INTERESTING CASE. BALTIMORE, July 28 .- Our readers will probaly remember that an insurrectionary movement ok place some time since at Peru, headed by Gen. Vivanco, and that the Chincha Islands were. seized and temporarily held by the party in opposition to the establishment. During the possession of Vivanco a considerable quantity of gua no was sold by his orders, and several vessels

boaded with the cargoes thus obtained sailed for the United States, and probably for other countries. The barque Huntingdon, belonging and consigned to the house of Jas. Corner & Sons, of this city, has been the first to arrive, and here r. go was seized on Friday last, under a writ of replevin issued out of the Circuit Court of the Uniwe apprehend that further amend- ted States for this district, at the suit of the republic of Peru. The political questions involved in the controversy are; it will be seen, of much interest, and it is to be presumed will pass for ultimate adjudication to the Supreme Court of the United States The pecuniary interests concerned are likewise beavy. The suit has been instituted, as we learn, under the immediate direction of the Peruvian dolster, Mr. De Usma, who is represented by Messrs, Reverdy Johnson, John Nelson and S. T. Wallis. The Messrs. Corner, who, it is understood are only consignees of the cargo, appear en to set their faces against "lynch" by Messrs. Brown and Brune .- Sun.

About a week ago, says the New Orleans Picabune of the 14th instant, a strange case of love at first sight, occurred in the airy balconies of the Jefferson Hotel, at the lake terminus of the Carrolton and Jefferson Railroad. The lady was young and fair, with bright, lastrons eyes, and a wealth of raven curls; and as she stood looking out on the zephyr-ruffled waters of Lake Pontchartrain, she seemed almost divine. Wonder not, then, that she made a deep and lasting imression on the susceptible heart of R-. Before returning to the city, he sought an introducion, which, in the course of three days, ripened into an intimacy and an avowal of eternal love -His passion was returned; his proposition that the twain should become "one flesh" was accepted, and yesterday they left the city on a matri-

A SUCCESSFUL SHIPBUILDER. The Newburyport Herald of Wednesday, in an nouncing the launch at that port of the ship Josiah L. Hale, says that she is the fifty-fifth vessel launched by John Currier, Jr., since he commenced business in 1831, an aggregate of 37,000 tens, and more than all the tennage of Newburyport at the present time. The smallest ship built by Mr. Currier was the Brenda, of 375 tons, the largest, the Merrimac, of 1.105 tons. Four others were of over 1,000 tons burthen, and all of

them have been of the first class, the most endu-

ring workmanship and materials. The Herald "It is noticeable how the size of ships has been ncreased, as shown by this list, in twenty-five cears. One vessel reached 700 tons in 1841, and mother 800 tons in '45; but of late they have been nine hundred, a thousand, and eleven hundred tons, but one, in the whole, exceeding the onnage of the present ship. Mr. Currier has not built any of the larger class, like some that have been built by the side of him, measuring from 14 to 1,800 tons, but yet the advance has been striking; we remember when the first 1,000 ton ship was built at the north end, that a tremendous excitement was occasioned at the laun ching, and everybody wanted to see the monster.

DOLLARS FOR EDUCATION. At the last monthly meeting of the Connecticut Historical Society, Hon. Henry Bernard, the Presideut, presented an interesting paper relating to the amounts of donations, bequests, &c., made for educational, literary and scientific purposes io the United States. The whole amount of land appropriated by the General Government for educational purposes to the 1st January, 1854, was stated to be fifty-two million seventy thousand two hundred and twenty-one acres; which at the minmum price of such land when first brought into market, represented the magnificent sum of \$66,-000,000, but which at this time could not be worth less than \$200, 000,000. The amount of donations and subscriptions by individuals far exceeds all that had been given by State Legislatures. Mr. Bernard read from a table exhibiting the donations and bequests made by citizens of Boston within the last half century, amounting

to upwards of \$4,000,000. DESTROYING HOUSES OF ILL FAME. A mob in Indianapolis, Ind., "washed out" number of houses of ill fame a few evenings since and drove off the inmates, much to the relief of the citizens of the neighborhood.
