceiling. It would shut up such deformities as the recede behind the pulpit in the Front Street Methodist Church, a contrivance which is to shorten the lives of all the clergymen who may become pastors there. It would tear out some of the pillars of the beautiful new Episcopal Church in this place. It would widen the nave of St. Stephen's in Goldsboro' and call it overlaid.

The fact is we need a Christian architecture, and no man has yet had the genius and boldness to open this department. We hope that "coming man" will soon come. Our clergymen should pray for a man whose churches are not constructed as actually to be destructive to health. When that right system shall be inaugurated we have no doubt it will be based upon the general principles we have laid down, and which is not original with us, but derived from St. Paul.

"Appleton's Railway and Steam Navigation Guide. New York: Appleton & Co., 340 Broadway." This is a very useful monthly publication, issued under the supervision of the Railway Company. It is full, accurate and reliable; giving all useful information as to routes, with much clear and interesting to the travelling community. This is the season when our people need such helps with a memento, similar, so far as its nature and degree will permit.

"The Child's Book of Nature. By Worthington Hooper, M. D. New York, Harper & Bros." The difficulties of science will always be difficult. But there is a way of rendering even difficulties attractive. This excellent volume will do much more to awaken in the young the desire to know more than to give full instruction in any department. Indeed we suppose the author designed it for this rather than a scientific treatise. Children will be pleased with the book and it will do them good.

"Reading Without Tears. New York, Robert Carter & Bros., 1857." This is a capital book for the little ones. Any child may be made to find a pleasure in learning to read according to this system. It is the best book for the purpose which we have seen.

"Harper's Weekly" has commenced a new novel by Sir E. Lytton Bulwer.

FOREIGN NEWS.

The steamship Vanderbilt, which arrived at New York on Sunday, brought \$50,000 in specie from Liverpool. The steamer Leopold I. and Herman arrived at Southampton on the 20th ult., and the North Star off on the 23rd ult. The U. S. mail steamer, Fulton left Havre and Coves on the 3d inst. for New York. The Belgian royal mail steamer Belgium sailed for New York from Southampton on the 2d inst. with a large number of passengers.

The U. S. frigate Shenandoah, which had recently arrived off Coves to assist in laying down the submarine telegraph cable between Ireland and Newfoundland, was the first vessel to salute the yacht conveying the Russian Duke Constantine from France to visit Queen Victoria. Her yards were manned, the Russian flag ran up at the main, and a salute of twenty-one guns was fired in splendid style. On Sunday the Grand Duke, accompanied by the Queen, visited the squadron off Spithead, and was received with a royal salute, and on the following day (Monday, 1st inst.) the duke took his departure for Calais.

The anti-Catholic outbreak in Belgium, noticed yesterday, took its rise in a warm and exciting debate in the Chamber of Representatives on a bill relative to "charitable institutions." A sentence uttered by one of the members was loudly cheered by the spectators in the gallery when the president gave orders to the hussars to clear the gallery. Soon afterwards a number of men, by their belts on, forced their way in, and the chamber was again cleared by troops and orders given to strengthen the military posts outside. The mob commenced the outbreak with cries of "down with the priests," "down with the Catholics," "down with convicts."

Tranquility appears to be restored, but a portion of the civic guard is still under arms at Brussels, and troops are ready for any emergency. Some 700 persons had been arrested, but the greater part of them had been set at liberty.

At Liege, where the windows of the Bishop's palace were smashed by a volley of stone, the excitement is also subsiding. The reports from Mons, Genet, Antwerp, and other towns in the province are also of a tranquillizing nature.

We have details of the news from Hong-Kong, China, down to the 15th of April. There was no reliable report from Canton. The ministers of France, England and the United States had met in conference, but the American minister, not having received any instructions from Washington, could not undertake a definite course of action. The war junks on the rivers frequently attacked British ships. The Russian religious mission in Peking having served ten years was about to be relieved. Their successors had set out from St. Petersburg.

From the Charleston Courier of the 16th instant.

FROM HAVANA.

The Steamship Isabel, Capt. Wm. Rollins, arrived at this port on Saturday morning, from Havana via Key West—bringing dates to these parts to the 10th instant. We are indebted to our obliging purser for his usual favors. Below is the letter of our Havana correspondent:

"The followers of the fortunes of his 'highness' SANTA ANNA, late Dictator of Mexico, many of whom are in this city, are quite excited by the recent intelligence received here from Mexico, a day or two since, by the Royal Mail Company steamer Volant, of which intelligence as I find it in the papers of this city, the following is a succinct summary:

A conspiracy has been detected at Mexico in which was concerned a number of persons who had held office under Santa Anna, and who were preparing a "pronouncement" in favor of that chief. Twenty-one of them, all military men, had been arrested, have been tried, and sent to the chain-gang.

A letter from Santa Anna to his nephew had been found among the papers of the latter, in which the former expresses his willingness to come to the aid of his country whenever his services should be required.

The health of the inhabitants of this city is unusually good, and yellow fever is confined to the shipping and even there is not so severe as in former years.

EXCITEMENT AT THE STREET COMMISSIONER'S HALL.—THE MUNICIPAL POLICE HAVE POSSESSION.—A large crowd gathered about the Hall of Records at an early hour this forenoon, in expectation that some disturbance would ensue from an attempt on the part of the Albany-appointed street commissioner, Daniel D. Conover, Esq., backed by the metropolitan police, to take possession of the Court of Pleas and Quarter Sessions of said County. Grateful for the confidence and support which his fellow-citizens have heretofore extended to him, he trusts that his efforts to merit that confidence will secure to him a renewal of their suffrages; and in the event of his re-election, he can only pledge to the honor of his constituents to discharge faithfully and acceptably the duties of said office. SAMUEL R. BUNTING. April 30.

Rats, Roaches, Bed-Bugs, Insects, &c. New York, April 12, 1856.—MR. HENRY B. COSTAR, No. 388 Broadway.—Dear Sir: Having a great many Rats around my stable and shop, I thought I would try your Rat Exterminator, and bought one of your boxes, and my man fixed it according to your directions. The next morning he found over 150 dead rats. I have bought other Rat Poison and found them humbugs, and think it will do more than you say it will in your advertisements. I have also tried it on steamboats, and satisfied them that it is the greatest thing of the age. Respectfully Yours, J. S. UNDERHILL, No. 485 10th St.

NOTICE TO ALL CONCERNED.—The Board of "Costars" Remedies for the destruction of the above pests, having occasioned an unlimited correspondence in regard to the efficacy of their preparations, has determined to publish the same in its advertisements hereafter. "Costar" prefers that every city, town and village shall be supplied through its own Druggists and Dealers, but, in cases where this is impracticable, will forward small orders by Mail or Express, on receipt of the price, sufficient to pre-pay the same. See advertisement, with retail prices, etc., in another column.

COURTESY ATTEMPT AT CONYERS.—There has been an excitement recently in the quiet village of Oakdale, Shelby county, Missouri, in consequence of the attempt of two or three young fellows from Georgia, hastening there to win the affections of a young lady, who suddenly was discovered to possess many thousand dollars. It appears that she had sent five dollars to Swann & Co. of Atlanta, Ga., for a half ticket in one of their Lotteries which draws every Saturday throughout the year. A prize of considerable magnitude was the consequence of her little speculation, and her admirers having discovered that she had drawn so much money, hastened to the little village to pay their addresses, supposing the young lady would not be aware of her good fortune. She had as many admirers as the lady in the farce of the "Lottery Ticket," but she did not lose her heart so suddenly as she was a fortune. A telegraphic dispatch from Swann & Co. arrived in time to foil the wily aspirants for her hand and heart. Fine beautiful hair—jet black or brown; Or tresses, curling and golden—Is the crown of youth—without chance or doubt—Is the crown of LYON'S KATHARON. The immense sale of LYON'S KATHARON—nearly 1,000,000 bottles per year—proves its excellence and universal popularity. It restores the hair after it has fallen out, invigorates and beautifies it—makes it soft, curly, and glossy—cleanses it from all Scurf and Dandruff, and imparts to it a delightful perfume. The Ladies universally pronounce it the finest and most agreeable article used. Sold by all dealers, everywhere, for 25 cents per bottle.

HEALTH, WINKOP & CO., Proprietors and Perfumers, 68 Liberty St., New York.

THE Latest style of Genl's Summer Hats is the CONGRESS HAT, just introduced by Genl. Sample, and received this morning by Express, at the Hat and Cap Emporium, 31 Market Street. CHAS. D. MYERS. May 12.

THE COMMERCE NOT DESTROY THE EARTH.

But it is already absorbing so much elemental heat as to seriously interfere with the health of all warm blooded animals. The murrain in Europe, and of the same or a similar affection is already seriously thinning the live stock of the farmers in this country.

"On Eggs and mules the infection first began, and last the vengeful arrow fixed in man. This warns us to beware of Cholera last. RETH'S pills in our possession, ready on the first appearance of sickness, we shall pass through the danger without injury. Let not prejudice prevent our best experience. Sold at 48 Broad Street Building. WM. H. LIPPETT, Agent, Wilmington, N. C."

ANOTHER REMARKABLE CURE. DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY. REV. JAMES M. DURBOROW, Pastor of Berlin Circuit, Baltimore Conference. A full and splendid set of silver service was recently presented to Miss Caroline R. Seabury by the citizens of Columbia, Miss., as a testimonial of their appreciation of the noble and self-sacrificing spirit evinced by her in the service which she gratuitously rendered as nurse in a case of small pox, from which friends and acquaintances fled in terror.

THE HAIL STORM IN SPOTSYLVANIA. The hail storm in Spotsylvania county, Va. on the 6th, caused great damage. Mr. C. M. Harris lost a crop of wheat valued at \$1,000. His fruit crop was also destroyed. Mr. L. Car lost half his wheat crop, and Messrs. Jos. Gate and Samuel, Ahoop were also sufferers. The Fredericksburg News says: "The corn is beat into the ground and can never recover. Chickens and geese were killed—barn was knocked off the trees—hinges on the tops of the houses were split, and marks on the sides were left as if a broadside of grape shot had been fired against them."

SAVED BY A CAT. Rome, it is said was saved by the cackling of a goose. So, a few nights since, a family in Charleston escaped from death by fire, through the "pitons ears of a domestic cat," by which they were awakened from deep sleep, at the dead of night. The fire was the work of an incendiary, and designed, it is believed, to destroy the whole family, who, as I was, barely escaped with their lives.

HEALTHY DEPENDS UPON PURE BLOOD.—This and all blood cannot expect healthy bile, and therefore the first thing for those who are dyspeptic should be to commence the purification of their blood. BRADBURY'S PILLS. Not only pure, but they make the blood richer, and add those principles upon which its powers to resist disease depend.

DEAN SINCE.—We began selling Perry Davis' Pain Killer with very little effect on our part; sales were small at first, but as it became known in our community, the demand increased very rapidly, far beyond our expectations, and every person that bought it would come at it more and speak in the highest terms of it as a valuable remedy for all those diseases your pamphlet spoke of. From these recommendations we were induced to order in our own families, and now continue its use with great satisfaction. We have sold more of the Pain Killer than we ever have since or before of any other medicine in the same length of time, and we do not hesitate to testify to its superiority over all other remedies we have ever used. Henry of business has prevented our sending certificates, but we have in our vicinity from fifty to a hundred to two thousand Irish witnesses who testify to their neighbors, day by day, of the value of Davis' Pain Killer. Keep a large supply in the West. It is just such a medicine as the people want, and it has already proved to be so. It can cure the Fever and Ague for twenty-five cents. It will cure a cold in one hour—a severe cough in one night—and has proved to be the best remedy for a cold, for a diseased stomach and many other purposes. LOCKWOOD & GRAHAM, Randolph City, Ohio. For sale, wholesale and retail, by G. H. French, Wilmington, and by Druggists generally.

TO THE VOTERS OF NEW HANOVER COUNTY. THE subscriber respectfully announces himself a candidate for re-election upon the 6th day of August next, to the Office of Clerk of the Court of Pleas and Quarter Sessions of said County. Grateful for the confidence and support which his fellow-citizens have heretofore extended to him, he trusts that his efforts to merit that confidence will secure to him a renewal of their suffrages; and in the event of his re-election, he can only pledge to the honor of his constituents to discharge faithfully and acceptably the duties of said office. SAMUEL R. BUNTING. April 30.

THE COMMERCE NOT DESTROY THE EARTH.

But it is already absorbing so much elemental heat as to seriously interfere with the health of all warm blooded animals. The murrain in Europe, and of the same or a similar affection is already seriously thinning the live stock of the farmers in this country.

"On Eggs and mules the infection first began, and last the vengeful arrow fixed in man. This warns us to beware of Cholera last. RETH'S pills in our possession, ready on the first appearance of sickness, we shall pass through the danger without injury. Let not prejudice prevent our best experience. Sold at 48 Broad Street Building. WM. H. LIPPETT, Agent, Wilmington, N. C."

ANOTHER REMARKABLE CURE. DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY. REV. JAMES M. DURBOROW, Pastor of Berlin Circuit, Baltimore Conference. A full and splendid set of silver service was recently presented to Miss Caroline R. Seabury by the citizens of Columbia, Miss., as a testimonial of their appreciation of the noble and self-sacrificing spirit evinced by her in the service which she gratuitously rendered as nurse in a case of small pox, from which friends and acquaintances fled in terror.

THE HAIL STORM IN SPOTSYLVANIA. The hail storm in Spotsylvania county, Va. on the 6th, caused great damage. Mr.
